## **GUADALUPE PEA** STRIKERS WIN: OTHERS GO OUT

GUADALUPE, Calif., April 19.-United Mexican, Filipino and white pea pickers of Santa Maria and Guadalupe yesterday signed a nine- to 10c a hamper, despite the rise ty-day agreement with the Growers Association with strong gains won by their strike. As a result of this successful action agricultural workers around San Luis Obispo have come out on strike.

The workers won 20c an hour instead of the 15c they were getting; 17c a crate for peas instead of 9c; 12c a crate for lettuce instead of 9c; and elimination of fifty per cent of the contractors. The agreement was signed by the Strikers Committee of Action, The wages are within two and three cents of the rates demanded.

The great gains made with an incomplete organization has made the workers realize that with a strong fighting union they can win their demands in full, and keep what they won already.

## "BUILD UNION!" IS **CRY AS 2ND CROP OF** STRAWBERRIES DUE

Workers Given Raise With First Organization Move

STANTON, April 20.—Attempts of the Growers Association to split the ranks of the striking strawberry pickers here are being met with the slogan, put into action, of "Build the Union!" for the next crop, due in two weeks.

Through the organized action some gains have been won when the demand for 20c an hour with board as against the 15c without board offered, resulted in 18c and board being given to the Japanese workers. This move to split the growing unity of Japanese, Mexican and Filipino workers, temporarily weakening the front, has not fooled the Japanese, particularly in view of the opinion expressed by some camp bosses of not hiring them any longer as "the Japanese are too expensive." Realizing it was their unity with all the other pickers which won the concessions they gained, they are now strongly of the sentiment for all sticking together when the next crop is due The committee tonight decided to launch a membership drive into the Agricultural Workers Industrial Union. A great number of the pickers have already joined.

LOS ANGELES, April 21 .- As the municipal election campaign enters its final week, the Workers United Front Election Campaign Committee has started proceedings for an injunction to restrain the Red Squad from interfering with the huge election rally to be held in Trinity Auditorium, Saturday, April 29, at 7:30 P. M. A hearing will be given in Superior Court. The election comes on May 2.

All the candidates endorsed by the Communist Party will speak at the rally. They are Lawrence Ross for Mayor; Ezra F. Chase for Councilman, eight district; Leo Gallagher for municipal judge, office No. 10; Ethel Dell and Virgil Rhetta for the Board of Education.

Comrade Chase, who was arrested last Monday for turning on the electricity in his house, has been released on bail and will have to stand trial next Monday in Municipal Court, Dept. 7. This illustrates the difficulties the workers' candidates are meeting in carrying on their campaign. The Unemployed Council and units of the Unemployed Cooperative Relief Associations are rallying behind him and will endeavor to force his release

#### Oakland to Parade On May 1st

OAKLAND, April 22. - Twelve workers' organizations of Oakland and Berkeley already have decided to take part in the Free Mooney United Front parades on May 1. In the forenoon Oakland and

Perkeley organizations will meet at Allston Way and Grove street at 10 A. M. Following speeches there a parade will be held down Grove to University, and down University to Comrades' Hall, 1819 Twentysecond street.

In Oakland a parade will start from Jefferson Park at 4 P. M. and proceed up Eleventh street to Broadway, north on Broadway to Fourteenth street, thence north on San Pablo to Twentieth and down Grove to Twenty-second. Refreshments will be served at the Workers' Center, 645 Twenty-second street, in the afternoon. In the evening there will be a play, music and speaking.

Socialist leaders failed to send delegates to the United Front May committee meeting, although a mass meeting called by the Socialist Party of Alameda County had voted unanimously to join in a united front with the Communist Party for the Continental Congress.

Previously when the question of supporting the workers ticket was taken up there was a vote of eight to eight. That is why the leaders were afraid to even bring up the ommunication inviting the Socialist Party to the May 1st United Front, for consideration.

# Communists Retain May First as Fighting Day

For many trained to regard every militant expression of the workers as a foreign importation, it may be a surprise to learn that May Day, the International Day of struggle, originated in the United States

It started in the fight for the eight-hour day, initiated in 1884, and it was the 4th convention of the "Federation of Organized Trades and Labor Unions," later known as the American Federation of Labor, that declared May First, 1886, as the opening strike for that great struggle.

