

THE lack of brains about unity in the trade union movement, nationally and internationally, in order to more effectively wage the struggle against capitalism is one of the most important immediate problems of the workers of the world. And in view of the charges of disruption hurled at the Communist by the social democrats it is interesting to note the developments in the negotiations now taking place between the red international of Moscow and the yellow international of Amsterdam.

WHO are the disruptors? Who are sincerely in favor of unity? No honest worker will be any doubtful in reaching a conclusion on this question. He will read the correspondence between the two organizations, published in the European press and in the DAILY WORKER. It is quite evident that the leaders of the Amsterdam International are placing every obstacle in the way of unity, going even so far as to refuse meeting with representatives of the Russian unions, the latter only demanding an unconditional conference.

SO outrageous have been the conduct of the officials of the Amsterdam International that a great wave of protest has arisen over Europe against this. It is most significant that the backbone of Amsterdam, Lenin, some of our readers might think that the opposition to the Amsterdam officialdom which is growing in England came mainly from the Communist elements. I will quote the following editorial comment from *Laborer's Labor Worker* on May 30:

THE Russian Trade Unions have replied to Amsterdam by asking again for an unconditional conference. The Amsterdamers, however, are still trying to make them promise to join up with the International Federation of Trade Unions on condition of being allowed to confer with it. This, of course, is sheer obstructionism. The I. P. T. U. leaders abroad don't believe in this, and they are trying to stop it. The next move is with the British representatives; for the I. P. T. U. will think twice before it turns them down. It is to be hoped their support. They must see the absolutely unconditional conference that obviously ought to be called.

The Russian reply makes it plain that they want to come in, and that they want to stick to the original wording of the I. P. T. U. statutes. But they want to be assured that they are really being invited in as friends. (Continued on page 3.)

### LETTERS FROM CHINA TELL OF BITTER STRUGGLE OF CHINESE WORKERS AGAINST ALIEN BOSSES

(Editors Note: On Saturday we printed a letter from Shanghai, China, written by Comrade Sibad. We have received more letters from him about the conditions which led up to the present uprising against the foreign imperialist invaders. We are sure the readers will be interested in these letters which throw light on the situation in China, darkened so much by the capitalist press. The first letter will be printed tomorrow. The second article will be printed tomorrow. These letters, written by the first strike broke out in February, reveal the conditions against which the Shanghai workers are striking today, as the first strike was beaten by hunger. Now the workers are out again, on the same demands, with the strike becoming general and political.)

By SIBAD  
The Mill Strike Feb. 15, 1925.  
The first publicity that the strike in the Japanese owned textile mills gained was on Monday when the first of a demonstration by the workers on Sunday were known. On Monday there were 25,000 men and women that had refused to enter their factories until certain demands had been fulfilled by the Japanese owners. The demonstration that was held on Monday was interrupted by the forces but was interrupted. (Continued on page 3.)

### GOVERNMENT BACKS A COMMERCIAL AIR FLEET TO FURTHER WAR PLANS

WASHINGTON, D. C., June 9.—Planes developed for commercial aviation in this country were prompted by a study and report made by the war department and turned over to leading business men, of commercial aviation in Europe. It revealed that the United States and Chicago airline, soon to be established, also has the support of the government, which is endeavoring to build up a commercial air fleet.  
The fleet could be easily converted into a war fleet, it is explained.

### CORLEE STRIKE NOW TAKES OUT 100 WORKERS

St. Louis Sweatshops to Be Cleaned Up

By MARTIN A. DILLON.  
(Special to The Daily Worker)  
ST. LOUIS, Mo., June 9.—The opening gun has been fired by the Amalgamated Clothing Workers in its offensive against the sweatshops in St. Louis. The strike is in protest against the wholesale discharging of the employees for union membership. The big issue is union recognition. The strikers also demand a 25 per cent increase of wages, 44-hour week and time and a half for overtime work.

Amalgamated organizers have been in the city for months conducting an organization drive. The campaign of necessity was secret, as the shops are the most hostile to labor organization and known possession of a union card meant immediate forfeiture of one's job. The campaign of unionization has been going on for some time, according to General Organizer Frank Rosenblum, commander-in-chief of the workers' offensive. Other shops will be "pulled" wherever the strikers demands are rejected or where a company attempts to discharge employees for the union.

Circle of Solidarity of Fight.  
The strike thus far only involves the S. H. Corlee Clothing company, the most notorious, "open shop" industry in St. Louis. It is being carried on in St. Louis. It is being carried on in St. Louis. It is being carried on in St. Louis. (Continued on page 3.)

### AMERICAN NEGRO LABOR GETS INDORSMENT OF CHICAGO MUSICIANS

Local Union No. 503 of the International Musicians Federation, has endorsed the American Negro Labor Congress, organized by Negro workers.  
The president of the union has sent a letter to the office of the Labor Congress at 2406 Indiana Ave., near C., wishing the Congress success, indorsing its aims, and announcing the full co-operation.

### BULGAR WHITE GUARD MURDERS 50 WORKERS HELD AS PRISONERS

BELGRADE, June 9.—The newspaper *Vreme* prints a dispatch from Sofia today stating that fifty prisoners accused of belonging to a Communist organization were murdered by the Bulgarian white guard near the railroad station at Iohimian while being transported along together. The soldiers shot them.

### BRING CROUCH, TRUMBULL HERE ABOUT JUNE 26

### Place of Confinement Not Yet Announced

HONOLULU, Hawaii, June 9.—Paul Crouch and Walter Trumbull, now imprisoned in the 27th infantry guard house at Schofield barracks, near here, for defending the Soviet Union against newspaper attacks, will be sent back to the mainland on June 26, if their sentences are approved for the federal penitentiary.  
At yet their destination has not been announced, and they do not know where they will be confined.  
The two United States workers were arrested in March, charged with the "crime" of being Communists. Their sentences were 40 and 26 years in the federal penitentiary. Their sentences were later cut to three years and one year following a world wide protest against their imprisonment for their opinions.

### DOCK WORKERS ON STRIKE HERE FOR BETTER PAY

From two to three hundred dock workers are on strike at the Goodrich Boat docks, at East Water St., New York City. The strikers, who generally get a chance to load freight only about three or four hours a day, and who have been paid 30 cents an hour and one meal, are demanding forty cents an hour. Another demand is decent food.  
The freight handlers declare that the food given them has been too rotten to eat, worse than the meat, and they demand food that at least, does not smell bad.  
Police have covered the docks, and the West Madison street employment offices are sending many workers to do strike breaking duty. They are not taking in a strike on.  
The Goodrich company sends from 13 to 15 boats to Milwaukee, Racine, Benton Harbor, Muskegon, Grand Haven and other ports.  
The strikers are unorganized.

### COURT DECISION IN GITLOW CASE SETS PRECEDENT

### Opens Way for Attack on Other Communists

(By Labor Defense Press Service)  
The decision of the United States Supreme Court in the Gitlow case, constitutional the New York state criminal anarchy law, constitutes the landmark of the court on criminal anarchy and criminal syndicates. The address decision of the Gitlow case, constitutional the New York state criminal anarchy law, constitutes the landmark of the court on criminal anarchy and criminal syndicates. The address decision of the Gitlow case, constitutional the New York state criminal anarchy law, constitutes the landmark of the court on criminal anarchy and criminal syndicates. (Continued on page 3.)

### TRY TO BLAME ENGINEER FOR FATAL ACCIDENT

### Twelve Killed When Bad Rails Give Way

(Special to The Daily Worker)  
CONVERSE, Ind., June 9.—An official investigation was started by the Chesapeake and Ohio railway company here today into the accident which killed 12 and seriously injured five members of a section crew of the Red River branch of the Red River.  
The accident was blamed on the engineer by the railroad officials. The men were laying new rails near the scene of the accident and some opinions were expressed that the rails at the fatal spot had not yet been securely fastened down.  
The debris had been virtually cleared away by three wrecking crews and traffic again resumed.

### FAKERS SPLIT LABOR'S RANKS IN MINNEAPOLIS; BOSSES WIN

MINNEAPOLIS, Minn., June 9.—Complete returns from yesterday's municipal election shows that the treasury of Roby D. Cramer and other former progressives to the labor movement, bore fruit in the election of a reactionary majority to the city council.  
The campaign against the Communists by so-called progressives could have only one result; to split the forces of labor and make it possible for the enemy to break through the line. The new council will be made up of several labeled radicals and 19 conservatives.

### GITLOW SERVED TWENTY-SEVEN MONTHS IN SING SING FOR COMMUNISM

(Special to The Daily Worker)

NEW YORK, June 9.—Benjamin Gitlow, who was the candidate of the Workers Communist Party for vice-president in the last municipal election campaign, will probably be taken to Sing Sing prison after the clerk of the United States supreme court transmits the decision denying the writ of habeas corpus. Gitlow was one of the United States marshal at New York.  
Benjamin Gitlow was one of the leaders of the left wing in the so-called party. He was arrested in the Revolutionary Army. Gitlow was arrested on November 8, 1919, charged with violating the New York criminal anarchy law. He was tried in January, 1920, and sentenced to from five to ten years in the penitentiary following his conviction.  
After serving 27 months in Sing Sing, Comrade Gitlow was released on appeal on May 1, 1922. In September this sentence was upheld by the United States supreme court. Gitlow was taken back to prison.  
In January, 1923, Comrade Gitlow was released on a writ of error. The sentence was argued in April and again in November, 1923. Comrade Gitlow's bail was fixed at \$7,000.00 by Supreme Court Justice Charles E. Hughes. The Gitlow case is now being retried the test case for all criminal syndicate laws.

