# Organize the Steel Industry

## Proposed Steel Workers' Program

(Continued from page 1)

Mike Tigue has become the personification of this reactionary standpoint. The progressive members of the Amalgamated Association of Iron, Steel and Tin workers must remedy deplorable conditions. They must have better leadership for the organization. They must initiate more effective methods. They must with a spirit of militant strategy to pit against the ruthless reaction, wage cutting and exploitation by the steel trust the organized workers fighting for their own improvements for their class as well as the ultimate establishment of their class power.

The tremendous task demands as a first step an intensive campaign of education by the Amalgamated Association of Iron, Steel and Tin workers until it embraces all the workers in the steel industry.

**History Shows Betrayals.**  
The recent history of the officials of Amalgamated Association is one of treachery to the needs of the workers and at instances even actively betraying the principles of solidarity of labor. During the drive to organize the steel industry in 1919, the month of May, this officialdom by Mike Tigue and the officials of the Amalgamated Association, made a trade bid for peace with the U. S. Steel Corporation in a letter addressed to the workers.

The steel strike broke out in violation had contracts in certain sections covering only the skilled membership. The officials ordered all workers from these mills, who had joined union, back to work, thus seriously pitting the strike. They revoked their contracts in the Amalgamated Association, Ohio, who refused to obey this ruling, went on in the name of sanctity of contract with the employers, but about the contract and solemnly entered into with the workers. The Amalgamated Association became a part of the national committee? And how about the violation of the principle of solidarity?

The words of Mike F. Tigue, testifying before the senatorial committee of investigation, the secretary of Amalgamated Association issued 40 dues cards during the period of the organization drive. While the dues members who were supposed to support the officials acted as take and quit the drive before it over. This one time large membership has now dwindled to the total of 11,323 on Dec. 30, 1924, reduced to a point below that had in 1922 when the membership stood at 14,000.

**Abolition of Wages and Loss of Members.**  
The officialdom has shown a complete bankruptcy in all its activities. The methods of participating in a class campaign of organization of steel workers, conducted by the national committee of the American Society of Labor and carried on in the Calumet Region, Indiana, might result whatever and not new recruit into the Association, and of increasing its numbers it was constantly losing its membership. The last year, despite the unprecedented boom in the industry, we lost a net loss of 313 members. Not only are the ranks decreasing, but the wages won by the struggles of the past are disappearing. While the price of living is rapidly increasing, so is the steel industry. The workers struck the toboggan slide and a crisis have become the order of the day. All thinking members are Amalgamated Association are

led and controlled by one combine establishing complete monopoly. The gigantic steel corporations are a unit in the struggle against the workers, unitedly fighting all their efforts to organize. Still the unions within this industry persist in carrying on their antiquated craft form of organization which fitted in well to the industrial system at the time when the De Witt locomotive passed the first railroad tracks laid in this country, but now should be put into the museum alongside of that engine. The organizations of the workers must be built so as to be able to cope with the organizations of the owners of industry, and be able to meet their attacks successfully. The industrial union is the only possible form of organization in the steel industry which may adequately protect the interests of the workers.

The convention of the Amalgamated Association at Warren, Ohio, 1923, and Pittsburgh, Pa., 1924, went on record endorsing the industrial form of organization. The constitution reads that all men and women working in and around the iron and steel mills shall become members of the Amalgamated Association. The officials have made no move to carry this form of organization into effect but have done their utmost to maintain the craft outlook.

We propose that the Amalgamated Association become an industrial union and around sense of the word use a modern centralized basis and to be demoralized according to the requirements of the industry. We propose as an illustration of the industrial form of the following departmentalization:

- 1. Blast Furnace.
- 2. Open Hearth and Bessemer.
- 3. Rolling Mill.
- 4. Sheet and Tin Mill.
- 5. Wire Rod, Pipe Mill.
- 6. Non-ferrous.
- 7. Clerical.

**Shop Committee Organization as Basis of Union.**  
No union can live and function effectively without control. The basic strength of all working class organization must be established in the shop where the workers toil and from there, on the basis of grievances and aspirations, we will build our organizations. We therefore demand that a complete system of Shop Committee Organization, taking in all workers in and around the iron and steel mills, be organized and recognized, be established, as a preliminary to union organization and supplementary to the union.

The Shop Committee must be representative of all workers in each mill, and composed of delegates elected by the workers from each department, regardless of skill level. Each Shop Committee shall elect its own officers and spokesmen and have full power to take up all grievances of the workers and the management and in conjunction with the union take all steps necessary to protect the interests of the workers. It shall carry on educational activities for the building and strengthening of the union. The shop committees of each particular district shall be combined on the same basis as the local union organization.

The so-called Shop Committees now existing in some mills composed jointly of workers and the management or organized by the employers are tools of the bosses to protect their interests and help enslave the workers. They have nothing to do with the welfare and the aspirations of the workers. These committees should be fought until they are replaced by committees composed of workers only. Unity, Nationally and Internationally.