May First, 1886, marked a glorious chapter in the history of American workers. There was a great response to the strike call, especially in Chicago, the center of the most militant section of the movement: Many thousands won the eight-hour day. The bosses tried to stem this tide through provocation, resulting in the wellknown Haymarket affair. At a peaceful mass demonstration of workers in Chicago, protesting against the police brutality on May 3rd, a bomb was suddenly thrown killing a police sergeant. A battle followed in which seven policemen and four workers were killed. This bloodbath was the basis for the frame-up and hanging of four of the workers' leaders, Parsons, Spies, Fischer and Engel.

This was the answer to the workers. But their movement spread, more militantly. Strikes were repeated on every May First until 1890. It was not until 1889, when on the proposal of the American delegate at the first congress of the Socialist International, the decision was made that May First be known as the International

Day of struggle, for the aims of the working class.

REFORMIST MOVES

It was not long before May First became established as the day when the working class reviews its forces for revolutionary struggle. As in all cases the workers set for themselves the task of wresting new concessions from the bosses. Almost immediately the boss agents in the ranks of the workers proceeded to destroy the militant traditions of the American workers. The leaders of the American Federation of Labor, the organization that gave birth to May First, declared that the first Monday in September, Labor Day, should take its place, but that this should mark the day when capital and labor get together, and cooperate for "solving" their problems. It is really the day that is to express the cooperation that the leaders give to the bosses in betraying the workers.

In Europe there was a similar process. The reformist leaders, who in 1914, led the workers into the imperialist war, and by their betrayal of the revolution paved the way for Fascism, proceeded to make May Day into a tame holiday. In some cases it was to be celebrated on the nearest Sunday to May 1st. In other cases it was to be marked by only picnics, and nice goodwill speeches. Some arranged meetings only in the evening. All the schemes aimed at avoiding a clash with the bosses-at taking the teeth out of

It was not until the Communist International was formed that the revolutionary traditions of May First were revived. It is the

Communist Party of the U.S. which retains the fighting traditions of the American workers that marked the birth of May First, a fact that is obvious in all struggles of the U. S. workers in every corner of the country.

FIGHTS IN THE WEST

A glance throughout the West will bear out this fact. Under leadership of the Communist Party the workers in Seattle and other parts of Washington are carrying on a struggle against forced labor, that brings to mind the days of the Seattle General Strike in 1919. The Communist Party is the center of the Colorado United Front that now in a militant manner fights against starvation, retaining the fighting spirit of the Ludlow miners.

It is our comrades in Los Angeles that in a ceaseless and selfsacrificing manner are battling the "Red Squad" rule. Certainly few will doubt that the Communist Party is the leader in the struggle to free Tom Mooney. This year the foremost slogan for the May Day demonstrations is "Free Tom Mooney." As the new trial for Mooney comes on the eve of May Day, which will also mark the commemoration for the Haymarket martyrs, it is important to note the similarity of the two frame-ups. Both were in the form of bombs thrown by agents of the bosses, resulting in the death of innocent people, later framing well known militant workers leaders as "dangerous anarchists." Both frame-ups were boss moves to halt growing organization among the workers. With Mooney it was to get rid of (Continued on page 3)

# **NEGRO WORKERS OF** FILLMORE JOINING IN ALL STRUGGLES

SAN FRANCISCO, April 23.-The fight for the Scottsboro boys, the struggle against all forms of discrimination has marked the road leading a great section of the Negro workers of San Francisco. mostly in the Fillmore section, to joining in all the struggles of the workers.

As a result organizations are coming into existence and are growing fast. The latest is the James Ford branch of the International Labor Defense, which includes many members of the N. A. A. C. P. and is making its influence felt in the neighborhood, leading in developing a Scottsboro protest movement.

FORM BLOCK COMMITTEE Another active organization is the block committee of the Unemployed Council, whose work is centered at Sutter and Broderick, and counts 241 members, mostly Negro workers. It is this organization, being on the alert, that prevents any effort at discrimination on the part of the charities.

DISCRIMINATION IN CITY That discrimination against Negroes exists in the city is obvious when it is considered that there are only four known Negro workers for the city. Three in the public service department and one a valet for Mayor Rossi. The latter is put FIGHT RELIEF GUTS for Mayor Rossi. The latter is put up for a show to cover up, that while there are hundreds of Negro taxpayers and unemployed, they

cannot work for the city. Another brazen example at discrimination is the refusal on the part of the police department to give the Fillmore Workers Center a dance license, on the ground that there is mixed dancing. This, however, has met with defiance on the part of the workers, and the police do not dare to come to a show down on the matter.