### CHINESE SEAMEN STRIKE AND ALL FOREIGN CONSULS SOFTEN TONE TOWARD SHANGHAI MILLITANTS

(Special to The Daily Worker)

SHANGHAI, China, June 9.—The Chinese Seamen's Union struck today morning, stopping all British river and coast steamers. The union threatened that the Chinese strikers and strikers are ignored, to the up all shipping, including trans-Pacific and European liners.  
Strikers are directing their chief efforts against the Japanese and British, attempting to effect a nation-wide boycott on goods of those two nations.  
A communication delivered to the foreign press representatives by the Shanghai-American Retired Students club yesterday said:  
"The Shanghai strike was brought about by the foreign police and armed student demonstrators against human labor conditions. Post-war conditions of the victims showed that they were not to be blamed after only ten second warning. A solution of the situation is possible only upon justice being done."  
"Instead of a hard and unfeeling frightened conciliatory tone in the attitude of the foreign consular and other imperialist representatives here, the foreign police and the reluctance of Japan to take up an aggressive and belligerent position in spite of all the attacks upon her interests, and the note of the British body on Sunday indicates that the home governments of the great powers are not altogether anxious to vindicate the rights of the Chinese workers in their realizing that such an action might mean war with the others over the lool.  
Imperialist Backing Up.  
The consular note of Sunday was congratulatory, promising a full investigation of the rioting and adding that if the British 5th police troops were at fault, court action would be taken. The note also promised to excuse their action following the firing, the calling for troops, by saying that when the international settlement was reached with an anti-foreign uprising, the only course was to defend the only course was to defend the Chinese residents—as well as the foreigners."  
"Quit Strikes."  
Yesterday in the Chinese city some speakers at a mass meeting advised workers other than those attached to British and Japanese firms and persons to resume work.  
Chinese Soldiers to Protect Chinese.  
It is reported that the Peking government is ordering 3,000 troops here under command of General Li Yung-Hsiang to protect Chinese against abuse and attacks of foreigners—about those attacks and attacks not of the special kind of the Chinese workers great powers have in the past struck upon China against her consent.  
Shanghai continues under martial law. Two Japanese gunboats and two Japanese destroyers went up on the night of the strike, and the destroyers at the upper river ports. Two other Japanese destroyers have arrived and will remain at Shanghai.

### SALARY BOOST FEELER BEATEN BY FIREMEN

### Fight on Censorship of Political Beliefs

(Special to The Daily Worker)  
DETROIT, June 9.—The convention of the Brotherhood of Locomotive Firemen and Enginemen closed here another sweltering session today. Two major propositions were up before the delegates and the discussion on the following his conviction.  
After serving 27 months in Sing Sing, Comrade Gitlow was released on appeal on May 1, 1922. In September this sentence was upheld by the United States supreme court. Gitlow was taken back to prison.  
In January, 1923, Comrade Gitlow was released on a writ of error. The sentence was argued in April and again in November, 1923. Comrade Gitlow's bail was fixed at \$7,000.00 by Supreme Court Justice Charles E. Hughes. The Gitlow case is now being retried the test case for all criminal syndicate laws.

A resolution proposing to increase demerits per diem from \$14 a day to \$15 a day was hotly combated. It finally lost. Unemployment among firemen is very acute at this time. Many members of the union are unable to find work on the railroads and are compelled to labor in other fields at a wage scale of 40 and 50 cents an hour.  
To have gone back to the boys at home with a \$16 per diem would have made necessary a lot of explanation that must in their very nature have failed to explain.  
It was common talk among the delegates that the proposition to increase their per diem was put out as a feeler to get a rise in the sentiment for an increase in the wages of some railroad officials.  
Another resolution which would allow the brothers to obtain the political affiliations of the entire membership before the convention as this is written. The debate has at times been quite heated. Some of these delegates come from the northwest where "farmer-laborism" continues a potent factor in the political situation. They do not relish the idea of having their bureaucracy assigning their political affiliations here to an elephant, there to a jackass and elsewhere to a pig. The resolution will be disposed of by being tabled.  
There is nothing here that can be considered a real left wing. However, the members of the union who work on the railroads, the reluctance of the officials to adopt a policy of struggle against the bosses' had for the improvement of the conditions on the job has made for a discontent, which, if it can be organized for action, will change the character of this convention into a gathering of some 100,000 bits to a convention of a working class organization.

### Down With American Imperialism!

Manifesto of the All American Anti-Imperialist League

It is a coincidence that the militaristic might of American imperialism is just now being flaunted before the world? Is it by chance that the United States, in its history has been demonstrating in "Far Eastern waters and is now on a "friendly" visit to Australia? Is it accidental that President Harding has proclaimed July 4 as Mobilization Day throughout the United States? Wall Street is preparing its gigantic war profits and is nothing but an administrative outfit of Wall Street.  
The assault upon China is well-timed. It is the purpose of the temporary disorganization following upon the death of the great leader Sun Yat Sen, to shatter the unity of the Chinese people and the Chinese nationalist movement. But the Chinese are offering a heroic resistance. Over 250,000 workers are on strike in the Shanghai area, trying up every factory, mill, telephone, street car and restaurant to force to close. All shops have been forced to close. They have been the imperialist legions. The students of Peking, Hankow, Tientsin, Mukden and many other cities have declared their support of the Shanghai students. Even the weak Peking government has been obliged to send a note of protest to the imperialist powers.  
Everywhere the Chinese are demanding: Cancellation of imperialist privileges and abolition of imperialist extrajurisdiction.  
Cancellation of "rights of extrajurisdiction."  
Removal of the maritime customs, chief source of national revenue, from the administration of foreigners.  
Prosecution of foreign policemen involved in the shooting of students.  
The All-American Anti-Imperialist League, representing the peoples un-der the heel of American imperialism in Latin America, Hawaii, and the Philippines, as well as revolutionary workers in the United States, makes common cause with its exploited Chinese brothers and protests before the whole world against the latest imperialist outrage at Shanghai, and particularly against the actions of the hypocritical United States government, the pretended "friend of China," the so-called "right of imperialism," which has shown itself over and over again to be the leading prototype of capitalist imperialism in the world today.  
The All-American Anti-Imperialist League calls upon all the peoples who are victims of American impe-

### COMMUNISTS IN COURT ON FREE SPEECH CHARGE

### Five Face Jury Today in Fight for Party

The fight of the Workers (Communist) Party for the right to hold open air meetings at W. North Ave. and Orchard St., goes before a Jury in Municipal Court, Room 1106, City Hall, this morning at 10 o'clock.  
Five members of the party have been arrested at this corner within the past few days. The street was closed by the police and the five arrested. The police declared, in violation of an ancient city ordinance that was long ago declared unconstitutional. Last month Karl Reeve, Thuerber Lewis, and John Hecker were arrested on the same corner, and booked under the same ordinance. D. E. Early had previously been arrested. The charge against him was at first the same as against the other Communist, but later a "disorderly conduct" charge was added. All those arrested are out on bail.  
Did you order bundle for Red Week?

COURT DECISION IN GILLOW CASE SETS PRECEDENT Opens Way for Attack on Other Communists

(Continued from page 1) He served 37 months and was released on appeal to the state supreme court May 31, 1932. The sentence was upheld and he was again remanded to prison in January 1933 then he was released on a writ of error appealed to the supreme court in April 1932.

Must Go Back To Prison The attorneys for Gillow are waiting for the final decision of the court to petition for a rehearing. But it is expected that this will be a nullity. Gillow's case has set a precedent in the history as soon as a court order releases his bail. It is thought that Governor Smith on the strength of the precedent in the Gillow case will order the defendants out of jail immediately in this case. But it is also pointed out that the decision of the supreme court might have a bearing on Gov. Smith's future considerations.

The Labor Defense Council, realizing that the legal battle is now over is undertaking to initiate agitation for Gillow's release. Gillow was sentenced at a time when the political hysteria of the twenties was at its height. His conviction was a plain case of railroad. The court records read like a fourteenth century heresy trial.

In his dissenting opinion, Justice Holmes writes, "In the long run, the beliefs expressed in proletarian dictatorship are destined to be accepted by the dominant forces of the community, the only meaning of free speech is that they should be given chance and have their truth or falsity determined by the free play of the market place. It is recalled that Judge Weeks in his thanks to the jury for finding Gillow guilty, said, "A young man, 35 years of age, intelligent, energetic, a striking example of the educational system of the country, able bodied, of full intellect, employed at \$41 a week the last time he was employed and never accumulated any property! That man has now constituted the largest part of Gillow's crime in the eyes of the judge whose whole speech of thanks to the jury was on the theme, 'wonderful'."