The capitalists of the United States are solidly united in their common efforts to keep the workers in submission. Their organizations are united through interlocking directorates. Capitalism is also internationally united in scope and the working class must likewise unite internationally.

We propose therefore, first, that there be formed a real fighting alliance of the coal miners, railroad workers and steel workers' unions. Not only for the purpose of extending sympathy with one another but to actually join forces for united action and to fight side by side in times of strike. Secondly, we propose to give the utmost assistance possible to the efforts now being made by the Red International of Labor Unions to create one united working class International comprising all labor unions of the world.

**Independent Political Action.**  
Nowhere has the relations between the employers and the government become so brutally clear as in the steel industry. Time and again the government has shown itself as an instrument of the employers to help keep the workers in submission—as a capitalist instrument, court, police, congress and every means at the disposal of this capitalist government have been used to attempt to crush the efforts of the steel workers to organize

### HAWAIIAN SENATE IN DOUBT ABOUT SUN YAT SEN BEING COMMUNIST

HONOLULU, April 12.—The question of whether Dr. Sun Yat Sen was a Communist arose in the territorial senate during the discussion of a resolution to adjourn until Monday out of respect to Dr. Sun. Senator James Russell declined his support on the ground that Dr. Sun was a Communist, but the senate adopted the resolution. Senator Tavares insisted that Dr. Sun was born in Hawaii and was a true patriot.

into a union. The remedy must be the establishment of a workers' government. Despite the base betrayal of the labor party movement by the entire official family of organized labor the progressive steel workers urge the need of united class political action by the industrial workers and exploited farmers. We pledge ourselves to carry on the struggle for independent class political action by labor as a means of the establishment of a workers' government.

**Recognition of Soviet Russia.**  
The Russian workers, through their heroic struggles have abolished capitalist exploitation and taken control of the industries which are now being run in the interests of the workers. The Russian working class republic is in need of the things we produce in this country. We therefore demand the unconditional recognition of and establishment of trade relations with Soviet Russia, not only as a means of stimulating industry in this country, but as an act of solidarity with the Russian working class.

**Class Struggle against Class Collaboration.**  
We have already pointed out that the working class and the capitalist class have no interests in common.

We must continue to struggle during all the struggles of the past. On the basis of these experiences we propose that the officials of the Amalgamated Association recognize the class struggle and frame and execute the policies of the organization accordingly. Our slogan must be: "Relentless struggle against the oppressive methods, wage cuts and exploitation by the steel corporations."

"For the organization of a powerful union in the steel industry ready to fight for the interests of the working class—a union which will become one of the battalions of emancipation of the workers."  
We must link this program to the steel workers in general and to the members of the Amalgamated Association in particular. We challenge criticism and inactivity on the part of other improvements. We suggest that the columns of the official Journal of the Association be opened for discussion of this program and for the problem of the organization as a whole. We propose that all contributions submitted by individual members or lodges, be printed in full in the journal in relationship, so that we may find the best possible means of constantly building and strengthening the union.

We urge all progressive, thinking members of the Amalgamated Association of Iron, Steel and Tin Workers, to unite for the building of a bigger and better union—a working class union covering the whole steel industry.

**PROPOSED BY THE TRADE UNION EDUCATIONAL LEAGUE.**

### Our Readers' Views

NORWOOD, Mass., April 6.—To the DAILY WORKER:—Enclosed please find \$3.00 for the policy of insurance the DAILY WORKER for 1925.

In our party meeting, it was understood that the Finnish branch in Norwood has somewhat failed to participate in our campaign to support the central organ of the party.

As the members of the Finnish branch in Norwood are also a majority in local co-operative movement so we decided to give part of our 1924 profit to the DAILY WORKER.

May I also say that we ought to get the co-operative societies a real part of the party. The DAILY WORKER should publish an article on this subject. If we get the co-operative societies to participate with the Communist movement as a whole, then it's worth while to work for them.

Fraternally,  
United Co-Operative Society of Norwood, Mass.

Coal Oil Lamp Explodes.

LIMA, Ohio, April 13.—One child was burned to death and another perhaps fatally injured when a coal oil lamp exploded in the home of John Mamp today. Albert, aged 16 months, was dead when firemen reached him after they had battled their way through the flames. Harry, aged 4, escaped from the house when the explosion occurred.

Gets Cold as "Cal."

BOSTON, April 13.—This part of New England today was covered with a blanket of snow. The mercury slid down to 25 degrees above zero and gone was the balmy weather of Easter.

# ON THIS IMPORTANT MATTER

## Once More We Quote Wm. Z. Foster:

"Here, in the building up of the circulation of the DAILY WORKER, lies a field for the development of Communist organizers, which is open to every member of our party. In the performance of the systematic work necessary to the effective sale of DAILY WORKER subscriptions, and for that matter the sale of any of our party press subscriptions, there is called into play the qualities which go to make real organizers and propagandists.

