Prizes in The Sunday Worker Slogan Contest

THE Sunday Worker needs a slogan. Not one coined in the office of the management, but given to it by its readers.

It must be short, snappy and descriptive. A few words happily joined together describing the contents of "The Sunday Worker" urge workers; urging them to get acquainted with it; to read it; to make a habit of it so that they will look forward to it as anxiously as they do for Sunday while at work, on Monday morning.

And the "Sunday Worker" is willing to pay for it! Prizes will be given as appreciation of the Movement to those workers who will spend time and thought to produce such a slogan.

LOS ANGELES LABOR HELPS MINE STRIKE

Socialists Only Block to Relief Conference

By DAVE RAPO, Worker Correspondent. LOS ANGELES, Sept. 19.—A conference to help the British striking miners was organized here by the Carpenters' Local Union 1976. Over 25 labor organizations, mostly labor unions, affiliated with the conference. An energetic campaign has been started to raise funds for the starving miners in Great Britain. A considerable amount of money has already been raised and sent to the American Federation of Labor thru the L. A. Central Labor Council.

The Los Angeles Central Labor Council endorsed the British miners' relief conference and appointed a committee of five to represent the council at the conference and work out ways and means to raise large amounts of money for the starving miners. All the money raised by the conference goes thru the Central Labor Council to the A. F. of L. Miners' Relief Committee.

Socialists Sabotage Relief Work. The Jewish socialist "Verband" and the city and district committee of the Workmen's Circle called their own conference. Several attempts were made by the relief conference called by the carpenters to unite both conferences for greater and more energetic work for the striking miners. They were entirely ignored and rejected by the socialists. Even the proposal of the carpenters' conference to exchange delegates in order not to interfere with each other's work was rejected by them. This action of the socialists aroused the condemnation of all the workers in the trade unions and as a result the two local unions which were affiliated with the socialist conference withdrew from them and joined the conference called by the carpenters.

Use New Argument to Aid Open Shop in N. Y. Window Cleaning Row

By a Worker Correspondent. NEW YORK CITY, Sept. 19.—The Window Cleaners' Union has been refused a demand for \$4 a week wage increase by the employers' association and a strike is due October 1. The employers have invented a brand new excuse in refusing to deal with the union. They say that the union has established a window cleaning company which competes with these employers and their association. This, say the employers, is "the soviet system" applied to window cleaning. The employers want a monopoly on the business and give the following weird argument:

"The window cleaning union has established a so-called window cleaning company, which is being run and governed by the officers of this union on a soviet system, and the union is constantly using this soviet company as a threat against the employers, and the only aim of this union is in due time to socialize the entire window cleaning industry and then dictate terms directly to the window cleaning contractors."

N. Y. HOSPITAL NEGLECTS POOR WORKERS' WIVES

Mothers Mistreated in Free Ward

By J. N., Workers Correspondent. NEW YORK, Sept. 19.—New York City has many maternity hospitals. Some have free wards, in others you must pay a charge of \$50 for confinement and a two weeks' stay. This includes a visit every two weeks to the hospital before confinement.

Money Buys Privileges. If you can afford \$50 a week you can get a private room and your relatives may visit you at any time they wish. Visitors to the free or "poor women's" wards are limited to twice a week. The number of patients in one ward ranges from 15 to 20. (I am speaking about the New York Nursery and Hospital, 161 West 61st street.)

My wife was taken sick about two weeks ago. After most difficult labors in the above hospital she gave birth to a baby. My wife was in the fifth ward. She was suffering with bladder trouble and constipation. She was forced to beg and wait for hours until she could get a bedpan. Many times she was forced to pass urine into the bed and then forced to sleep in the soggy bed. The nurses paid little attention to the entreaties of the working-class women quartered in this ward.

Patients Neglected.

One morning the doctor of the hospital ordered an enema for a constipation of three days' standing. In spite of repeated requests she was not attended to until late that night. The doctor's order for the use of a pump on the breasts went unheeded for about 15 hours. The orders were only carried out after repeated requests from my wife. While attending for the nurses were brutal and insulting. This revolting treatment is a common thing here. The patients fear to make any complaints, as they fear reprisals on the part of nurses. The information service here is rotten. It is next to impossible to find out the condition that a patient is in unless that patient is in a private ward then you know everything. Working-class wives and mothers are ignored and neglected in this hospital. The sight of pregnant women waiting for hours in line while the hospital nurses gossip and tell jokes to each other is a common sight that greets visitors to this hospital.