Gillow Case Considered Test The manifesto for which Gillow and the others were convicted was in part a historic resume of the proposition that the proletarian revolution is the only way to save the world from the horrors of the present. It was this section of the manifesto for which the five defendants were convicted, although no court or any intention of an overt act was proved by the prosecution or even introduced. Now that the word of the supreme court is an obstacle toward criminal syndicalism laws has been spoken in the Gillow decision that has been looked upon as a test case by the Labor Defense Council in planning a great campaign for the fighting of the dozens of court battles that will be the result.

New Earthquake Scared DENVER, June 9.—A serious earthquake shock was recorded today on the seismograph at the Carnegie College here. The tremor occurred at a great distance, probably across the Atlantic ocean. The seismograph showed the tremor at 7:45 a. m., and continued until 7:52.

RUTENBERG SPEAKS TONIGHT AT MATTEOTTI MEMORIAL MEETING C. E. Rutenberg, executive secretary of the Workers (Communist) Party will be the principal speaker at the Giacomo Matteotti memorial meeting tonight at 8 p. m. at Hall Waverly, Waverly and Park streets.

Large Attendance of Italian Workers as well as of other nationalities will be there to pay tribute to the memory of Matteotti who was murdered by the fascist terrorists just a year ago today.

WOOD'S PHILIPPINE COSSACKS MURDER 6 MORE MORO PEASANTS MANILA, P. I., June 9.—Six Moros were killed and three Filipino constabularies were wounded in a pitched battle in the Lake Lanao region of Mindanao province, according to reports here today. The Moros are in rebellion against the American dictators who are murdering the Moro peasants under the direction of Gov. Leonard Wood.

C'mon Over! If you have a day, an hour, or a minute to spare—why, c'mon over. There is so much work piled up on the small force in our office that we need your help so very badly, to insert letters, address, seal and stamp envelopes and ever so many other little jobs that have us swamped. If you volunteer your services that's a fine way to help the DAILY WORKER. We'll be glad to see you—so just for fun, c'mon over!

SUN OF RAMSAY MACDONALD BRANDS "ZINOVIEV LETTERS" FORGERY—INDICTS HIS FATHER'S POLICIES

SYDNEY, Australia, (By The Associated Press)—Mr. Malcolm Macdonald, son of the ex-prime minister of Britain, who is at present in Australia, delivered during the course of a public speech at Sydney that the notorious Zinoviev "letter" released during the last British election was an impudent forgery. He declared that he considered it an insult to be tantamount to an indictment of the labor government of which Mr. Ramsay Macdonald was at once the head and the foreign secretary, for the apparent acceptance of the genuineness of that letter by Macdonald was directly responsible for the disastrous effect which it had upon the fortunes of the British labor party in the general elections.

BORAH WOULD LEAVE CHINA FREE, BUT THERE IS NO CHANCE WHILE IMPERIALISTS RULE IN AMERICA

By LAURENCE TODD (Federated Press Staff Correspondent) WASHINGTON, June 9.—Chairman Borah of the senate foreign relations committee believes that the United States should give up its control-territories privileges in China, just as it has been compelled to do in Turkey. He declares, in the midst of the storm raging about the foreign-controlled settlement of Shanghai, and in the face of threatened popular uprisings that may expel British, Japanese and other foreigners from China, that China should be administered by the Chinese.

No Withdrawal of Investors This declaration by Borah has found no echo in the White House or state department. President Coolidge hopes that everyone will remain calm. So that things in China may settle back into the old groove, Secretary Kellogg promises that there shall be no military "occupation" of China by American armed forces, and he thinks that the American forces now in China will be enough to meet the emergency of the general strike. But he and his chief offer no pledge of withdrawal from China, and he says that such as is demanded by the student strikers movement.

Monetary excitement has been created by the Associated press telegrams that Japan and the Soviet Union are about to start a war in China, using the Manchurian bandit-dictator, Chang Tso-lin and the Chinese army as a shield for their respective implements. But White House and state department deny knowledge of the essential facts regarding the situation. Speculations were being poured thru Mongolia into Chang's hands, and that Japan is drilling Chang's army.

The state department has published numerous reports from its agents in the Far East, that the Soviet ambassador, Karakhan and the Moscow adherents were encouraging the Chinese to demand for liberation from foreign overlordship. It is not at all sure that the Japanese are a great deal to start a war in China that may greatly increase Soviet power in Asia. It knows that the Tokio politicians fear the Chinese might rise at home, and will step cautiously.

Very Doubtful Whether Borah will be able to get a majority of his senate committee to favor American withdrawal from the entire territorial power in China, during the coming session of congress, is doubtful. Few of the senators have studied the Chinese situation, and the Senate is that it should not be disturbed at all. If China does not accept foreign dictation, then maybe we should withdraw more warships to guard her. However, if staying in China shall have been shown, during this summer's struggle, to be very costly to the American treasury, that fact will have weight.

Minister Macmillan, before leaving Washington to take up his duties at the British embassy, has issued instructions from Secretary Kellogg. These instructions deal largely with policy to be followed in the conference between American and foreign diplomats are soon to hold, to decide what rates on imports China may charge.

Boston Steamer Hits Derricks BOSTON, June 9.—Lives of thirty members of the crew of the freight steamer West Sagwin were imperiled today when the ship crashed into a submerged derrick in a fog in Vineyard Sound.

Wireless Messages from the West Sagwin said her forward plating should be jettisoned, that temporary repairs had been made and that she was proceeding to Boston, her original destination.

Distribute a bundle every day during Red Week of June 15 to 21

WOOD'S PHILIPPINE COSSACKS MURDER 6 MORE MORO PEASANTS

MANILA, P. I., June 9.—Six Moros were killed and three Filipino constabularies were wounded in a pitched battle in the Lake Lanao region of Mindanao province, according to reports here today. The Moros are in rebellion against the American dictators who are murdering the Moro peasants under the direction of Gov. Leonard Wood.

GENERAL STRIKE AGAINS ASPHALT LAYING Workers Lose Jobs in Asphalt-Cement War

By J. LOUIS ENGDHAL

TODAY, the simple-minded among those who lay claim to some brand of fake liberalism try to draw a parallel between the "Tennessee case" and developing events in the educational system of the Union of Soviet Republics. But they only succeed in stepping on their own toes and revealing their own ignorance.

It is declared that the Soviet Union is replacing aged teachers with younger teachers. This is compared to the plan to remove the younger teachers, in Tennessee, and elsewhere, to run for anti-evolution legislation.

Yet the difference is clear. The Soviet Union takes its stand on the side of progress, with the most up-to-date methods of teaching, with the modern sciences, when it puts the young Russians, inspired by the new social order coming to life thru their White Republic in its school rooms, that is, political, industrial, social, force to the front. They are passed on to the growing generation that eagerly accepts them.

The passing of the aged instructors, schooled in the reaction of the deposed czarism, in the passing of the black ignorance imposed upon the masses by the old order that disappeared on Nov. 7, 1917. Only those who still hope for the restoration of the czarism will weep at their going. Among these, of course, are to be found the propagandists of the American capitalist press.

But in Tennessee, U. S. A. There the simple principles of evolution are under the ban. The youthful professor, "Johnny" Scopes, was indicted under a law passed by state legislators who declare that the theory of evolution "interferes with the bible."

The Russian czarism overworked religion in its efforts to keep the masses humble and contented with their lot. That is the effect of the Tennessee legislation, that wouldn't change a cent in the habit of the American people. The henchmen of capitalism in the Tennessee legislature are in the same boat that harbored the political agents of czarism, who believed that the czars ruled thru divine inspiration, an idea that the late German kaiser also entertained before he met his job. This belief has also been the basis of the American industrialists and may still be, altho they manage to keep rather quiet about it.

The Scopes trial is one of those harmless things, however, that every liberal likes to play with. Scopes is still very respectable, since he believes in his Christianity. But Scopes must not be placed in the same category these liberals will argue, with the young Communist teachers of the Soviet Union, who are not content to patch and mend the capitalist system, but insist on destroying capitalism completely, even to its smallest roots, to make way for Communism. To them it is a horror to rid the Russian educational system of aged czarist teachers who live in the thoughts past, just as they are stricken with terror at the thought that their own revolution will be overthrown by the Workers' Republics might enjoy greater freedom and security of development.

The liberated men, women and children of the Soviet Union alone may laugh at the antics developed by the "Tennessee trial," for they alone are on the road to complete intellectual, as well as political and industrial liberation. Communism sweeps away all the capitalist rubbish that gets in its path. This belief has also been the basis of the American industrialists and may still be, altho they manage to keep rather quiet about it.

SENATE PASSES DUNLAP STATE COSSACK BILL Small Agrees to Aid the Manufacturers

SPRINGFIELD, Ill., June 9.—The senate today passed the Dunlap state cossack bill, providing for a force of 700 mounted cossacks to be available for strikebreaking duty, by a vote of 28 to 8.

