WORKERS PARTY ROUTS SOCIALISTS WHO HIDE AFTER WORCESTER DEBATE

(Special to The Daily Worker) WORCESTER, Mass., June 15.—Before leaving Worcester Hall Friday night, the chairman, Tom Conroy, secretary of the Worcester Central Labor Union, took a vote of the large audience that filled the hall at the debate between Comrade Max Lerner, for the Workers Party, and Alfred B. Lewis for the socialist party...

When Conroy asked, "All those in favor of the S. P. raise your hands," a few socialists exclaimed in unison: "In favor of the S. P. raise your hands, in favor of a Communist!" One would really believe this after the more than five minutes of thunderous applause that greeted the last words of Comrade Lerner's rebuttal.

All For Communists. Only for the Workers Party. The only for the S. P. But when the question was put, "Those in favor of the Workers Party," a forest of hands rose up, and the chairman, Tom Conroy, said: "I am not to count what could be interpreted as an army of proletarians railing the multitude of fists against the betrayers of the workers' party." ... The few socialists went home quarreling among themselves, while the scatted wrath of the yellows was heard...

The Struggle in the Shoe Unions

(Continued from page 1) heads for the merging of the organizations. Discussed.

T. U. E. L. in Struggle for Unity The results of these conferences were referred back to the local unions of the Protective and to the joint committee of the American Protective Shoe Workers' Union, Inc. All those who follow the lead of the T. U. E. L. in the organizations fought consistently against the merger...

On June 13 and 14, a conference was held at the Hotel Lincoln composed of the officials and delegates of the Protective and American union. In addition the independent local of Boston was represented and a delegate from the Amalgamated Shoe Workers of Lynn, Mass., who announced that he was present as an observer on account of the fact that most of the members of his organization in Lynn had decided to join the Protective and Shoe Workers Union.

Few Difficulties The discussion on Saturday took place upon a document submitted by the Protective Shoe Workers Union. Much of it had already been accepted at the previous negotiations. The points in the proposed agreement were explained the main obstacles to merging the organizations were the autonomy of the New York district; the question of per capita tax; the manner in which the local should be merged; the jurisdiction over new members; and the question of a convention.

The conference opened with a friendly feeling between the delegates but a distinct aspect of restraint and little enthusiasm. At the outset of the discussion it was plain that most of the delegates were not in agreement. At times words of the points of disagreement as enumerated were discussed and finally referred to a sub-committee which was to meet the next morning. After the "observer" delegate from the Amalgamated at Lynn, reported on the situation in Lynn, the conference adjourned to meet again on the following Monday.

MacMillan Accepts Navy Radio; Will Proceed to North NORTH SYDNEY, N. S., June 26.—The MacMillan expedition, which is on the demand of secretaries of the navy for installation of regulation navy radio equipment on the ships of his arctic expedition, the work of placing the navy apparatus aboard the Tender Peary was started.

The destroyer Putnam brought the equipment from Wiscasset, Me. Secretary Wilbur's preemptory order was flashed by radio to the MacMillan expedition after the schooner Rowdon and the Peary had left Wiscasset. It was back on schedule to withdraw navy men and airplanes from the expedition unless standard radio equipment was installed as well as the "short wave" sets which were presented to MacMillan.

It was believed the installation would be completed tomorrow, permitting the ship to sail on schedule to Battle Harbor, Labrador, the next stop on the course into the frozen North Seas.

Secretary MacMillan said he was ready to comply in every way with the wishes of the navy department.

CAL'S SPEECH GOOD BUT TOO LONG FOR BOSS

Poor Fish Floats Around and Hears Things

BY THE POOR FISH (Special to The Daily Worker) SWANSEY, June 25.—Every body around here is talking of the great speech delivered by the president yesterday in reply to the address of welcome presented to him by the local labor body. "I am happy to be back in New England. I am grateful to the welcome the people have given me." ... Some say it is a better speech than what Pershing delivered in France when he said "La Fayette was called here. Only William M. Butler criticized it. He said it was too long. Cal advised "don't get in the habit of making long speeches. It is a dangerous pastime. You might say something you might be sorry for the only people who can afford to make long speeches are those who have nothing to say. If you were not president and supported by the army I would tell you you could wear out your vocal cords, for all we would care. But you might remember some of my instructions and all the best wishes."

