

MANIFESTO OF THE WORKERS PARTY OF AMERICA

The hungry and starving workers of Germany are rising against their oppressors and exploiters. They are preparing for the struggle to establish in Germany the rule of the workers and farmers in place of the rule of the capitalists who starve and oppress them.

the capitalist system, let loose upon capitalism by the world war, is nearing completion in Germany. The German workers cannot and will not longer. They have reached the limit of endurance.

Only the mass opposition of the workers and farmers of this country will prevent the capitalists of the United States from sacrificing the workers and farmers to aid in preserving capitalism in Europe.

Gompers Regime in Rhode Island Shows Treachery

By H. M. WICKS (Special to "The Worker") PROVIDENCE, R. I.—The convention of the Rhode Island State Federation of Labor closed in this city with nothing accomplished in the way of solving the problems that confront the masses of labor in this domain of the textile country.

A Challenge to the Lewis-Seales Machine

In the October 15th issue of the United Mine Workers Journal, there appears in an article defending the issuance of the infamous attack on the Communist Party by the United Mine Workers of America the following statement: "There is still much more to be uncovered and learned about the work of these rats in this country, and the Miners Union believes that it shall investigate the matter should be undertaken by the committee of the United States Senate."

Chicago Workers Display Spirit in Defiance to Reaction

Chicago workers are not satisfied with the slipping backward of some of the officials, shown in their repudiation of amalgamation, the Labor Party and recognition of Soviet Russia, both at the Deatur convention of the Illinois Federation of Labor, and at a recent meeting of the Chicago Federation of Labor.

Non-Partisan League of Helpless Farmers Face Woes

(Special to "The Worker")

MINNEAPOLIS, N. D.—Practical nothingness seemed to rule at the recent meeting of the Non-Partisan League of Helpless Farmers in Fargo, N. D. Two hundred and thirty delegates attended, a large proportion of whom were actual farmers. The meeting was held to subscribe to a real program, but was prevented from doing so by the factional fights and the lack of leadership all of which indicate the disintegration of the Non-Partisan League.

This convention accomplished nothing for the working farmers of North Dakota. It had an opportunity to follow the lead of other states in launching a Farmer-Labor Party, but the "practical" politicians who were in charge for the day, "We are the Non-Partisan Party of North Dakota," refused to do so.

On Labor Day at Fargo, several hundred union publicists attempted to form a provisional Farmer-Labor Party. This organization had delegates from the Non-Partisan League, the Communist Party of North Dakota, and the Socialist Party of North Dakota. They were prevailed on to drop the word "Farmer-Labor" and to call themselves the Labor Party.

It is a long way from Fargo to the state where they are leaving the land, but they are moving to the state where they will compete with the big farmers. Last year the only North Dakota was 123 million acres and this year will only amount to 100 million. The farmers and their families left a single acre of the bank of the river, driving their horses and cattle in the hands of the banks to take them and they as the burden was too great for them. The banks are now ready to foreclose on the mortgages of the farmers between 50 and 60 percent of the interest of the mortgages. The mention of these facts caused a lively discussion and debate but little of a program was proposed by the leaders of the League.

Alfred Knutson, Secretary of the United Farmers of North Dakota, called for the formation of a "political" party representing the interests of the farmers and workers. This was the question of the Federal Farmer-Labor Party did not come up in the convention. It was the question of the Federal Farmer-Labor Party did not come up in the convention. With the issuance of the "Daily Worker" the Young Workers League of Chicago will be reaching a new stage and means of reaching the youth of Chicago.

In order that the Chicago membership of the Young Workers League may be facilitated, the following tasks, the directors of the various departments that make up the League will report on the numerous reports in the movement and its effect upon the Young Workers League.

This meeting has been called for the 15th meeting, Oct. 29, inasmuch as this is the best meeting for that night since there are no other meetings for YWL members on that night. It is used upon all members that their presence is imperative to the nature of the meeting, at the Workers League, 2733 Birch Blvd., N. W.

A Serious Task for World's Workers

By ISRAEL AMTER (Our European Staff Correspondent)

MOSCOW, SOVIET RUSSIA.—The workers of France, England, Poland, Czechoslovakia and Italy have taken before them in the present crisis. Germany, their governments will try to crush the German Revolution. They will immediately mobilize their military forces against Germany. They will supply arms, ammunition and men. A world war far more terrible and extensive than that which has been waged between the United States and the Soviet Government, as in the last war, will furnish credits, guns, ammunition and supplies—and do not doubt that while Europe is engaged in this revolution, it will continue its material expansion in the path of the same imperialist and opens up tremendous perspectives for the penetration of Asia. America will preserve her markets and her position in the European turmoil. It is in the interest of America, therefore, to carry on a campaign to prevent America's world must assist the German Revolution. They must sever a single step to learn the

All Units of Party Report Growth

(Special to "The Worker")

Reports received by the National Organization of the Party, from Party units in all parts of the country, show that the campaign for 10,000 members in branches in different districts are reporting new members accepted at the rate of from 4 to 10 at a meeting. One Chicago branch recently initiated 100 new members at a single meeting. All the Federations are participating in securing similar reports.

The Polish membership in the Party of the month of August, according to dues payments, and the total number of dues paid for the month of September shows an increase of 8,000 members over August.

Shortell is Freed After Four Years in San Quentin
 The Native Sons of the Golden West have many times marred the fair lair of their highly burnished scutcheon, and the fact they would never admit this barbaric treatment of a free-born American citizen as was accorded to A. J. Shortell, the writer of the famous "Old Glory" article.
 To be blinded by red pepper; to have one's nose rubbed in the dirt; to be thrown in the state's fair boundaries with no other protection than the space of a tree, while ostensibly under the protection of the law, while being subjected to the speaking under a permit at Tenth Street and Broadway, Oakland, Calif. in the fall of 1922; to be thrown in Oakland's majestic city prison on a charge of Criminal Syndicalism, and to be sentenced still-blind to San Quentin prison for a period of five years, would read more like a characteristic experience in Russia, under the old Czaristic regime than that of one under the standard of our vaunted "Old Glory."
 All of this happened to me merely because—with many others—I tried to tell the good people the truth about Charles M. Vidler's frame-up on Tom Mooney, now languishing in San Quentin prison, wrongfully condemned to a life sentence there.
 That the thumbcrews and libbet are not very in use in California is not the fault of the better authorities there. Nay, verily, they are not used there because there are those living within the state's fair boundaries who wish to turn the searchlight of Truth upon the fawning sycophants; the panders; the capricious favor; who spend sleepless nights inventing some new "theory" which cloud the eyes of those unshly masters whose bursting point from the life's blood of the worker.
 It remained totally blind from the effects of the red pepper nearly four years more than 100 years ago in San Quentin prison, after which I was freed, but which clouded my eyes no free air ever enters where many contract tuberculosis and die from the effects of the red pepper which clouded my eyes.
 Later I was transferred to the California State Prison, where I helped peel daily some seven barrels of potatoes for the prisoners of the Communist's menu. I was later deported to the prison school, where I learned more than 100 years ago in San Quentin prison, after which I was freed, but which clouded my eyes no free air ever enters where many contract tuberculosis and die from the effects of the red pepper which clouded my eyes.