RED WEEK—June 14 to 21

Push Forward in Soviet Republics But Public Is Backward in Tennessee

By J. LOUIS ENGDHAL

TODAY, the simple-minded among those who lay claim to some brand of fake liberalism try to draw a parallel between the "Tennessee case" and developing events in the educational system of the Union of Soviet Republics. But they only succeed in stepping on their own toes and revealing their own ignorance.

It is declared that the Soviet Union is replacing aged teachers with younger teachers. This is compared to the plan to remove the younger teachers, in Tennessee, and elsewhere, to run for anti-evolution legislation.

Yet the difference is clear. The Soviet Union takes its stand on the side of progress, with the most up-to-date methods of teaching, with the modern sciences, when it puts the young Russians, inspired by the new social order coming to life thru their White Republic in its school rooms, that is, political, industrial, social, force to the front. They are passed on to the growing generation that eagerly accepts them.

The passing of the aged instructors, schooled in the reaction of the deposed czarism, in the passing of the black ignorance imposed upon the masses by the old order that disappeared on Nov. 7, 1917. Only those who still hope for the restoration of the czarism will weep at their going. Among these, of course, are to be found the propagandists of the American capitalist press.

But in Tennessee, U. S. A. There the simple principles of evolution are under the ban. The youthful professor, "Johnny" Scopes, was indicted under a law passed by state legislators who declare that the theory of evolution "interferes with the bible."

The Russian czarism overworked religion in its efforts to keep the masses humble and contented with their lot. That is the effect of the Tennessee legislation, that wouldn't change a cent in the habit of the American people. The henchmen of capitalism in the Tennessee legislature are in the same boat that harbored the political agents of czarism, who believed that the czars ruled thru divine inspiration, an idea that the late German kaiser also entertained before he met his job. This belief has also been the basis of the American industrialists and may still be, altho they manage to keep rather quiet about it.

The Scopes trial is one of those harmless things, however, that every liberal likes to play with. Scopes is still very respectable, since he believes in his Christianity. But Scopes must not be placed in the same category these liberals will argue, with the young Communist teachers of the Soviet Union, who are not content to patch and mend the capitalist system, but insist on destroying capitalism completely, even to its smallest roots, to make way for Communism. To them it is a horror to rid the Russian educational system of aged czarist teachers who live in the thoughts past, just as they are stricken with terror at the thought that their own revolution will be overthrown by the Workers' Republics might enjoy greater freedom and security of development.

The liberated men, women and children of the Soviet Union alone may laugh at the antics developed by the "Tennessee trial," for they alone are on the road to complete intellectual, as well as political and industrial liberation. Communism sweeps away all the capitalist rubbish that gets in its path. This belief has also been the basis of the American industrialists and may still be, altho they manage to keep rather quiet about it.

SENATE PASSES DUNLAP STATE COSSACK BILL Small Agrees to Aid the Manufacturers

SPRINGFIELD, Ill., June 9.—The senate today passed the Dunlap state cossack bill, providing for a force of 700 mounted cossacks to be available for strikebreaking duty, by a vote of 28 to 8.

RED WEEK—June 14 to 21

SCOPES DEFENSE WILL MOVE TO QUASH THE CASE Confers with Lawyers in New York City

By J. LOUIS ENGDHAL

DAYTON, Tenn., June 9.—While John T. Scopes, Tennessee school teacher under indictment for violation of the state anti-evolution law, is in New York conferring with his attorneys in the coming trial, it was announced today that motion will be made in the near future by the defense to quash the indictment.

The motion is to be made on the basis of the law being unconstitutional, claiming it violates several sections of the state as well as the federal constitution, and that it is vague and indefinite.

The tentative draft of the motion concludes: "The indictment violates the whole spirit of both the state constitution and the constitution of the United States and is against the policy of the federal government."

Governor Austin Peay, who asserts "evolution is all both," will be subpoenaed immediately to appear at the coming trial, it was announced.

Bryan An Elephant INDIANAPOLIS, Ind., June 9.—William Jennings Bryan in his address in the famous Scopes evolution case is like an elephant in a China shop. This assertion came from Dr. Henry A. King, president of the American Methodist district in the Methodist Episcopal church in the course of a talk upholding the evolution theory.

Scopes schedule of activities for the week included a luncheon with the executive committee of the American Civil Liberties Union at the Civic Club and a conference in the law office of Samuel J. Rosensohn, of the firm of Pitkin and Rosensohn, counsel for the union.

Those attending the luncheon and later the conference, besides Scopes, included Roger Baldwin, Dr. Henry A. King, Dr. Arthur G. Benson, Forrest Batley, formerly of Los Angeles, now setting director of the Civil Liberties Union.

Scopes schedule of activities for the week included a luncheon with the executive committee of the American Civil Liberties Union at the Civic Club and a conference in the law office of Samuel J. Rosensohn, of the firm of Pitkin and Rosensohn, counsel for the union.

PUSH DRIVE ON MINERS UNION

Mellon's Company in the Conspiracy

By LELAND COLWELL, President, P. M. Miners' Union. Evidence of the "open shop" conspiracy to strangle unionism in the coal coal mines again comes to light in the latest letter to the fuel supply committee of the National Association of Manufacturers to members of the association...

The menace is serious in our opinion. It is in the air in the future. Yet immediate, prompt and continuous action at the present time by industrialists is necessary to prevent the worst. Immediate action by the P. M. U. is necessary to prevent the worst...

This is as definite as they dare make their recommendation that members of the national association of manufacturers be expelled from the P. M. U. members will get the point.

Twelve electric loading machines, each making 15 tons in the future, will cost 300 coal miners their jobs at the largest mine of the Sheridan-Wyoming Coal Co. The mines of this company are operated by Peabody Coal Co. which has recently been accused of modifying conditions in defiance of the union agreement at its Oklawaha, Ill. mine.

The new labor saving machines will be duplicated at other mines of the Wyoming Co. If they prove successful, the company promises to save 35 cents a ton in cost of production.

Engineers commenting upon the "new" says "The Wall Street Journal" states that their use offers one of the best solutions for the present mining problem of labor.

That the Pittsburg Coal Co. inflated 1924 costs by continued operation of obsolete mines in order to report a profit on continued operation of union scale appears from a Black Diamond report on the Pittsburgh district. This report admits that the amount of 16 mines has only 100,000 tons of coal.

These mines were about due for abandonment anyhow. Says the report: "Many were mines in which the coal had been practically all worked out. Others were mines installed to work out certain coal and some of the coal had been mined later by adjacent mines of the company."

This company, controlled by Secretary of the Treasury, is taking every means to undermine the union wage agreement. All its union mines are now closed.

SOVIETS STOP PROPAGANDA OF "RELIEF" BODY

Rockefeller Money Is Used for Czars

MOSCOW, June 9.—The American students' relief association, which has been supplying counter-revolutionary propaganda with funds donated by John D. Rockefeller, has been expelled from the Soviet Union because their passport visas have expired.

The visas were not renewed, it is reported here, because the organization violated its agreement to confine its activities strictly to relief work and attempted to spread propaganda against the Soviet Union.

The Rockefeller organization refused to add the working class students and teachers, giving food only to the counter-revolutionaries.

"We do not need any assistance from such capitalist organizations," one Soviet official declared.

AMERICAN WORKERS WAGE CUTS, AND THE WAR THREAT IN CHINA. Will be the subject discussed at a street meeting Wednesday evening, 8 p. m. at the corner of Lincoln and West Madison. Thurgood Lewis will be the speaker and the meeting will be conducted by the Mid-City Branch of the Workers (Communist) Party.

D'Annunzio, Gets the Flu. D'Annunzio, famous poet, playwright and patriot is ill with influenza at his villa here.

The Gitlow Case and "American Democracy"

By C. E. RUTHERBERG.

THE supreme court of the United States has handed down a striking confirmation of the Communist contention that American democracy is a sham and a fraud. This confirmation is contained in the decision upholding the conviction of Benjamin Gitlow and the New York criminal anarchy law. The decision was rendered after two and a half years consideration of the case during which the court twice heard arguments.

History of the Gitlow Case. In order to understand the far-reaching significance of the decision in the Gitlow case a knowledge of the origin of the case is necessary. The conviction of Gitlow on a charge of criminal anarchy grew out of the first attempt to form a Communist Party in the United States. In upholding the conviction of Gitlow the supreme court has declared illegal the advocacy of the principles of Communism and at the same time has held the conviction of Gitlow on a charge of criminal anarchy on the statute books of twenty-six states, which were passed during the period of the birth of the Communist Party in the U. S.

Immediately after the signing of the armistice there came into life in the socialist party a left wing which supported the principle of the Communist Party in the Russian proletarian revolution. This left wing was the support of the Communist Party in the U. S. The answer of the right wing reformist leaders of the socialist party to the left wing was to elect a national convention of the party and affiliate with the Communist International was the wholesale expulsion of the left wing members from the party.