"In building the DAILY WORKER circulation we approach non-party workers, workers who are not class conscious. We tell them about the DAILY WORKER, and ask them to subscribe. We must explain to them at least the main essentials of the class struggle. We must overcome objections, prove the advantages and necessity of organization, of working class militancy, of struggle against the boss and his plant tools, the trade union bureaucrats. We must exploit the growing revolt of these workers. We must connect up our paper and our party with these workers by making the DAILY WORKER the spokesman and champion of their grievances. All this must be done upon the most far-reaching scale and in the most systematic manner possible.

"Such work is getting down to fundamentals. It means real contact with the masses. By carrying it on aggressively and persistently we build up our self-confidence and our ability to give expression to Communist principles. In other words, we develop ourselves into organizers."

From the article "The DAILY WORKER—a Communist Builder" by Wm. Z. Foster in Jan. 13 issue of the DAILY WORKER.

### And While You Build the Labor Movement—

For every \$6.00 worth of subs (\$8.00 worth in Chicago) we will gladly send you a leather binder with patent clasp making all sheets detachable; with pocket for receipts and note paper for your use—containing a full descriptive catalogue of all Communist books and publications—an efficient tool for the Communist Builder.

## In Answer to Many Questions— This Is Our Explanation:

The subscription price to THE WORKERS MONTHLY is so extremely modest (\$2.00 a year, \$1.25 six months) even tho' we are forced to charge 25 cents a copy—because—

A working class magazine can live on neither advertising nor dealers' sales alone—it must depend almost entirely on its subscribers. Otherwise it cannot exist. For this reason effort is made not only to give the subscribers every consideration in price but also in promptness in delivery—which is the reason subscribers receive the very first copies off the press. You should take advantage of these reasons in addition to receiving the very best working class magazine ever issued in this country.

As we mentioned before, the subscription rates are \$2.00 a Year—\$1.25 Six Months

IRISH PEASANTS FACING PLAGUE THRU STARVATION

New York Famine Meet Next Wednesday

NEW YORK, April 12.—The situation in Ireland is getting worse. The Farmers' Association says that "40 per cent of the cattle have died, the sheep are dead, the people are starving. They have not had fire for months. They are eating offal and dead leaves, and are fast to face with plague."

The area in which they live on the coast line of Donegal and Mayo is really a no man's land. No roads, no railway service. Seed for immediate sowing is absolutely necessary. Minus, disease and plagues on the workers and peasants of Ireland on every side.

Let the capitalist press deny that there is any famine in the New York Times. Let the capitalist and patriotic Irish press and societies declare that there is no suffering. Workers who have been in the famine districts declare that "every household is the scene of the worst misery and destitution."

Blamed Soviet Russia. When the Russian workers and peasants started in 1921 owing to the failure of the crops, the cause was attributed to the Soviet regime.

Workers of New York should know the truth about the situation. At the mass meeting at the Central Opera House, 205 E. 47th St., on Wednesday, April 13, at 8 p. m., the workers will be given this opportunity.

PITTSBURGH WORKERS TO HEAR RECORDS OF LEVIN SPEECHES

PITTSBURGH, Pa., April 12.—A representative party in honor of the Russian Communist Party, Nevoy Mir, will be given in Pittsburgh, Pa., Wednesday, April 18, at 1032 Fifth Ave. There will be a musical program, dancing and free refreshments.

ILLINOIS UNEMPLOYMENT GROWS AS MINERS SUFFER MOST WHILE STEEL TRUST TALKS WAGE CUTS

By LELAND OLDS Federated Press Industrial Editor

A slump of more than 1 per cent in Illinois factory employment between February and March follows the collapse of wheat prices and the break in the stock market as an indication that the Coolidge boom was false alarm.

The March report of the Illinois department of labor follows that from New York state which found no well defined evidence of continued industrial improvement.

Blamed Soviet Russia. When the Russian workers and peasants started in 1921 owing to the failure of the crops, the cause was attributed to the Soviet regime.

Workers of New York should know the truth about the situation. At the mass meeting at the Central Opera House, 205 E. 47th St., on Wednesday, April 13, at 8 p. m., the workers will be given this opportunity.

55 PER CENT OF MOTHERS AND WIVES EMPLOYED

Uncle Sam Admits Break Up the Home

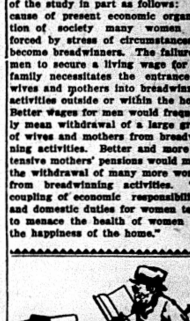

By LELAND OLDS (Federated Press Industrial Editor) Blast blast of the family by the failure of capitalist industrialism to pay mba a living wage is reflected in the report of the U. S. women's bureau on the family status of breadwinning women.

The proportion of breadwinning women to all women over 14 rises to 45 per cent in Jacksonville, Fla., and Pittsburgh, Pa., and in some cities in the Wilkesbarre, Pa., and Butta, Mont., where industry is predominantly masculin the proportion is just under 30 per cent.

Over 61 per cent of these breadwinning women who were or had been married were living with breadwinning husbands. Nearly 53 per cent had husbands earning 40 per cent of their mothers had babies under 5. Over two-thirds of the breadwinning mothers had wage earning husbands.
