## SUPREME COURT DECREES LABOR BOSSSES' HIGH COURT UPHELDS CALIFORNIA SYNDICALIST LAW

Protest against the Barling of Saklatvala! Have Your Union Pass Resolution - Profit!

### DEMONSTRATION FOR RAKOSI ON BOSTON COMMON

#### Workers Demand There Be No Execution

(Special to The Daily Worker) BOSTON, Oct. 19.—(The Daily Worker) Boston people's committee in the former demonstration under the auspices of the International Labor Defense and the American Civil Liberties Union, and a number of workers by the Horthy and Hungarian white guards were exposed and denounced by the speakers, John J. Ballan and Harry J. Cantor, local secretary of the I. L. D. Wall Street Rules Horthy Gov.

### Henry Ford-Pacifist Turned Imperialist

First Installment of the Daily Worker's Exposure of World's Most Powerful Automobile Czar

BY OWEN STIRLING  
LITTLE Red Riding Hood didn't know what she saw one day. The white "warred her" against wolves in sheep's clothing. But did not know about wolves who might and in nice old ladies' beds, who had laid a nice night cap on their heads.

self with quaint chairs, who took a commode and four-quarter beds of an early period. He finds an old soldier named Joe Ribben in a little Michigan town and soon phoning records are being made of Joe's training. Just now Henry Ford is financing a revival of the old square dance.

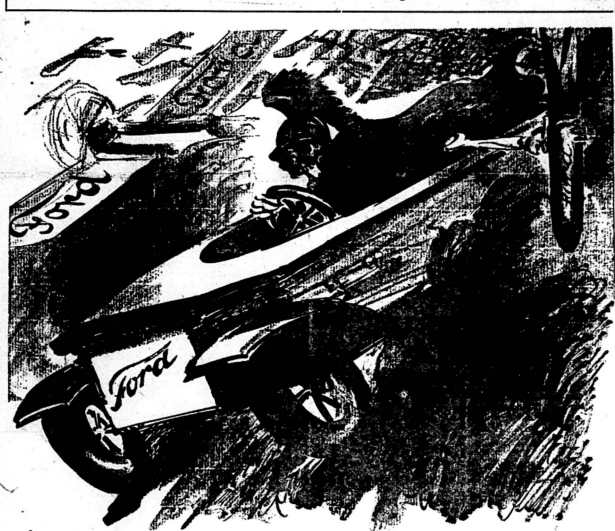

As long ago as last February Commander Ralph D. Werthebacher, chief engineer of the League Islands Navy Yard, at Philadelphia, and builder of the giant dirigible Shenandoah, went to the Ford airport at Dearborn to aid the Ford mechanics and engineers in the constructing of a mooring mast for dirigibles. He was formally designated to the task by Rear Admiral William A. Moffet, chief of the bureau of aeronautics of the navy. The mast may now be seen rising 200 feet above the flying field. There are only two large mooring masts in the United States for such ships as the Shenandoah and Los Angeles, one being at Lakehurst, N. J. It is significant in indicating the new alignment of the Fords that the navy department and the Ford Motor company should cooperate in the erection of one of them.

DO you remember the Henry Ford of the early years of the war with his Quaker peaceably "expedient"? He was going to get the soldiers out of the trenches by Christmas. He decided on a vessel, put a group of pacifists aboard and heroically sailed this way to Europe. He may have believed even then that the United States was in danger of being drawn into the war. He was in such a position industrially in that case that he preferred having men face machines in his shops to their facing machine guns in the trenches.

### BOSSSES' HIGH COURT UPHELDS CALIFORNIA SYNDICALIST LAW

(Special to The Daily Worker) WASHINGTON, D. C., Oct. 19.—The supreme court of the United States today inferentially upheld the validity of the California "right to work" law, under which are imprisoned seventy members of the Industrial Workers of the World, the law being interpreted in California as making ordinary membership in that organization a felony, the members being convicted without any proof of criminal acts being committed by them as individuals. The law has been passed by other states, but California has led all the rest in a persecution of radical labor unions, which membership in its prosecution of Communists in the famous Brigrigan case.