SOVIET MODEL FARMS DEVELOP BETTER CROPS

Good Grade Seeds and Pure Bred Cattle

By ALFRED KNUTSON (Special to The Daily Worker). The Soviet farms have as their purpose to develop pure bred cattle and good grades of seeds and place these things at the disposal of the farmers. These farms are agricultural experiment stations where the farmer in a particular district can go and get good seeds, pure bred cattle and valuable information as to how to get the best results out of their work on the farm.

Modern Production Methods. It is true that these stations cannot do much more than to supply the lack of modern farm machinery, but it is only a question of time when this need can be supplied. The Soviet authorities are all the time anxious to make use of the most up-to-date farm production methods available, no matter from what source they come.

The size of the Soviet farms is about one section or 640 acres, some containing a larger area and others a little less. The farms near Moscow have an area of about 360 desjatins, approximately one section of land, and of this 123 are under cultivation. The farms in timber land and the rest meadows, pastures and garden land.

A Soviet Farm. The farm has 13 horses, 40 milch cows, 20 calves, 20 pigs and 23 workers. With the introduction of modern farm machinery the number of workers can undoubtedly be materially reduced. This farm is now self-sufficing. The wages of the workmen is 25 rubles per month and they receive 100 rubles for their quarters, heat and food. The board costs the workers about 7 rubles per month. The workday is 10 hours. The farm is self-sufficing. The wages of the workmen is 25 rubles per month and they receive 100 rubles for their quarters, heat and food. The board costs the workers about 7 rubles per month. The workday is 10 hours. The farm is self-sufficing.

Like Soviet Management. The manager of this horse farm is the former owner—a bourgeois of the old days. He was very well satisfied with the work on the farm under the new government than during the reign of the Czar. The average horse breeder in the Soviet government was proceeding along far more practical and useful lines than the rulers of the old days.

The walls of the residence are decked with all kinds of large paintings of different breeds of horses and the manager took particular delight in explaining the merits and demerits of the various types. His very life was wrapped up in horses.

When asked the horse seller a good price, stallions selling for 1,000 rubles and mares for 600 rubles (one ruble is about 40 cents). The average horse breeder in the Russian farms generally in cultivating the land is valued at from 50 to 150 rubles.

Under the new economic policy every enterprise is expected to be self-supporting but this farm is not yet able to pay its way. The government has to subsidize it. The farm as production in both industry and agriculture increases it becomes more and more liberal with such assistance.

Letters from China Tell of Struggle

(Continued from page 1) down with years of slavery and living under indescribable conditions. The struggle for the rights of the Chinese workers will be a long and hard one.

The municipal council seeing a chance for the endangering of foreign life and property" rushed a carload of detectives to the scene. The strike was likewise pushed into the creek. Some of the strikers had climbed over the walls of the mill-wards to urge the ones who had remained in the mill to walk out. There is a possibility of a sympathetic strike on the part of other textile factories which will mean that the foreigner will have to open up his bulging pocketbook or else take the alternative, a bath, this time not in Goodchuck Creek but in the deep blue sea.

The Mill Strike Feb. 18 1925. The number of strikers has been increased one thousand, the total now being 40,000 strikers. The strikers are expressing various opinions as to the cause of the strike. They infer that the strike is backed by the "Reds" and that the strikers should shirk gold at the bottom of the whole strike. Fear is being expressed that the other factory workers will join a sympathy strike. The police have started action against the leaders. The strike is progressing. It will probably develop into something that will bring about a general cleaning up of the textile industry in Japan to reconsider the conditions which exist for the slaving textile workers and in the end concede the demands which will be presented in a day or so.

Instructions for the Labor Party Campaign

Adopted by the Central Executive Committee of the Workers Party
GENERAL: 1. The party shall organize in all industrial centers for the idea of a national labor party and for the formation of local and state labor parties.

Wherever the issue of the Labor Party is raised, this shall be done in connection with and on the basis of the present day issues of the workers, such as a struggle against wage cuts, etc.

There are still in existence in many localities various nonpartisan political bodies of trade unions, these nonpartisan committees and organizations shall be brought forward by the trade union bureaucracy to counter and check any development toward a Communist political party.

Wherever there are in existence state and local progressive parties or C. P. A.'s or farmer-labor parties, it shall be the policy to secure the election of party members or supporters to these conferences and fight there for class political action.

Where we gain a majority for the formation of a labor party, we shall make it sufficient mass support to make it possible to enter the bank for the nomination of a labor ticket.

Where we remain a minority in such organizations but still have support, we shall strive to form a propaganda committee for the formation of a labor party.

Where a conference or congress of five Political Action and labor party organization exist side by side, we shall follow the same policy of organizing the workers' party.

Where a conference or congress of five Political Action and labor party organization exist side by side, we shall follow the same policy of organizing the workers' party.

Where a conference or congress of five Political Action and labor party organization exist side by side, we shall follow the same policy of organizing the workers' party.

organization of a state party, if state for the organization of a national party.

Where we gain a majority for the formation of a labor party, we shall make it sufficient mass support to make it possible to enter the bank for the nomination of a labor ticket.

WORKERS AID FILM "RUSSIA AND GERMANY" RILES FURNITURE TRUST BUT LABOR FLOCKS TO SEE IT

SHEBOYGAN, June 8.—Almost 600 people saw the picture "Russia and Germany" and "Beauty and Bohemia" in Sheboygan Opera House.

The furniture trust was very much alarmed by the interest aroused in the workers by this picture and by the thunderous applause which was made by the audience every time the hammer and sickle was shown.

The extent of the fright expressed by the bosses is evidenced by the editorial which will not cause controversy in the press, the mouthpiece of Sheboygan capitalists.

The list of industrial accidents in this city is very high. It is a common sight in Sheboygan to see a worker with a mutilated hand or several of his fingers cut off.

A few miles from Sheboygan there is a large Plumbering Mfg. Co. of Kenosha which dominates the entire city bearing its name and Koheler rules more effectively and has a greater control over the material world than any boss there has.

Koheler provides the rules prohibiting the workers from buying any goods in the city, exercising their almost a complete monopoly.

There will be another notwithstanding the assertion of the bosses sheet, the Sheboygan Press that "There will never be another."

LONDON (By Mail).—Germany's "far from the state of disarmament required by the Versailles treaty," the report of the international military control commission published here tonight.

It is learned that the South Russian trust disposes of some 30 million pounds of iron ore which it sells in foreign markets in surplus of the ore already purchased by the German firms.

Lawyer Invents Red Hoax. ATLANTIC CITY, June 8.—Melvin A. Johnson, a Boston lawyer, got some publicity for his "Red Hoax" supplementary demand for another supply of from 30 to 50 million iron ore has been received from America.

Will Be Held from June 15 to June 21

Every reader of the DAILY WORKER, every Communist in and out of the Workers (Communist) Party; every sympathetic worker—

that makes thousands of thinking and ACTIVE workers in this country who will do this—

WILL YOU DO IT?

This is the final week to complete the Second Annual Sub Campaign to build YOUR paper.

How many copies will we send YOU everyday during this week? Give number, address and how many special cards you will need.

II. Our Relations to Labor Parties

Wherever local or state labor parties are organized having substantial trade union support, we shall endeavor to have the corresponding Workers Party organization affiliate with such a labor party.

We shall carry on a systematic campaign for the upbuilding of such parties thru securing the affiliation of trade unions and other workers' organizations.

AMERICA ORDERS IRON ORE FROM SOVIET UNION

Italy and Germany Get Big Supply

MOSCOW (By Mail).—The South Russian ore trust has received another set of inquiries from numerous foreign firms regarding the possibility of purchasing Soviet iron ore.

It is learned that the South Russian trust disposes of some 30 million pounds of iron ore which it sells in foreign markets in surplus of the ore already purchased by the German firms.

Lawyer Invents Red Hoax. ATLANTIC CITY, June 8.—Melvin A. Johnson, a Boston lawyer, got some publicity for his "Red Hoax" supplementary demand for another supply of from 30 to 50 million iron ore has been received from America.

THE THEORY AND PRACTICE OF LENINISM

By I. STALIN
An important work on Communist theory and practice during the period that Lenin lived and led—the period of Capitalist Imperialism.

This book issued for the first time in this country, is written by a close co-worker of Lenin, at present secretary of the Russian Communist Party and a figure in the International Communist Movement.

1113 W. Washington Blvd., Chicago, Ill.

RAILROAD LABOR BOARD CANNOT FORCE WITNESS

Court Ruling May Be Prelude to Worse Laws

WASHINGTON, June 9.—The United States supreme court ruled today that the railroad labor board, located in Chicago, has no power to compel attendance and testimony of witnesses in a case of controversy over which it was given jurisdiction by congress.

The ruling of the court on this question was asked by the United States district court at Chicago in the case of D. B. Robertson, a labor leader of Cleveland, Ohio, charged with a conspiracy to injure the railroad labor board. Robertson contested the validity of the court order.

The basis of the supreme court's decision was that a federal court order does not compel persons from other districts to obey its orders—that it has no authority outside its own jurisdiction.