Hints on Economy Cal felt a bit sore. "Why, I'd make a longer speech than that if I was asking for the money to buy a new caddy" he said. ... He said it was too long. Cal advised "don't get in the habit of making long speeches. It is a dangerous pastime. You might say something you might be sorry for the only people who can afford to make long speeches are those who have nothing to say. If you were not president and supported by the army I would tell you you could wear out your vocal cords, for all we would care. But you might remember some of my instructions and all the best wishes."

Cal nodded sagely, pulled out a stick of chewing gum and, as he longingly replaced it in his pocket and then stuck a blade of grass which he began to chew. "Much shape to that gum," he said. "I'd keep the jaws busy." "That's all right" said Butler, "but you must be careful that Bill Wrigley does not get hold of it. He'd be sure to get you chewing his stuff or, not but it would never do it if it got into the papers that the president prefers grass to gum. Bill Wrigley has a head office and member what he did to Hiram Johnson last year."

The faintest indication of a smile showed on the president's face as he inwardly gloated on the way Wrigley gumped up the Johnson political ways.

Butler started with surprise and asked: "What? For Christ's sake did you hear anything?" Then followed the most amazing conversation that I have ever heard since I first began to cover presidents.

Scratch Off Veneer and You Will See Hideous Face of Rockefellerism

By J. LOUIS ENGDHAL.

TODAY, Rockefeller inspired wisdom tells the world that the general practitioner of medicine must turn more and more to preventive medicine. This would mean that disease should be prevented, rather than a cure sought after it had developed. That sounds good on the surface.

But scrape aside the hypocritical veneer that smears over every Rockefeller philanthropic effort and one finds the hideous contradictions in the "hall holes" of industry wherever Standard Oil establishes itself.

It is only necessary to mention the terrible suffering and agonizing death visits upon workers in the New Jersey plants of the Standard Oil Company thru tetra-ethyl lead poisoning. Great profits pour from gasoline receiving this special treatment so why should the churning-gold Rockefeller, father and son, worry about workers going to early graves, dead from the effects of the so-called "looney gas."

Rockefeller's oil trust has worried about its markets of these workers, no more than it troubles itself about the long, enervating workday, the poor health conditions, the crowded housing conditions—all breeders of disease—that exist everywhere thruout the oil fields it controls and in and about the refineries it operates.

Instead the "Rockefeller Foundation," subsidized with profits taken out of the oil industry, goes abroad-looking for the hookworm in the South, yellow fever in South America and the ailments of the peoples of the Orient. The "Rockefeller" has funds for these charity purposes, but there is no Rockefeller money to lift the wages of its oil slaves to anything resembling even the average standard of living forced upon the American wage worker.

At the same time Rockefeller gold and Rockefeller method are great winners in America. The "Rockefeller" has funds for these charity purposes, but there is no Rockefeller money to lift the wages of its oil slaves to anything resembling even the average standard of living forced upon the American wage worker.

White U. S. marines, with the usual Rockefeller blessing, are puny little bullies in the Chinese market at Shanghai, Canton and elsewhere, the "Rockefeller Foundation" boasts of its "college, three schools and 17 hospitals in China."

At the head of this Rockefeller "Foundation" sits Dr. George E. Vincent, typical goose-stepper of the American educational system, schooled in the oily University of Chicago, and for a time head of the University of Minnesota, known as the "Steel Trust" University. This is the Dr. Vincent who issues the "Foundations'" statement about "the effects upon health of diet, exercise, mental attitudes, recreation and family and social life."

But perhaps Dr. Vincent had the same persons in mind that President Cal Coolidge was thinking about when he urged the reading of John Greenleaf Whittier's poem, "Snow-bounded," as an antidote for the heat. It was not intended as an antidote for the heat. It was intended as a warning to the workers in the open under the sun's hot rays, the stokers who feed the fires under boilers that must generate steam the year around, in fact, to any of those who really labor.