### Ford! A Vehicle of Imperialism

### Strawn Arrives at Peking to Attend Tariff Conference

(Special to The Daily Worker) Peking, Oct. 19.—Billie H. Strawn, one of American representatives to the forthcoming Chinese tariff conference, here arrived in Peking today. He is one day late owing to the halting of his train by militarists in the Shanghai area.

### Illegal to Reduce Rates

WASHINGTON, Oct. 19.—An order of the Illinois Commerce Commission requires a reduction in rates charged by the Illinois Bell Telephone company on coin box telephones was held unlawful today by the supreme court of the United States. The decision of the lower court was affirmed.

### The Martyr

(Dedicated to the Horthy Government) By Upton Sinclair (Wired to International-Labor Defense) You torture him; his wild heart-beats; Turn to tumbling in your streets; His quivering eyelids shake the town; His moaning breaks your dungeons down.

The inspiring story of Comrade Rakosi, people's commissar in the former revolutionary government, who is slated for execution by the Horthy bloodhounds, was told by Comrade Halkan. His declaration that "the reign of Comrade Rakosi cannot be strangled by the Horthy hangmen, but will proceed through the world, his spirit and arousing ever greater masses workers in revolutionary struggle," was warmly applauded.

With anxious approval the meeting voted unanimously to send the following telegram to the Hungarian ambassador at Washington: "One thousand workers assembled on Boston Common today heard the cries of the tortured political prisoners in the prisons of Budapest. We demand that court martial trials of Mathias Rakosi and other workers be not carried out and that no executions take place. Failure to conduct these trials by ordinary civil process nullifies all publicity is proof that the Hungarian hangmen are afraid to let the truth be known."

### U. S. Supreme Court Knocks Out Arizona Women's Minimum Pay

WASHINGTON, D. C., Oct. 19.—A minimum wage law in the state of Arizona was held invalid today by the United States supreme court. The court affirmed a decision by a lower federal court which granted the petition against the state to A. Randall, a Nogales merchant, who filed a petition with the Federal Labor Board, minimum wage of \$16 per week.

### Mathias Rakosi Faces Terror in Hungary.

MATHIAS RAKOSI was born in 1889 in Adony near Miskolc. He studied in Budapest and graduated from the Great College. As early as 1912 and 1913 he actively participated in the labor movement. In these years he became a functionary of the so-called Galliel Club in Budapest. This club played an important role in the organization of the Hungarian radical intellectuals and also in the labor movement. Comrade Rakosi took an active part during the war, together with other members of the Galliel Club and with workers in the illegal agitation against the war.

### Illinois Dentists Ask Sterilization of State's Morons

(Special to The Daily Worker) DIXON, Ill., Oct. 19.—At the conference of Southern Illinois Dental Association a resolution calling for a committee to "sterilize the Illinois delinquent to enact a measure making possible the sterilization of the insane" was adopted. The resolution was accepted following an appeal made by J. Stanley Brown, president of the Northern Illinois Teachers' College and a delegate to the conference of the state's morons.

# CHINA IS STRIKING AGAINST PEKING AGAINST PEKING AGAINST PEKING

## Tarif Conference May Collapse Completely

(Special to the Daily Worker)  
SHANGHAI, China, Oct. 18.—When the handover takes place, the tariff conference meets at Peking next Monday. It may end in a disaster with a Chinese government which has been established in the north. Marshal Sun Chuan-chang, commander of five combined divisions of the Yanketse army, who last week captured Chang Tze-tsun's troops out of Shanghai, has continued driving northward, seeking all new guards on the frontier and even in the interior to have declared war against the Peking government.