The result of the decision probably will be that an effort will be made by the railroad companies in the next congress to amend the law so that the railroad labor board will have direct authority to compel attendance of labor witnesses and to enforce its rulings against the railroad companies. Proper enforcement of the board has been made in the past and it is expected that these will be renewed in congress in December in view of today's decision. The board has stripped the board of all its supposed power. Without the authority to get witnesses or enforce its rulings, the board is practically helpless. It was pointed out, except as an investigating agency of the federal government.

Alfred Dodge Murk Bulletin. MADRID, Spain, June 9.—Rumors of another attempt at Catalonia, Spain, to assassinate King Alfonso were in circulation in Madrid today, but the censor prohibited any Madrid newspaper publishing incidents of what had occurred at Catalonia. It was said that "persons of high rank" had been placed under arrest at Catalonia and another report asserted there had been eight summary executions.

Rent Sherks Offer No Hope. Rents for apartments, flats, houses and cottages will remain at the high level now prevailing in a large number of American cities, says the National Association of Real Estate Boards. This country-wide combine of rent sharks stands stationary in 73 per cent of 231 cities. A per cent rising and a slight downward tendency in only 45 cities. Canadian cities report rent stuck at the peak in every one of 100 cities.

Rents in large cities for the same kind of dwelling average two to three times the rate in smaller cities of the 125 reporting, the association says.

Distribute a bundle during Red Week.

EAST LIVERPOOL DEAD CITY WITH SHOPS AND POTTERIES CLOSED; WORKERS RALLY TO RED LEADERS

EAST LIVERPOOL, O., June 9.—The industrial situation here is about the same as it has been for months; the potteries—the leading industry—working two and three days a week on an average. Some pottery superintendents have told the men that they would have that much work until July 4, but after that, nothing could be promised them.

We are expecting complete layoffs all along the line and that in the fall work will be offered with wages cut for a couple of months.

At least, this method has been used in many cases to avoid, and at the same time to wage, a strike. The British and German potteries are pretty angry because of a strike two years ago, and the men are in no condition to weather another strike at this time.

At least, this method has been used in many cases to avoid, and at the same time to wage, a strike. The British and German potteries are pretty angry because of a strike two years ago, and the men are in no condition to weather another strike at this time.

The R. R. shops in Wellfleet, Iowa, which were closed for several weeks, have been reopening since the 1st of June. The shops were closed for several weeks because of a strike two years ago, and the men are in no condition to weather another strike at this time.

Report Shows Infants of Very Poor Have Slim Chance in Early Months

WASHINGTON, D. C., June 9.—In a recent survey made by the United States Children's Bureau on the question of infant mortality the following facts came to light: Deaths occurring annually from epidemics and communicable diseases are very small while deaths resulting from malaria and intestinal diseases are very large.

Approximately 287,000 babies die annually under one year of age and the bulk of these are cases where mothers must go out to work daily while the baby is still very young.

The report also points out that babies fed on mother's milk during the early months have a better chance than those fed on the bottle.

Passes Enroute to Japan. SYDNEY, Australia, June 9.—Commander De Finedo, chief of staff of the 11th Air Force, is reported to have left Australia today enroute to Japan, leaving next Monday April 12.

NEW ENGLAND IS CHOSEN FOR WAR GAME THIS YEAR

Exercises on the Pacific Coast Too Expensive

By H. SIDNEY BLOOMFIELD. (Special to The Daily Worker)

WORCESTER, Mass., June 9.—Economic fact is evidently making its influence felt in the war department. The British and German potteries are pretty angry because of a strike two years ago, and the men are in no condition to weather another strike at this time.

The officers are picked amongst the highest in the army and include 12 colonels, 17 lieutenant-colonels, and 27 majors and a small group of naval and marine officers, under the leadership of Maj. Gen. Hanson. No troops will be heard; there will be no troop movements. Instead, officers will be sent out in the most moving rapidly by automobile.

Like the "Blacks" and "Blues" of the Pacific West games, the game here will not be a theoretical exercise to point out the faults of the points considered are the placing of the National Guard units in the N. E.

The evening previous, the secretary was visited by two men, one in uniform, who claimed to have been sent by the mayor of Worcester to a meeting to be held next day.

A "Pake" Co-op Mine. Power Plant, near here, (called formerly "Co-operative"). The company is in its soft-coal mines under the following conditions: 1. The output of the mines are now working with the company in some assuming half of the "dead work."

COAL OF KUZBAS HELPS REBUILD STEEL INDUSTRY

Soviet Union Speeds Up Coke Production

NEW YORK, June 9.—The output of coke is to be doubled at Kuzbas, Soviet Union Industrial Colony, Kemerovo, Siberia, the New York Times reports.

Production of coal during April amounted to 1,875,000 tons, equal to 1924 output. Owing to the enlargement of the market in Siberia for coal Kuzbas is reopening the Karl Marx shaft at the Lenin, formerly Kolchusha, mines.

Kemerovo coke is shipped to the Ural where it is used in the manufacture of steel. A recent test of the coal in the Prokopyevsk mines, operated by Kuzbas, has shown that it possesses steaming qualities equal to the best Cardiff coals.

Two hundred and fifty Swedish-Americans, mostly residents of Chicago, are enroute to New York from there they will sail on the Drottningholm for Sweden for the annual homecoming.

Earthquakes in Jamaica. KINGSTON, Jamaica, June 9.—Kingston today was recovering from the effects of a severe earthquake of several days ago. Little damage was done but the residents were terrified.

Philadelphia Makes Further Gains

SAN FRANCISCO FIGHTING FOR LEADERSHIP

During the last week Philadelphia made further gains to take undisputed leadership in the sub campaign. Only three weeks remain in this campaign terminating on July first, and San Francisco with a great drive on in the Bay District, will be the DAILY WORKER is rising daily and threatens the two leaders above it.

This tabulation includes subscriptions in during last week, up to and including June 8 and only those locals having a quota of 100 subs or over. Other locals having a smaller quota are listed below.

Table titled 'THE RACE in the Second Annual Sub Campaign' showing subscription statistics for various cities like Philadelphia, San Francisco, Detroit, etc.

Pottsville, Pa., Ties West Allis, Wis., in Race

MONESSEN STILL LEADS

During last week Pottsville, Pa., rose to a tie for third place and right behind the leaders by filling 120 per cent of their quota. A spirited fight is now on between these cities having a quota of less than one hundred subs and the last three weeks will see a real battle to prove the winner.

WORKERS PARTY HOLDS MEETINGS ON SOUTH SIDE

Hundreds Hear Talks on Communism

With a regular corps of speakers turning out for the speaker's bureau held every Saturday night by the South Side branch of the Workers Party, it was estimated that 2000 persons attended a party and a second meeting at 32nd and 104th.

Both meetings were highly successful. Comrade Barry and Phillips, at the corner of 104th and 105th streets, held every Saturday night by the South Side branch of the Workers Party, it was estimated that 2000 persons attended a party and a second meeting at 32nd and 104th.

In addition to the many copies of the DAILY WORKER which were sold, hundreds of copies of the Young Workers League Bulletin were distributed to the Negro youth were distributed.

In connection with the sale of the Daily several interesting incidents came to light. One Negro worker in passing Comrade Barry remarked that the DAILY WORKER was the only paper which told the truth about the Russian war, that was why he was beyond it. Another worker stated that his wife would like to see the DAILY WORKER.

Two other workers turned in their names and addresses and expressed a desire to join the Workers Party.

## Supreme Court Legalizes Exceptional Laws

The United States supreme court with Holmes and Brandeis dissenting has upheld the constitutionality of the New York criminal anarchy law, upholding the conviction of Benjamin Gitlow and legalizing imprisonment by the states of men and women for the expression of opinion.

The criminal syndicalism and criminal anarchy laws enacted during the war by this decision become a permanent part of the legal code.

"Defense of the nation from the alien enemy" was the excuse given by the spokesmen of capitalism for those suppressive measures, "war hysteria" was the reason given by the liberals. The first lie and the second wanted to keep an excuse for their continued support of American institutions.

We Communists have been fooled by neither of these groups. We told the workers that these laws were on the statute books to stay, that they were there for one purpose alone—to furnish a thin veil of legality for the jailing of workers whom capitalism considered dangerous to its bloody rule.

Those fatuously cheerful ones of the New Republic and Nation type, the yellow socialists who have quivered with resentment when the Communists denounced American democracy as a huge fraud, can now attempt to explain how it is that the most vicious legislation passed during the world war, state laws providing sentences of from one to twenty years together with enormous fines, have been the only part of the mass of war legislation to be carried over into the post-war period and finally affirmed.

Never fighting on the real issues, never trying to arouse the working class to a sense of the danger, always stressing the legislative formulas, the social-patriots and the social traitors have joined hands here as in every other country.

Every county and state attorney now has the backing of the highest authority in the United States to proceed not only against revolutionists but against any strike of workers. It is to this phase of the criminal syndicalism laws that no one but the Communists have paid any attention. This neglect on the part of labor officials and its middle class advisers has largely prevented any activity of the unions for the repeal of these laws.