The interests of the working masses, their health and general well-being, will not be the subject of sincere attention until the profit system of the Rockefellers, the Coolidges and the Vincents has been swept away. Only the social system of the workers—Communism—will safeguard and promote the interests of the broad producing masses.

NEW YORK WILL HAVE TAG DAYS TO HELP IRISH Harvest Ruined; No Turf and Cattle Dying

WASHINGTON, June 25.—Extermination of the North Dakota statute since the death of Sen. Ladd shows that the governor is authorized to appoint a special committee to investigate until March, 1927. Walter Maddock, a veteran non-partisan legislator, is lieutenant governor. It is anticipated that Sorlie likewise will resign and that Maddock will then appoint Sorlie to the senate vacancy. Sorlie would then announce himself as a candidate for re-election to a partial nomination next year. His opponent will probably be L. B. Hanson, an ex-governor who managed the Coolidge fight in the state last year.

Mr. W. F. Simpson, an American now farming in a small way at Colony, Co. Sligo, kindly illustrates in a letter to the press the exceptional difficulties the farmers have to face.

When the (says) I set advice from high places, as I did recently from the minister for posts and telegraphs "If possible the soil" would like to take it. It is terrible. Given a New Zealand or Canadian Australian American climate, although I am not a farmer, I believe I could hold my end up against any man, but the Irish climate is like none of these. I wonder if people occupying hand, some offices and receiving large salaries in the metropolis have any idea of the real condition of life in Ireland at present? In my district the crops are mostly in a sort of way that the average man would have been ashamed a few years ago but could not be helped on account of the excessive moisture.

The fields have not dried out since last year's crop was so poor, because the spread grounds are covered with last year's crop or flooded with water.

The workers wished to give the talk at ten o'clock for 15 minutes or more, for a pay of about \$0 cents a day. The strikers movement, so brutally attacked by the British police troops, grew out of this, and the speaker appealed to the American workers to join in the present strike movement. The speaker stated that the strikers wanted to give the talk at ten o'clock for 15 minutes or more, for a pay of about \$0 cents a day. The strikers movement, so brutally attacked by the British police troops, grew out of this, and the speaker appealed to the American workers to join in the present strike movement.

Soviet Russia—A Friend. The foreign government which treated China as a colony, the Soviet Union, declared, S. P. Wong, and to the American workers. The speaker stated that the strikers wanted to give the talk at ten o'clock for 15 minutes or more, for a pay of about \$0 cents a day. The strikers movement, so brutally attacked by the British police troops, grew out of this, and the speaker appealed to the American workers to join in the present strike movement.

William F. Dunne, editor of the DAILY WORKER, gave a comprehensive history of imperialist aggression against the Chinese people. He outlined the American policy in China, and the American workers to join in the present strike movement.

Comrade Dunne dwelt at length upon the American policy in China, and the American workers to join in the present strike movement.

The cutting off of western imperialism from its feeding grounds by the success of a movement for national liberation, would also rock world capitalism to its foundation.

Identifying the interests of the workers with the interests of the Chinese people, the speaker stated that the strikers wanted to give the talk at ten o'clock for 15 minutes or more, for a pay of about \$0 cents a day. The strikers movement, so brutally attacked by the British police troops, grew out of this, and the speaker appealed to the American workers to join in the present strike movement.

Three Chinese speaker, C. T. Chi, speaking for the Chinese student club of the University of Chicago, brot the greetings and appreciation of the Chinese students of Chicago, depend in its fight for liberation, for self-determination.

Spirited Conclusion. Brief addresses were made by Sorlie, and the speaker stated that the strikers wanted to give the talk at ten o'clock for 15 minutes or more, for a pay of about \$0 cents a day. The strikers movement, so brutally attacked by the British police troops, grew out of this, and the speaker appealed to the American workers to join in the present strike movement.