The recent open trial in Fillmore and Oakland, staged by the Communist Party against members guilty of white chauvianism, has given further proof to the mass of Negro workers that the Party sincerely carries out its program ing many to join.

# COMMUNIST PARTY GROWS IN FILLMORE; MUST PREPARE FOR GREAT STRUGGLES FACING IT

May First, 1933, carries special significance for the Fillmore section of the Communist Party and revolutionary movement. It marks the have been the main rallying point most rapid advance yet experienced, and places it well on the road to becoming a great mass movement.

It is our duty to review our forces, our gains, weaknesses, and particularly mark out the tasks facing us for the coming year.

The Communist Party, during the past year, has more than trippled ts membership, and grew from two to eight neighborhood units. We have fulfilled our membership drive quota ending May 1. The quality of the membership has likewise improved greatly, the great majority are native born workers, who have been residents in the Fillmore district for a long time. We have made great strides in developing struggles involving large numbers of Negro workers. The struggle against the Japanese Imperialists has helped us drive a wedge into the Japanese

REVOLUTIONARY ORGANIZATIONS GREW

Under the leadership of the Communist Party, many organizations neeting in the Fillmore section have likewise grown, have become more activized and extended their influence to thousands of workers. An English speaking branch of the International Workers Order was formed. There are two more branches of the I. L. D., and particularly the last one, the James Ford Branch, including a large number of Negro workers, is a great achievement. The Charity Workers Union has recruited hundreds of members in the section. The Workers Ex-Servicemen's Post, No. 34, was the vanguard in organizing the veterans in the city. The Unemployed Council, by its never ceasing fight for relief, has become a power much greater than its active membership would

What is perhaps most encouraging, is the great number of new active leaders that have developed, as a result of each of the organizations giving a full opportunity to every member to show ability and

Finally we have established the finest and largest Workers Center of any section, at 1223 Fillmore street.

#### GREW OUT OF STRUGGLES

All of this was possible because the party threw itself into every struggle of the workers. Our comrades were among the most active n the election campaign, in the county hunger march, in the state hunger march, against war, for the Scottsboro boys, for the freedom of Tom Mooney, etc.

However, considering the growing willingness on the part of the workers to fight, were it not for many weaknesses in our section, we could have made much more progress. The fact remains that we are doing very little work in the factories of the district. While our Unemployed Council has a big influence, it is not yet rooted in every neigh borhood with block committees. Some of the organizations are still isolated from the workers. This is particularly true of those that are working among the Jewish workers, such as the Jewish Branch of the . W. O. and the ICOR which are confined to a small circle of sympathizers. Likewise the Women's Council has not yet become seriously involved in struggles effecting the needs of the working class housewives and children in the schools. The Young Communist League is extremely weak and is lagging behind the other revolutionary organizations, especially when it is considered that hundreds of young workers are involved in the struggles. While the Charity Workers Union | that they will be expected to carry has a great membership in our section, its activity will be hampered through life. against discrimination, and is lead-until all the members are organized into precinct units.

MUST PREPARE FOR BIG FIGHTS

little time to lose before we will be faced with greater fights than ever. Already cutting families off relief is beginning on a wholesale scale. Families with boys of age to go to the Forced Labor Camps are threatened loss of relief. SAN FRANCISCO, April 23.—Activities of Workers Ex-Servicemen's League, Post No. 34, at Fillmore, for the northern part of the state in the fight against the veterans compensation and hospitalization cuts and for the bonus, From its very inception about a year ago the post has been a fighting one. Its delegations have appeared at the charities fighting the cases of others with a regularity that is sickening to the fakers there.

Most recent of these is the case of a veteran whose relief was cut off by the charities because he had used part of his compensation to try to get a home for his family. Not only was he cut off, but Wollenberg, trying to save face by claiming many on the charity rolls had private incomes, charged he owned the charities \$80. A delega tion from Post 34 saw to it that he was given a job on the Veterans Hospital at 47th avenue. After working there a couple of days he was laid off because a truckload of workers had been brought up from Los Angeles. Again the delegation went into action—and the comrade is now back on the relief list and getting his groceries.

Three delegates from the post have already left for Washington and several more will leave in the near future.