The fact that the labor unions are not now engaged in any great struggles, that in 1922 prosecution of the striking railway shopmen was carried on under an injunction process, has given the trade unions a false sense of security. Just at present the Communists and members of the I. W. W. are the only ones against whom prosecutions are carried. But when the trade unions are forced into struggle by nation-wide wage cuts and unemployment, when they begin to rally centers for the working class, there will be a different story to tell.

With the criminal syndicalism laws declared constitutional the defense of their most militant fighters becomes one of the major tasks of the American labor and revolutionary movement.

The decision of the supreme court the way American capitalism has of saying that it is going to do its state and national government to the limit to suppress the working class, that it intends to give no quarter in the class war. The workers will have to accept this challenge and, instead of being cowed and retreating must press forward with new vigor and determination.

It seems to us that this decision of the supreme court throws into stronger relief the processes by which the machinery of the capitalist state safeguards the interests of the ruling class. In comparatively peaceful periods, when American capitalism is not called upon to meet the workers in bitter struggle upon either the political or economic field it by no means forgets the class conflict as a large section of the working class are prone to. On the contrary it quietly occupies as many strategic points as possible, repairs its damaged apparatus and catches firmly those institutions that have been set up for trial and have proved successful in suppressing intelligent and militant workers.

Capitalism works for itself all the time—in war and in peace, in periods of depression and of prosperity. The workers must be equally as conscious and militant in behalf of their class interests. Only then will the sacrifices of the victims with which capitalism fills its jails begin to bear the fruit of the social revolution.

## Class Justice

The American workers who have gotten rid of the patriotic gudgeon grease with which the brains of so many of our working class population are saturated, need not be told that there is one law for the rich and another for the poor. We see a Doheny and Sinclair who loot the nation's oil reserves and a secretary of the Interior who accepts \$100,000 in graft for helping in the game, go scott free while poor victims of capitalist society go to jail for stealing a bottle of milk. This is not the only country where such uneven justice prevails. It exists wherever capitalism exists.

The Voice of Labor, official organ of the Irish Transport and General Workers Union, in a recent issue tells of a broker who was given four years' penitence for stealing about \$200. The same court, four days later handed out a sentence of nine months to a solicitor who fraudulently converted about \$6,500 to his own use. In addition while the poor laborer must slave in the pen during his four years sentence, the solicitor will really enjoy a good rest, having his own furniture, books and visits from his friends. This is the kind of justice the workers get under capitalism.

## The Chilean Strike

Chilean strikers have confiscated nitrate plants and the dispatches state that troops are on their way to the scene. The Chilean labor unions are 300,000 strong and American imperialism, with all its bribery and debauching of Chilean officialdom is not having easy sledding. What is needed is the linking up of these combined working class and anti-Wall Street movements into one powerful organization with branches in every Latin-American nation, working in the closest harmony with the militant workers of the United States.

The Pan-American Anti-Imperialist League has such a program. That it has a great role to play and that the movement is already taking shape is shown by the rapid extension of Wall Street control of Latin-America and such counter-movements as that in Chile.

## Popalizing War

The textile capitalists view the prospects of another world war with avaricious eyes, itching palms and drooling lips.

They have been given just a wee glimpse of the juicy contracts that will be theirs while the mangled bodies of the working class are buried in the trenches they dug themselves and the wounded fill the hospitals.

Lieutenant Gardner of the quartermasters department, preparing for the test mobilization on July 4, has mentioned to the textile barons just a few of the items that will be required for a good war—97,000 yards of 30-ounce olive drab melton cloth and many other items in similar gaudy quantities.

Will the textile industry be opposed to war? Don't make us laugh. Then there are smaller items such as 899,000 dozen muslin bandages, 42,950,000 yards of plain gauze, 6,130,000 yards of unbleached muslin, etc.

These items will bring great dividends not only to the tired textile barons, starving to death on 20 per cent dividends while their greedy employes actually receive as high as \$19 per week, but also to the embryo red cross nurses.

Try to figure out the number of flirtations with officers that could be carried on while 42,950,000 yards of muslin are being crated into bandages and you will see why all the best-starved females of the main street middle class will begin to powder their noses and order fetching new uniforms when the tom-toms begin to thunder for the next war.

In every branch of industry the bosses are receiving orders in advance, contracts are being signed and all technical arrangements made for capitalizing the coming slaughter. Allotments of the expected loot are being assigned and all beneficiaries of capitalism organized on the businesslike basis of getting theirs from the treasury while the workers and farmers are getting it in the neck, the belly, the heart, head and all other vulnerable parts, on the battlefields.

The capitalist organization, outside of the test mobilization, which requires a good deal of advertising, is conducted quietly and this quiet is ominous. It means that if the working class waits until actually faced with war, if it does not prepare its resistance now to the bloody plans of the fat murderers, it will be slaughtered both at home and in the foreign nations against whom American imperialism is making ready an offense.

## The Russian Crop and American Farmers

There is considerable food for that as well as for the Russian workers and peasants in the news that the grain crop of Soviet Russia for 1925 is estimated at 3,200,000,000 pounds—actually 600,000,000 bushels more than the biggest bumper yield of what ever season in the United States—for years the greatest wheat growing nation in the world.

It means that the internal market for the products of Soviet industry will expand much more rapidly than hitherto, that the export trade of the Union of Socialist Soviet Republics will take an upward leap, and as a result of improved economic conditions the workers and peasants will begin to draw in ever larger measure dividends from the investment of struggle and sacrifice they made in 1917 and the following years of invasion and famine.

As we say in this land of slang and slavery disguised as democracy, Soviet Russia is "over the hump."

For the American farmers, living in the fatuous paradise of Coolidgeism, the huge Russian crop means that they no longer can sell their product in a market which they dominate. No fake cooperative marketing schemes will help the farmers now. They can either settle down to the dull drudgery the European peasant has known for years or combine with the workers in a struggle to throw the bankers, landlords, the harvestor trust and the milling trust from their backs.

The exploited farmers must begin to pay some attention to the problem of organization for and by themselves and kick out the crooked "grangers" who betray them to Wall Street.

## The Marine Workers' Unity Conference

The early issue of the call for a unity conference by the Marine Transport Workers' Union of the Industrial Workers of the World, to be held January 15 of next year, is evidence that the question of bringing solidarity into the marine section of the labor movement is taken seriously by this union of militant seamen and longshoremen.

The conference requires much preparation because of the chaotic state of organization in the industry and it should be aided by every worker.

The New Orleans conference made a good start. The Havana conference ought to extend the work and lay the basis for a real organization of marine transport workers of the western hemisphere.

Not the least important of its tasks will be the definite organization linking of the western unity organization with the unity movement of the European and Asiatic nations.

## The Wonders of Capitalist Control

Seventeen miners are killed by a gas explosion at Sturgis, Kentucky, in a non-union property.

The cry of the coal capitalists is that there are too many mines and miners. The industry must be stabilized, they say and now that the department of mines has been placed under the care of Herbert Hoover, the stabilization process, hitherto conducted in a rather bit and miss manner, will be standardized, i. e. the government will be still more militant in aiding the operators' war on the union.

In the meantime the surplus mines and miners are being eliminated by two methods—closing down mines and straving the miners or blowing them up and killing the miners outright.

The safety and sanity of capitalist industry are thus demonstrated.

Dispatches tell of great riots in Sofia, the capital of Bulgaria, where every spark of revolt was supposed to have been stamped out.

But a government that depends solely on the bayonets of mercenaries, even the backed by the imperialist nations, cannot crush all opposition so easily these days.

There are still workers and peasants in the Balkans who will not lay down their arms until they are free.

Only the Communist deputies voted against the motion of devotion to the king in the Italian chamber of deputies. Catholics, socialists, and fascists joined in the cheers with which the vote was taken. Make your own comment.

We hope the Norwegian farmers to whom Coolidge spoke in Minneapolis counteracted his hot weather trip by giving him a cool reception. There is no doubt but that the bankers present gave him a warm welcome.

# The Enslavement of China

By WM. F. DUNNE  
ARTICLE III.

JAPAN became a world power after her victorious war on China in 1911. She came on the scene as equal footing with the western imperialist nations.

In 1914 the growing rivalry between Japan and Great Britain over the Pacific and Chinese concessions brought hostilities and again Japan was victorious.

The war was fought with that complete disregard for the territorial integrity of China that has marked all the aggressions of the great powers. Both Russia and Japan violated China's neutrality and she had finally to agree to a war some for the belligerents within her boundaries which divided territory hit her outside the sphere of influence of both powers.

DEATH was concluded by the Portsmouth treaty of 1905. On the Jacksonian principle that "to the victors belong the spoils"—a principle of economic imperialism—the victors not only took over all actual Russian positions and territories but also grabbed Liaotung peninsula which had previously been ceded back to China.

By the simple process Japan became the dominant power in the north while still retaining her hold on Peking province in the south.

IN the mechanical process of compiling the treaty as well as in the territorial arrangements contained therein, Chinese interests were entirely disregarded. All negotiations were carried on behind the backs of the Chinese people. When both great powers had got the best terms possible from one another only then was the Chinese government "consulted" in the making of an agreement drawn by Japanese diplomats which was sold to sign.