Workers' League and Mutual Council secretary of the All-American Anti-Imperialist League. The meeting closed with the singing of the American national anthem, after adopting a resolution by unanimous vote, demanding that the United States government withdraw its troops from the Chinese coast, abolish the hated extra-territorial laws indemnify the families of the murdered students and workers already slain for the sake of their country, and those guilty of their murder, abolish the foreign treaties of violence and recognize the complete independence of China as a sovereign nation.

NEW HAMPSHIRE TEXTILE MILLS CLOSE DOWN; THOUSANDS JOBLESS

MANCHESTER, N. H., June 25.—The Amoskeag Manufacturing Co., running big textile mills, is closing down its gingham manufacturing department, throwing many cotton goods workers out of employment. The greater part of Amoskeag's production is gingham so that several thousand workers are affected by the shutdown. The Amoskeag department will be closed three weeks.

The Yankee Manufacturing Co. of Saco, Me., is closing its mills for two weeks. Since April, when most of the New England mills were operating near capacity, there has been a steady decline of work and output. Massachusetts mills ran at 87 per cent during May on a 47-hour full week basis.

Get Out of China!

An American gunboat carries British troops who are to aid in suppressing the strikes of Chinese workers beginning in Japanese textile mills in Shanghai, and which has spread to every city in China which has a foreign population living under extra-territoriality laws.

Meanwhile the capitalist press of the United States, even those papers like the Chicago Tribune, which are lukewarm towards adventures in the Far East, in their news stories attempt to inflame the populace by distorted tales of the dangerous position of white women and children in the foreign districts of Chinese cities.

The American state department has said not one word on the Chinese situation, but by its silence it condones the part taken by American sailors and marines in the murder of Chinese workers and students.

This attitude of the American government is the more outrageous in that it has no excuse for such conduct. It has no leased territories as Great Britain, France and Japan nor has the strike been directed against any but British and Japanese interests.

The American state department has said not one word on the Chinese situation, but by its silence it condones the part taken by American sailors and marines in the murder of Chinese workers and students.

There is only one people who deal with China as an equal. This is the people of the Union of Soviet Republics. We must work together with the U. S. S. R. for the liberation of the Chinese people.

Here is a new reason for American intervention in China. This declaration by the Kuo Min Tang was undoubtedly adopted after consultation with the representative of Soviet Russia.

What the secret agreements with Great Britain and other powers are we do not know, but that they exist scarcely can be doubted. We know their concrete application in the transport of British troops by an American warship.

The American working class must do two things at the same time. They must demand the publication of the results of the machinations of Secretary of State Kellogg while he was ambassador to Britain and they must also demand and enforce the withdrawal of all American forces from Chinese waters.

These demands must be made to stop the murder of Chinese workers. They must be made also because four nations, even in the face of the need for a united front against the advance of the revolution in the colonial and semi-colonial countries, cannot operate in a field so rich as China without a world war arising out of the imperialist rivalries.

The Furriers' Union Speaks

The demonstration of unity by the Furriers' Union, described in our story yesterday, was a real working class answer to the deposed bureaucrats of the bosses and the traitorous socialist party crew that have been trying to wreck the union.

AMERICAN PROFITEERS URGE ARMED INTERVENTION BY UNITED STATES IN CHINA

(Continued from page 1) Great thoughts gathered at the enclosure where memorial services were held for the Shanghai victims.

One, regarding their trial revision, was addressed to the ministers of the imperialist powers concerned in the Shanghai massacre, was addressed to the negotiators concerned in the negotiations over the Shanghai massacre.

The first note refers to the growing demand of the Chinese people for a revision of the treaties concluded that they are ancient based on a different situation than exists, and by reason of the unequal power, and without China being permitted to discuss them fully and freely.

The note further declares that at Shanghai China was "persuaded" to join the allied nations.

The Chinese government, similarly to the working class of the allied countries, has evidently concluded that the promises of the allied government of "democracy" and other false things pledged to gain support for the imperialist war are all exercises in lies, made deliberately to trick them into the struggle.

Without warning telephone service throughout Paris ceased functioning when eighteen hundred operators stopped work out of sympathy for the strikers who are striking for higher pay.

