TREACHERY OF HILLMAN MACHINE SEEN IN COMBINE WITH FASCIST GROUP IN LITHUANIAN LOCAL 54

NEW YORK CITY, June 22.—Lithuanian fascists, with the assistance of the joint board are feverishly organizing corporations, which are purported to have been legalized by the union, President Hillman and Manager Wolf, of the New York Joint Board.

The Lithuanian Local No. 54, for several years past, had come into prominence by reason of its struggles for strengthening the union as well as on account of its relentless fight against unorganized shops; the local had also to carry on struggle within, against promoters and organizers of corporations as such.

The fascists, socialists, and nationalists, naturally, were displeased with those Communist activities and consequently decided to do away with them in order to clear the way for the corporations to be organized at liberty.

The conflict between the radicals, on the one hand, and reactionaries, on the other, continued for several years, and the radicals (Communists) had successfully held their own against all onslaughts of the fascists.

There has been nothing out of the ordinary in the conduct of the Communists. In the conduct of the Corporation, they had decided to act within the limits of the constitution.

On March 15, they appealed to the board of directors, asking that their case be reconsidered; but the management has not as yet given any consideration to the matter of suspension.

Under such tutelage there have already been organized several corporations, and the corporations are being terminated to proceed in this direction with an ever-increasing tempo.

Such are the policies tolerated; even sponsored by the joint board menhvir machine; and they mean disaster, not only to the entire union but especially to the Lithuanian local.

The joint board is siding with the strike breaker chairman of the local and with the union reactionaries, for the reasons for which nine members of the local were suspended.

For the chairman is a socialist, that is, one who is not a member of the local but who has been elected to the position of chairman of the local.

It is Hillman and Wolf see the only salvation in organizing corporations as the means of bringing the market back to New York, there must be something wrong in the Amalgamated and all of those in whom there is still lingering great spark of revolt.

Locals and District Council Protest

LOS ANGELES, Calif., June 22.—The following resolution adopted by Painters' Local Union 1348, protesting against the expulsion of Fred Kaplan from the local union adopted by Local No. 511 and by the Painters' District Council.

Resolved, That the Central Labor Council has expelled Delegate Fred Kaplan merely because he is a member of the Workers Party, and

Resolved, That no such discrimination has ever been made by the council against members of any other political parties, and

Resolved, That no charges were ever preferred against said delegate and no trial given the accused, and

Resolved, That such discrimination may divert the attention and energies of organized labor from their struggle against exploitation to jurisdictional fights and political favoritism, and

Resolved, That such action invites the formation of an autocratic clique with the intent to terrorize any constructive opposition into submission, and

Resolved, That we, the Painters' Local Union 1348 vigorously protest the action of the Central Labor Council, and demand that the Council permit the local unions to choose their own representatives and to choose their own delegates because they hold certain political opinions, and is it further

Resolved, That this resolution be sent to all Painters' Local Unions of the district and to the labor press.

Adopted unanimously at the meeting of the Painters' Local Union 1348, May 28, 1925, H. FISHER, Secretary. (Seal)

MILWAUKEE, Wis., June 22.—After two weeks' strike for the 310 day the 350 union plumbers in Milwaukee accepted a compromise offer of \$9.50, an increase of 60 cents over the scale that expired June 1. While a number of cities pay more, others pay less, notably St. Paul where the union scale is \$8.

JOINT MEETINGS DATES GIVEN OF RAIL MEN

CLEVELAND, Ohio, June 22.—Chairman's associations of the Brotherhood of Railroad Trainmen and the Order of Railway Conductors will hold joint divisional meetings in November to consider the proposition of a wage increase for the railroad men. The dates of the joint meetings follow:

Chicago local Chairman's association, Chicago, Nov. 1. Western general Chairman's association, Chicago, Nov. 8. Southern general Chairman's association, Washington, Nov. 10. Eastern general Chairman's association, Cleveland, Nov. 17.

As soon as the strike breaks the bosses start to picket the work shops late at night with masks on their faces so that strikers would not recognize them. At first they pay the help of the police the scabs continued to work for a while, but our strikers had some previous experiences and knew how to handle the situation with the result that the scabs did not last more than a couple of days to the great satisfaction and encouragement of the strikers and the masses.

During the early days of the strike a petty boss by the name of Goodman, who only became a boss a few months ago, went to work in one of the struck shops to prove his solidarity to the bosses. Before going to scab he had to picket the work shops late at night with masks on their faces so that strikers would not recognize them.