Troopsmen Turn Out of Luck.  
The Peking government, which is the main power of the Peking government, controlled by Chiang Kai-shek, has been forced to agree for knocking to the imperialist troops. The latter, however, were agreed to between Tsun and the imperialist powers on conditions favorable to all nationalistic elements.

The Peking Government.  
It is an evident fact that in agreement to the fact concession and in addition the military force of the Peking government is so weak that it is unable to crush the Kanton Kuo-min-tang of nationalistic troops which have entered into the hands of the oppressor more lightly branded than the troops which were used to force a big blow to the Peking government. The Peking government, on the other hand, is unable to collect two per cent more in taxes.

The nationalistic forces have succeeded in some measure of success in their attempts opposed to Peking against its use in security to the imperialist. The opinion, both in the Peking government and in the Peking government, is that the Peking government is unable to collect two per cent more in taxes.

Only Against Peking.  
The Peking government, on the other hand, is unable to collect two per cent more in taxes. The Peking government, on the other hand, is unable to collect two per cent more in taxes.

Confidence May Collapse.

# COOLIDGE GETS SHOCK IN PEACE PLEA

## French Routs American Militarism

(Special to the Daily Worker)  
WASHINGTON, D. C., Oct. 18.—The most lively speaker here today was the French representative at the conference of the European nations and the conference of the League of Nations. He spoke in a way that made the delegates who do not speak French feel that the problem of the automobile industry is before all a problem of international relations.

The speaker is widely prevalent here that in the negotiation at Locarno there was a quiet agreement among the powers not to participate in any more armament conferences called by the United States, but to consider such conferences as called within the jurisdiction of the league of nations.

Government Embarrassed.  
The contemptuous rejoinder of the White House suggestion was distinctly that of a defeat. ## Two Supreme Court Decisions

Two news dispatches from Washington, D. C., today regarding two decisions of the United States supreme court are illuminating inasmuch as they shed a dazzling light upon the character of that institution as one of the most powerful bulwarks of exploitation. Upon one hand it throttles the working class by upholding the California criminal syndicalist law and with the other comes to the aid of an Arizona exploiter of women by holding invalid the state minimum wage law for women.

The court refused to intervene in the case of Charlotte Anita Whitney, convicted under the California criminal syndicalist law, claiming that it had no jurisdiction, thereby "intentionally" holding it to be unconstitutional. But it could intervene in the case of the Arizona state law and declare it unconstitutional because a woman wage worker demanded of a Nogales merchant that he pay her a minimum wage of \$10 a week, the amount set by an act of the legislature as the very least amount on which a woman can exist.

Always defending the interests of the capitalist exploiters and erecting legal fortresses from which they direct their operations to distort the blood of women and children into profits and with equal vigor striking down every effort of the working class to organize against the great industrial trusts. The efforts of the dominant institution clearly reveals the true class character of the court. When, on rare occasions, the state legislature of a given state, from sentimental or other reasons, enacts laws which are to pass laws objectionable to the capitalist interests, the United States supreme court can always be depended upon to come to the rescue of such capitalist industries. The efforts of the supreme court, and while their immediate effect is to cripple the working class, they serve as a means of countering ever larger numbers of workers that are organized for their liberation. And so the class struggle necessarily directed to the conquest of the capitalist state and the establishment of the rule of the working class.

## Organize the Auto Industry

The series of articles on Henry Ford starting today in another column of *The Daily Worker* emphasize the necessity for organizing this gigantic industry. One of the largest industries of the world, it has successfully resisted all efforts of labor organization to date. At a time when Wall Street market quotations reveal soaring stocks of the automobile industry, including all its auxiliaries, an announcement of wage cuts in the automobile industry is a reality. The fact is that the automobile industry is the only industry in which wages are being reduced. Constant reductions in the price paid for lack of organization.

It is in the very nature of the industry itself that makes organization impossible, on even more difficult than other industries. The fault is to be found in the methods hitherto employed to organize the workers in this industry. The efforts of the craft unions within the American Federation of Labor proved unavailing because of the jurisdictional tangles ensuing. Each international union "stealing" a fowl foot in the industry tried to get as much control as possible, with the result of friction that has paralyzed the industry.