It was reported they later returned to work, but the report was not confirmed.

Only by an abolition of the territorial privileges, declares the Chinese note, can better protection be provided for foreign interests upon the basis of more cordial relations.

Upon the Shanghai situation, the Chinese government asserts that justice cannot be done unless the imperialist powers at least discuss, as they refused to do at Shanghai, the thirteen provisions of the demands forwarded by the Chinese government.

The Thirteen Points. 1. Cancellation of the state of emergency in Shanghai. 2. Release of the arrested Chinese.

12. Chinese liberty of speech, press and religion. 13. Dismissal of the secretary of the municipal council.

Situation at Canton Yenan. CANTON, China, June 25.—Situation is tense following the slaying of 30 and the wounding of 79 Chinese students and workmen paraded by units from foreign troops.

The note points out that all preparations are being made to evacuate the foreign troops, the Chinese remaining peaceful. Two gunboats, one English and one French had been posted at the bridges across the Pearl river separating Canton from the foreign settlement on Shamoen Island.

WAGE CUTS OPERATE TO ADJUST FINANCE

Paris, June 25.—The cabinet with Premier Painleve presiding today voted unanimously to rush through parliament with the least possible delay financial "reform laws," requested by Minister of Finance Caillaux.

The cabinet also adopted the general "reform principles" suggested by Caillaux but postponed adopting the text of the proposed financial reform measures until tomorrow when another meeting will be held at which President Doumergue will preside.

After the approval of the definitive text of the proposed measures at the cabinet meeting to be held tomorrow before the finance committee of the Chamber of deputies. It is expected they will be reported out to the chamber Saturday with such recommendations as the committee may decide upon.

THE CONFERENCE OF SHOE WORKERS AT BOSTON SUNDAY, JUNE 28th. TO RALLY FIGHT ON WAGE CUTS

Call to Conference Dear Brother.—The situation facing the shoe workers is one. The bosses have started a campaign to cut wages. The cut prices, chambers of commerce other bosses' organizations are all on the side of the shoe workers against the workers.

The shoe workers are divided among those fighting among themselves with great masses of workers are unorganized. The demand of the Boot and Shoe Workers Union is openly co-operating with the bosses to force cuts in wages.

In Lynn the bosses brought in the Boot and Shoe as a preparatory step toward cutting wages. Altogether the shoe workers are in a fine way to get the bosses against the workers.

All out for the June 28 Conference! In this situation the great task is to gather the militant workers of the rank and file together to supply leadership to the workers against the wage cut.

A Bigning of Campaign Militant shoe workers from Lawrence, Peabody, Brockton, Chelsea, Boston will be present at the conference. The meeting will be the starting point for a drive among the shoe workers on the issues of the fight against wage cuts and amalgamation.

AS WE SEE IT -- By T. J. O'Flaherty

(Continued from page 1) wanted to prove that the "Bolshevik" was being used to create disturbances in the capitalist countries, they had to show where the Bolsheviks got the money. They got it of course by selling the crown jewels.

AS IN INDIA, there were rebel movements in that country before the international or the 8th Republic were even dreamed of. It is true that the Communist International is interested in the fate of the masses in China and India.

WHILE the capitalist nations are quarreling among each other in markets and the capitalist groups of each nation are fighting for superiority, the workers and peasants of Russia are increasing in numbers and are advancing by action that the producers can ruin industry without the aid of capitalist leeches.

BRITAIN is actually waging a war against Soviet Russia. Speaking in the house of commons, Chamberlain said he has proof that the disturbances in China were instigated by agents of another power. He was referring to Russia of course. London dispatches also tell us that the Soviet government is sending troops to Afghanistan on the borders of Russia, and is using that country as a headquarters for a revolutionary campaign.

IT was not the activities or the agitation of Communists, either Russian or Chinese, that caused the present revolt in China. It was caused by the brutal and inhuman treatment of the Chinese by the imperialist powers, chief of whom is Britain.

MEETING OF Y. W. L. AND PARTY INDUSTRIAL ORGANIZERS SATURDAY