At the next local meeting it was unanimously decided to support the strike by having every union member who was working to pay 10 per cent of his wages to the strike as long as it lasts. A request was made from the general office of the Shoe Workers' Protective Union to send a special organizer to help to conduct the strike. Brother De Liberty was sent to give it help considerably in the strike.

Fighting Policy Wins. With the first victory in their hands the union is conducting the strike with renewed energy and the strikers are showing a spirit that will win this strike against the open shop with a very short time.

The shoe workers' Protective Union has demonstrated that a successful fight can be made against the open-shop and this victory will surely lead them to further victories in other unions.

It is interesting to note here the attitude of the labor press in this strike. THE DAILY WORKER, the Freiheit and the Jewish Forward were notified of the strike and asked to give it publicity.

Yellow Socialist Paper Exposed. THE DAILY WORKER and the Freiheit gave ample space to the news of the strike but no news of the strike could be found in the many of the workers were searching for it between the bed room stories of millionaire love affairs.

The supporters of THE DAILY WORKER and the Freiheit and members of the Trade Union Educational League did not have to use any lengthy arguments to convince the strikers and the union members which of these are real labor papers and fight for the cause of labor.

Government Hope Artists Working Hard

WASHINGTON, June 22.—Bituminous mining was "rather curtailed" during May, says the Bureau of Employment information bulletin issued by the U. S. employment service.

A number of mines were entirely closed, many of the others still open are on a two or three day a week basis. The iron and steel industry slightly curtailed operations in some plants.

On the other hand, the service has certified that "the upward trend in employment noted in April was sustained in May."

Textile towns in New England report the majority of mills running only part time or with reduced forces. New York state reports are in general unchanged, but Rochester's contracting plants are "with few exceptions, still operating below normal and a surplus of labor obtains in several important industries."

Pennsylvania reports that "Employment declined in several lines, particularly the bituminous coal industry, the iron and steel and allied industries, textile mills and railroads, while it is holding up fairly well in the agricultural and the automotive and electrical industries."

Illinois "continues in a state of depression," with 3 per cent reduction in employment since February.

BIBLE, WAR DOPE

LAWs

WASHINGTON, June 22.—(FP)—State laws regulating the subject-matter of instruction in American public schools, enacted in 1922-23, have been compiled and published, along with other school laws, by the U. S. Bureau of Education as Bulletin No. 2, series of 1925, "Teaching of the Federal Constitution in 21 States and is recommended in Texas, with teaching of the declaration of independence is required only in Minnesota.

Florida, in 1932, enacted: "That it is the sense of the legislature of the state of Florida that it is improper and subversive to the best interests of the people of this state for any professor, teacher or instructor of the public schools and colleges of this state, supported in whole or in part by public taxation, to teach or permit to be taught atheism, or agnosticism, or to teach as true Darwinism, or any other hypothesis which denies the relationship to any other form of life."

Kluxers Pass Bible Bill
Delaware, in 1932, enacted by law that "At least 5 verses from the holy bible shall be read each school day at opening of school"; also that the lord's prayer shall be repeated by all other religious services or exercises permitted.

Maine, under no klux guiding, also common schools. Mistakenly it is claimed that the ten commandments should be included in a compulsory course in "the principles of morality and good character." Arizona, in 1923, enacted a law with requirement that school children be trained in "morals, manners, patriotism and business and professional ethics. . . .
North Carolina proposes compulsory teaching of "Americanism," which is defined as including respect for law and order, the character of the leaders of our country, duties of citizenship, respect for the national anthem and the flag, a standard of good government, and the federal constitution and federal institutions. Oregon "makes it a duty of every board . . . charged with the duty of selecting textbooks for the schools to reject the books which contain material on American history and civil government which adequately stress the services rendered by the men who have made this country an independent established our form of constitutional government and preserved our federal union. No textbook shall be used which attacks the integrity of the leaders of our republic or of the men who preserved the union, or which belittles or undervalues their work."

SOVIET UNION ECONOMICALLY AND
POLITICALLY CONSOLIDATED, SAYS
RYKOV REPORT TO 3RD CONGRESS

MOSCOW, (By Mail).—In the report he read to the Third Congress of Soviets of the U. S. S. R. on behalf of the Union Government, Rykov, President of the Council of People's Commissaries of the Union, pointed out that the fundamental feature of the present situation of the Union was the political and economic consolidation of the country. There were three main factors which had contributed to this consolidation: first, the victory of the revolution; second, the stabilization of conditions in capitalist countries, which had partly overcome the after-war crisis.

However, the incessant evolution of conflicting interests of the great powers of the world, in particular, the situation created in the East thru the application of obsolete methods of colonial policy determine, so to say, a return to pre-war conditions and prepared the way for new crises and conflicts.