The most essential preliminary to tackling the job of organizing this industry is to form a union that is not subject to the jurisdictional drive that will bring under one head all the workers in the industry. Those who oppose the amalgamation of craft unions into industrial unions oppose the big step necessary to organize the wage slaves of this country on a large scale, and thereby serve the interests of the exploiters of labor.

## Coolidge Neutrality on Coal Strike

President Coolidge announces that he is determined to stick to his policy of non-interference in the anthracite coal strike. This announcement should not be misinterpreted to mean the government at Washington is a neutral agency that stands above the class struggle. The reason Coolidge does not interfere is because there is no need for governmental intervention.

The anthracite coal monopoly not only has sufficient local police power to back it up but it also has sufficient federal troops and backed by the arrests of Pat Toehy, Alex Reid, and others who urged a real fight in this strike, but it also has as its loyal servants the Lewis machine gunners of the United Brotherhood of Carpenters and Joiners' Union, who can be relied upon to use all their power to crush any development menacing to the mine owners.

It is the aim of the Coolidge government to keep the coal monopoly that the government itself has gone out of the strikebreaking business. The capitalist government is today, and as long as it lasts, will remain the instrument of reaction by which the master class holds the working class in subjection. If the miners' union could effectively challenge the combined power of the local authorities and the treacherous officials of the union, Coolidge neutrality would come to an end and the government would be mobilized in a savage assault upon the strikers.

The tremendous increase in profits of the automobile industry and the simultaneous reduction in wages eloquently refutes the contention of those labor fakirs who contend that only by increasing production can wages be increased.

What happened to the reptile press that it permitted the facts in the demise of an elegant Philadelphia society lady and partner, who she drank, to be leaked to the public? Someone slipped up somewhere.

The red rails in Britain following the classic lines laid down to the Palmer and Hangerly regiments in this country. The party here grows stronger—so it will in England.

# ECONOMIC DICTATOR TO MAINTAIN POLAND AS BUFFER STATE AGAINST SOVIET RUSSIA IS FRENCH PLAN

WARSAW, Oct. 18.—Poland's present economic crisis will bring about the establishment of an economic dictatorship to maintain Poland as a buffer state against the Soviet Union, according to the Polish government by the creditor nations, of which France is the largest.

A serious country-wide shortage of currency exists in Poland, of which does exist only 31 per cent of its gold or foreign currency. The other not paying their obligations to the creditor nations since the war date. The Polish Bank is short of a sum of 4,000,000,000.

Workers' Demands. Must Have Cash. All commercial transactions are being held up because the banks are not able to meet obligations imposed upon them.

The workers are taking active against the non-payment of wages by the firms and also against attempts to force the workers to accept checks or promissory notes. The workers are thinking of moving to Palestine.

In spite of the money shortage, vast sums are being plied to the country in order to buy supplies for the army. The government is trying to crush any movement on the part of the workers to organize, as it follows the example of the workers of Russia.

Increase Army. In view of the money shortage, vast sums are being plied to the country in order to buy supplies for the army. The government is trying to crush any movement on the part of the workers to organize, as it follows the example of the workers of Russia.

# TYPOGRAPHICAL WORKERS' WAGES CONTINUE TO INCREASE WHILE WORK WEEK BECOMES SHORTER

Wages of typesetting machine operators in the printing trades are still distinctly on the upswing. A report of the U. S. department of labor on wages in various trades in 1931 shows that the average wage for those who worked in newspaper composing rooms in 13 of the 39 cities included in the study was \$2.35 per week. This was an increase of 10 cents over the year before.

The 44-hour week is practically universal in the printing trades. In 1931 the average weekly wage for typesetters in newspaper composing rooms was \$2.35 per week. This was an increase of 10 cents over the year before.
