men, more English, who are not only general, but perfect in the branch to which they confine themselves, but as a natural consequence of the division of labor, arise. And here let me express my admiration for that wondrous individual "who makes whenever he chooses \$30 per week."

But when you look for him dressed in "name him" it will be found in company with the Flying Dutchman. [You are mistaken and we are right.] We can both name him and find him.

Some reflection upon the mutations in our Trade, the ups and downs, the little prospect it affords to those who become Apprentices of arriving ultimately at a state of competence.

We feel on looking over our remarks upon Lithographic Plates that our criticism on their artistic qualities is rather too much like that of a certain distinguished Lecturer and Critic upon the Poets; and we take back some of our sweeping remarks, on account of some very neat and pretty Lithographs which have been shown us, and which sell for six cents a piece.

The few remarks in our last relative to the old Bachelor and his highly interesting and strictly moral Sentinel, set him into a perpetual rage, and with the assistance of his new ally (one or two dissipated professional friends, to whom we are indebted for our information)

The Professor exhibits an unusual amount of tact and versatility, when he brings up the old worn-out accusations, of anti-temperance, infidelity, &c.—quite consistent for a man who has neither the fear of God nor the good of man, at heart, to talk so loud on such subjects.

The Librarian is open every Saturday Evening for the delivery of books.

Subscriptions to the Libray \$20 a year, for Gentlemen, one dollar, for Ladies. A relief fund is also attached to the Association, for relief of sick and destitute members.

NOTICE. The Industrial Reform Association of Lowell, hold their meetings on Monday Evening of each week, at 8 o'clock, at the Store of Messrs. HARRIS & SNOW, to call the Store of said Pratt & Hunt, were he will be for a few weeks to attend to the settlement of the same.

MARRIAGES. In this town, by Rev. Mr. Lincoln, Mr. Aaron K. Litch to Miss Abby Newton, all of this town.

DEATHS. In Amherst, 19th inst, after a short illness, Miss Elizabeth daughter of Mr. Timothy Pratt, aged 20.

For the Voice. In consequence of the appearance of an article in the last Sentinel, reflecting upon the Editor of this paper, the undersigned feel called upon to say, that he was unanimously selected at a regular meeting of the Directors of the establishment; that they never informed him that "his services were not desired"; and that his services have been rendered cheerfully and gratuitously, for which every workman should feel grateful.

Although he never has dictated his course, yet we advise him not to take further notice of the Sentinel, or waste his labors on such barren soil.

To the best of our knowledge, Mr. Young has ever sustained a good reputation for honesty, industry and principle; and we truly think the man who would publish an article like the one before alluded to, must be driven to the last resort for means to slander the innocent.

JOHN SMITH, G. N. PRATT, Directors, SAMUEL WALTON.

REMEMIAH KINSMAN, Jr. G. H. Merriam is authorized to solicit subscriptions for the Voice, at Providence R.I.

Our acknowledgments are due Mr. Merriam, for his liberal efforts and interest in the cause of humanity.

We understand that the wire for the Boston and Lowell Magnetic Telegraph has been purchased, and that if a right of way is obtained from the railroad corporation, the whole will be completed during the next month.

Mr. Gough. We regret to state that Mr. Gough was seriously indisposed on Saturday last, that great fears were entertained lest he should sink under his sufferings. Towards evening however, he partially recovered, and yesterday was much better, though he is still remarkably weak.

Mr. Gough. We regret to state that Mr. Gough was seriously indisposed on Saturday last, that great fears were entertained lest he should sink under his sufferings.

one family nor enterprise to get the mastery over the non-family. Let it not be said, that an hundred families could not associate virtuously together. On the contrary, it is the only way to protect their virtue, for their time would be spent in public, as in churches, where they must necessarily be virtuous.

In our present society, there is a better opportunity to violate the law of honor, than there would be in the associations which the moralists of New-York with its ten thousand women of infamy, could not be exhibited in association; and if they could, what then? why, if we must have bad women, they had better be industrious and rich, than idle and poor.

We deny the result. We contend, that our natural instincts and passions would be disciplined and equalized by a variety of pleasures, honors and employments. But, if finally, we cannot make a large community virtuous, we can still exert a virtuous influence over them by the means of religion.

Besides our erring females are not now dealt with humanely. They are supposed to be lost forever; legislation must correct this cruelty of our present society.

Mr. Editor, I rejoice that the public mind is awakening to the "Reins of Industry and Labor." The circumstances which surround those of those who have been overlooked. Neglected by those who are selected for legislators and rulers, or only noticed when oppression and want impel them to the use of sudden and inconclusive remedies to redress their own grievances by means of combinations and strikes; they are met by statutory enactments and driven back by the prospect of prison and starvation, to the scantily remunerated toil which had impelled them to resistance.