Foreign Treaties
Retracting the immutability of the Soviet government's fundamental position in the question of Carist debts, Rykov declared: "We are ready to negotiate and compromise on mutually advantageous principles, and we are ready to make certain sacrifices, should we be convinced of receiving definite advantages in return and if such a compromise should not hamper the normal development of our economic situation."
The speaker resumed in this reference that the treaty with Japan proves the possibility of reaching an agreement with the U. S. S. R., which can be of mutual advantages to the parties concerned.

American Relation
The Soviet Government, further stated the President of the council of People's Commissaries, is ready to give full attention to the proposition which the American government will make in the present phase of development of Soviet-American trade promises its further still greater development should the existing artificial obstacles be removed.

No Concessions to Britain
Touching on the future of the treaty with Britain, Rykov declared that the attempts to delay negotiations with the purpose by way of pressure to compel the Soviet Government to make concessions can't

The Compilation of Experiences Gained by the Parties

BY RICHARD DORNBUCH.

ONE of the fundamental principles distinguishing the Communist International from the social democratic international is the question of the relations maintained between the Communist Parties of the different countries. It is the endeavor of the Communist International to become a really Communist world party. In this, it strives to pursue one uniform political line, a line tested and approved by the world congress.

This aim can, however, not be attained if the various experiences do not remain isolated from one another, but make use of the experience gained in the party work of all the other sections. This means that in adapting experience to the given moment. Hence the necessity and importance of an international exchange of experiences gained in general political work, and especially in the agitprop work done by the parties.

This necessity having been recognized, the agitprop department of the executive committee of the Communist International organized, after the fifth congress, a special working committee for the compilation of the experiences gained in agitprop work in the various sections.

THE collection and generalization of experiences on an international scale is of the utmost importance, for it transmits the best methods existing among the parties into a real contact originating in the actual imparting of work. It will thus be possible to reach a more uniform mechanical and uniform transference of delineations of experiences from one party to another, but a different one to other religious services or exercises permitted.

When the material thus compiled is studied attention must chiefly be given to the following points:
1. If and to what extent the total agitprop work carried on by the party follows the principles laid down in the Communist International, and supports in agitation and propaganda the political action of the party.
2. What methods are being employed for this purpose.
3. According to what extent the actual initiative exercised by the party in question.
4. Ascertainment of the fundamental political and methodological errors

THERE IS MORE IN A CHINAMAN'S
HEAD THAN THE ROOTS OF A PIGTAIL

The anti-foreign movement in China still continues with unabated intensity. What is the meaning of this rumpus in "peaceful" China? What do the Chinese want anyhow? If you want to know—and we don't mean to reflect on your intelligence by even thinking that you don't—you will come to the mass meeting tomorrow night at Northwest Hall, corner of Western and 14th streets. William F. Dunne, Henry Phillips, Manuel Gomez and other speakers will give the inside "dope" on the Chinese situation. The meeting starts at 8 p. m.

Perhaps you are not interested. But you may be later on, if your masters want you to defend their investments in China. So you had better be prepared.

LABOR CONGRESS SPEAKS TONIGHT

Henry Phillips, organizer of the American Negro Labor Congress will speak tonight at 2733 Mirsch Boulevard at the open branch meeting of the North West Side English branch of the Workers Party. Every member of the branch and their working class associates should come to hear what Comrade Phillips has to say on the very important task of organizing the Negroes. The meeting will be held in the rear of the hall, one flight up. It starts at 8 p. m. Admission is free.

POPE TAKES RAP AT
FASCIST VIOLENCE
AGAINST CATHOLICS

ROME, June 22.—Pope Pius deplored fascist violence during holy year in an expression to pilgrims from the papal states.
The pontiff was alluding to fascist disturbances at the Port of Corpus Christi and similar outbreaks reported from other parts of the papal states.
The pope did not object to violence against the workers until the fascists attacked Catholics.

with taking a hand in various kinds of difficulties being gone through by foreign countries, the speaker rights as the endorsement of the accusations that the Soviet Government participated in the Sophia catastrophe, as well as the assertions of mythical aspirations of the U. S. S. R. to dominate the Balkans, adding that the Union has no special interests in that part of Europe and does not interfere with the home affairs of the Balkan states.

National Rights in East
Turning to the East, Rykov pointed out that the progress and consolidation of friendship with the Eastern countries is based on an immutable policy of recognition of their national rights as the endorsement of the part of the Soviet Republics of any hostile designs.

of development of the separate sections.
5. Ascertainment of the objective obstacles in the way of any given necessary measure.
6. Ascertainment of the measures to be taken in the way of the implementation of the C. I. in support of the agitprop work of the parties.