THIS agreement specifically recognized Japan's premier position in southern Manchuria.

NOW began the systematic colonization of Korea by Japan. No longer did Japan try to conceal her intentions from Korea by speaking with tongue in cheek of the recognition of Korean independence by China as in the treaty following the Chino-Japan war. She spoke openly and stated that Japan "possesses in Korea paramount political, military and economic interests." Interference with them would be construed as "an unfriendly act."

Following the appointment of Count Ito as resident general of Korea in 1895, there resulted a series of very open maneuvers. Korea had become part of the Japanese empire.

With Russia and Korea in her hands, with Russia reduced to the status of a second rate power in the Pacific, and her new powerful army and navy, Japan was not only able to subdue the Chinese, but also China. Even Great Britain had taken a second place.

In 1911 Japan had signed a new "entente" with Great Britain in which her leading role was recognized and which was in reality the basis of the Anglo-Japanese alliance. A new pact was negotiated with Russia in 1907 and also with France.

The Anglo-Japanese pact had been preceded by one signed with the United States in 1908.

WHAT was the purpose of these treaties? One and all recognized in words "the independence and territorial integrity of China." Almost the entire population of the country had been put which guaranteed the neutrality of Belgium and which under pressure of military necessity the German government had decided in 1914 to be "a scrap of paper."

But China had been worse than Belgium. Not only had she been divided into spheres of influence and conflicts that threatened her existence as a nation, but one section of her territory after another had been allotted to this or that power. OUT CHINA BEING CONSULTED! It was like a band of burglars entering a person's house, packing up the valuables and furniture and dividing the swag while the owner laid in bed and dreaming of the loot. When they were done they were to be told that the burglar had not prevented the Chinese doing a good deal of thinking.

These conventions were an important part of the Japanese plan for consolidating her favored position and legalizing the raids she had made on Chinese territory. These documents all contained a clause stating that "equal opportunities for the trade and industries of all nations" would be observed. This was a verbal concession to the "open door" policy of the United States which in turn was a result of the fact that the United States territory was being encroached upon by a definitely recognized sphere of influence, but had to make the best of it in various districts in competition with Great Britain and other imperialist powers, Japan in particular.

IT might be well to remark here that it was an "open door" policy for so-called backward countries, when adopted by one of the great powers, indicates no desire to trade with the natives of the backward nation as the apologists of American imperialism are so fond of pointing out. It means simply that the dominant power has been unable to grab and hold a real base of operations for any or all of a number of reasons and, as a result, has been forced to open its doors to other nations. The Monroe doctrine, as applied to Mexico, Cuba, Central and South America, is a "closed door" policy whose object is to prevent any European power interfering with the sphere of influence American imperialism has established there.

OBVIOUS as these reasons giving rise to this policy are, nevertheless it has fooled many Americans into believing that the American plunderer had no sinister designs in China. He had indeed the Chinese, just as they were fooled first by a somewhat similar policy on the part of Great Britain and then by Russia. One only need take a look at the career of Reisch, ambassador to China under Wilson, to see how American "liberal opinion" first-fooled and then betrayed China.

But Japan whatever else she may have done, has made no pretense of liberalism. Her drive for power has been open and no one has been de-

ceived as to her purpose, least of all the Chinese. In this connection our writer says:

There has never been anything essential in the foreign policy of Japan. Her statements have been from the first displayed a thorough appreciation of the fact that treaties and conventions between the great powers are made to be broken, but not to hinder, the processes of geographical gravitation and the pressure of economic conditions. (J. O. P. Blumenthal, "Recent Events and Present Politics in China," Page 29.)

WHILE Japan had been busy enacting her sphere of influence and bulwarking it with treaties concluded with all the great powers, the Chinese people had been taking the first steps for the national liberation movement that is today, outside of the rise of Soviet Russia, the most important fact in world events.

"The Mascha" gratuity was overthrown by the popular party led by Sun Yat Sen and a parliamentary government established. Yuan Shih Kai had presented a resignation to the Unpopulists both with the Chinese masses and with Japan, who renounced his opposition to her in 1916. Yuan Shih Kai had received support from no one except the big capitalists; he was a mass murderer and assassinations, was to tremendously strengthen the national revolutionary party.

QUN YAT SEN, ardent as it may seem, found strychnine in Tokio from the persecutions of Yuan Shih Kai, and in 1913 led another revolution which had for its destruction of the Chinese nation, weak as yet but taking a definite form and purpose like that of the Chinese people.

This period ends with the world war. It finds Japan the dominant power in China, although Germany has been increasing her influence steadily, but the final destruction of German influence in the Pacific.

THE important position occupied by Japan just before the world war is described as follows by Bland:

By virtue of her geographical situation and her new world prestige, Japan could not only assert preponderant political influence at Peking, but she could hope to push her way into the industrial heart of China in successful competition with the European powers, her ally included. ("Recent Events and Present Politics in China," Page 28.)

Japan first, Great Britain and Germany on an equal footing, the United States (third with France and Russia) took a second place. The position of the great powers in China when the still fiercer imperialist conflicts in other sections of the globe caused Europe to burst into flames in 1914.

What happened in and to China during the world war will be told in another article.

## WHO WOULDN'T GO TO THIS PICNIC IN MINNEAPOLIS?

Next Sunday to Be T. U. E. L. Joy Feet

MINNEAPOLIS, Minn., June 9.—The workers of the Twin Cities do not intend to miss a day of anything. And they want the best.

That is why they have arranged for a most interesting and delightful time next Sunday—June 14th—at the Trade Union Educational League picnic held at West River Road and 34th avenue South.

The refreshments (oh boy!) will be served at 11 in the morning and the lord only knows how late they will continue to be served. Then there are games for the young and games for the old—there is for those who have years but are still young enough to enjoy play.

But the main draw of the day is the speech by the "Workers' Party" men, you can take your choice after listening to all three for the one price. Otto H. Wangerin, who has recently returned from an extensive trip through Europe, will speak on "European Trade Unionism." J. F. Emme, of the "Machinists" Local 459 and candidate for the next year's Socialist Party election, will speak on "What Has Happened to the American Unions." Then Dan Stevens, (you know Dan) will speak on "Future Trade Union Policy."

Everybody in and around Twin Cities take note of the place and date: West River Road and 34th avenue South, Sunday June 14. Come and bring all your friends. Picnic is under the auspices of the Twin City section of the T. U. E. L.

Marlen English Branch Meets! NEW YORK, June 9.—A meeting of the Harlan Branch of the Workers' Party will be held Thursday, June 11, 8:30 sharp at 64 E. 104 St. All members are urged to be present and bring their membership cards.

## AS WE SEE IT -- By T. J. O'Flaherty

(Continued from Page 1) and not merely trickled into a false pocket by the reactionaries. They had no desire for the Labor Magazine. Their desire for unity. All the obstruction comes from the other side. It is up to the British representatives to get matters straightened out. If they fail, if they fail, to come out of it and join the Russians in an independent unity movement. But we think they will not do it, if they make their determination plain.

WE are sorry to have to keep speaking an attempt to make both the Russian and British Trade Unions lose their tempers—the British Communist, he says first, are intentionally disrupting the approach to a unity movement. A plain lie. Wild mistakes the Communists have made; many, variegated and large enough to make a man's head spin. But there is no evidence whatever that they have ever desired to split a single union.

Then he suggests that Tomsky and other U. delegates are attempting to escape from the grasp of the control of the Communist Party, and that he, O'Flaherty, will now consider whether he will give them his gracious aid. The importance of his double

faceted Dutchman paralyzes our pen. The whole thing is fantastic nonsense. This at least we can tell him, that no class-conscious worker is ever likely to be a member of the O'Flaherty Thomases for salvation. They know too what they will get.

THE same issue of Lansbury's Week-ly I carry the following paragraph on the murder of Karl Liebknecht which will undoubtedly be of interest to every reader of the DAILY WORKER. It was most brutally and deserves special attention, seeing that they are written by a socialist and not by a Communist:

WE all remember how Karl Liebknecht was killed. He was captured by a group of ex-officers commanded by a Lieutenant-Colonel Hoffmann and he was killed "while attempting to escape." His body was photographed by a Dr. Jacob, and the police seized the photographs—but they were not allowed to be published by the Vienna Stunde, non-Communist paper, and are before us now. They show that Liebknecht was not shot in the chest and neck, two bullets in the forehead and two in the back. Obviously, this utter lie disposes of the "trying to escape" theory. He was most brutally and cowardly murdered by revolver shots in his face and chest. The revolver has been found to belong to Lieutenant Pius Hartung.

It only remains to be added that all this occurred under the social-democratic government, and the murderers were let go free.

Renew Child Labor Fight. WEST BADERN, Ind. June 3.—The General Federation of Women's Clubs at a meeting held here passed a resolution that the federal government should new its child labor fight. The first step will be working for the reconsecration of the subject by the state legislatures. The vote was 150 to 35 in favor of the resolution.