ALL these factors can only be satisfactorily ascertained if we have the most carefully drawn up reports to say concretely and objectively the main only a part of the exhaustive material imperatively required for an adequate examination.
The compilation of experiences in the agitprop department of the Communist International is being carried on along normal lines to the extent that communication with the parties is established. But although the amount of progress may be observed in the development of this communication, there still remains much to be done. The larger and politically decisive parties are not fully conscious of the importance and necessity of regular communication.

Reports sent by the agitprop organs of our sections are of course not the sole means of keeping up this communication. There are other means, the most successful being. The experience gained up to now has proved that every opportunity of reflecting the work being done, and especially of the indispensable statements of the Communist International, must be heard the personal report of a representative of the party. The agitprop department of the C. I. during the past few years has been able to accumulate a vast amount of material, but has not been able to publish it in a systematic manner. The gap in communication about described show why the agitprop department of the C. I. during the past few years has been able to occupy itself with the accumulation of material, but has not been able to publish it in a systematic manner. The gap in communication about described show why the agitprop department of the C. GREAT SIGNIFICANCE ATTRIBUTED
TO PARTICIPATION BY THE ENGLISH
TRADE UNIONS IN W. I. R. MEET

The British "Workers International Relief" Conference, which was held in London in the middle of April has a significance reaching beyond its nationally limited character because of the numerous and lively participation of the representatives of trade union organizations.

The endeavors and interests of the trade unions meet those of the Workers' International Relief on the basis of the slogan of international unity. What the English trade unions are for the labor movement in England, a uniform organization, embracing various parties, a so to speak, neutral territory on which general proletarian class interests are represented, and the W. I. R. as a proletarian relief organization on a world-wide scale.

For this reason the W. I. R. may, in carrying out its program, be able to attract, super-party ground on which workers of all shades of opinion from all countries can meet in joint activity. This is the basis of the W. I. R. on the basis of the agreement between the Russian and English trade unions.

Thus it is no coincidence that just the English trade unions, both the individual associations and their leadership show a growing sympathy with the W. I. R. and are becoming members of it. How strong this growing interest has been shown by the English W. I. R. Conference, and may be proved by the following facts:

Trade union co-operative and party organizations to the important trade unions of England, took part in the Conference. Among them were the unions of engine-drivers and the unions of railway workers, the United workers in the building trade, the transport workers, the railwaymen, town and municipal employees, and the representatives of the workers' defense league; finally representatives of the labor party and the Communist Party of Great Britain. The general secretary A. J. Cook, the National Union Woodworkers' Association by its general secretary, Amundsen Soon Goo to Oslo.

OSLO, Norway, June 22.—Road operative societies who make an attempt to fly to the North pole by airplane, will leave King's Bay for Norway soon. It is reported here.

WORKERS' SCHOOL
TO GIVE 2-WEEK
SUMMER COURSE

NEW YORK, June 22.—New York comrades who are desirous of getting some intensive educational work this summer will be glad to know that a two-week full time summer school will be held from August 17th to the 29th under the auspices of the Workers' School.

One feature, as the task of the hour for our Party and League, demands that our educational work be given greater prominence than ever before. This proposed two-week summer school will serve as a beginning for the work to be done. It will be known as an introductory course in Marxism-Leninism.

Moderate Cost.
Only those who have had some experience in educational work will be eligible. However, every comrade who does so should apply for admission (which will be limited to 35 students) by communicating with the Secretary or Director of the Workers' School, 100 E. 14th St.

Getting on New York News Stands

THE DAILY WORKER is slowly but surely establishing itself on the New York news stands. Every week additional stands are added to the list, and until they form the DAILY WORKER habit. A goodly group of comrades have devoted themselves regularly to this work, which is as much worth while for the ultimate success of the New York movement as anything that can be done at present. The city has been divided into routes, and each one of the following is looking after the news stands in a certain section systematically every week.

B. Braden, L. Cooper, W. Chambers, A. Guskoff, Irvin-Grabelsky, Max Hagen, Sam Malpas, Louis G. Witt, N. Liebowitz, H. F. Mims, J. Newman, M. Owe, C. O. Peterson, S. Pollock, J. Pasternak, M. Rappaport, A. Riemer, S. Siegal, S. Surshin.

This work can be developed as additional comrades volunteer for it. There is immediate need of several more. Apply to the DAILY WORKER New York office, 108 East 14th street.