## DISCRIMINATION KIDS OF JOBLESS IN SCHOOLS

Children of unemployed parents who are on "charity" and have no means with which to buy clothing or school supplies are subjected to all kinds of humiliation, and there unquestionably is a conscientious program afoot to break their spirits and instill an inferior caste feeling In order to get clothes, school

supplies or lunches the children pal. The school principal herds them together and they are taken with cast-off clothing. They are then marched back to schools, where they carry their second-hand clothes around all day-the objects of ridicule of the more fortunate children. The lunches are available only after the pay students are through and if there is any left

Student organizations, which lead in the social activities of the schools, impose dues and other conditions that the children of the unemployed cannot meet, and the with contempt on those who de not belong.

The Young Pioneers of America are building struggles around these issues and have also carried the fight to free Tom Mooney and the struggle to save the Scottshore boys into the schools.

Capitalist papers no longer interested me: thoughts entered my mind. Why did workers back home thought I could escape suffering fight back against all this? But my mind was still poisoned against Jewish Bolshevicks, about which the U.S. papers were hollering.

I had never read a Communist servative, nationalistic, hardworkpaper. But one day in the St. Louis ing boy with the usual fantastic library I picked up a "Daily Workdreams about this land of milk and er." But was undecided which was the real working class party. In Minnesota I joined the I. W. W. But dropped out three months later. I had decided I should join a revolutionary

In S. F. I went to the Labor Colege, and the Open Forums of the Communist Party. In the Labor College I heard never-ending discussions by people who dwell in oceans of books: orators who fulled the audience to sleep week after week; people who sell books, and celebrate May Day and New Year by getting stewed.

Communists, however, combined talking with actions. They organized great demonstrations: each struggle saw Communists leading it, for bread, and participating in the fight for freedom for all political prisoners, for defense of the Soviet Union, I saw the Communist Party attacked by everyone from capitalist to anarchist, and that finally decided me that the Communist Party is MY PARTY. The Communists make mistakes but strive to correct each one.

That's why I joined the C. P. Historic events call for action and leadership. Who can give it to Germany! Fascism? Look at Italy! The "Proletarian" Party? Rememwho shall it be? The Communist Jewish Socialist Soviet Republic. Party! Look at the Soviet Union! Look at the struggles in every country. -F. K.

After a most enthusiastic meeting the delegates departed to their camps to arrange mass meetings to take place tomorrow and Monday, for steps to carry through the decisions.

Reports in Hayward papers that workers will be paid as little as 10c per hour so enraged the strikers that determination for carrying through a militant strike is unquestioned.

While several truckloads of re lief have come into the strike area, and were of tremendous help in keeping starving workers in the fight, it was far from adequate and call has been sent to all parts of the state for food or money.

Workers organizations are also asked to protest the terror against the strikers, and the eviction order which the growers have instituted. The National Committee for Protection of Political Prisoners, headed by Orrick Johns, composed of professionals and intellectuals. came into the field to investigate the brutality against the workers, and found an organized conspiracy to talk to no one when it tried to interview the County Sheriff, Mayor of Hayward and others.

SAN FRANCISCO, April 23.-News of the decision of Judge Horton in Decatur, Ala., when the court opened for the trial of Charley Weems, to postpone all the remaining trials of the Scottsboro Negro boys, has not lessened the fight for their freedom. The decision, based on alleged "prejudice detrimental to the case of the defendants" on the part of their at torney, Leibowitz, was an effort to cover up the prejudice of court and prosecutor exposed by Leibowitz and is seen by the workers as a partial victory in stopping continuance of the trial in the lynch atmosphere that prevailed. Mass protests had poured in from all over the world at news of the second frame-up of Heywood Patterson and the lynch attempts of K. K. K.

S. participation in the war. Both cases attracted world-wide attention. But in the Mooney case the planned hanging was stopped by a strong workers movement.

#### I. W. W. OUT OF BATTLEFIELD

For a long time the name of the I. W. W. was linked with the fighting traditions of western workers. While the I. W. W. did lead a number of significant struggles during its earlier history, it is the Communists and the revolutionary organizations under its leadership that inherited the best fighters and traditions from those battles Of the f. W. W. there remains only a small group scattered in a number of halls around the "skid row" districts, living on past achievements, not on any serious participation in present day struggles. The I. W. W. that once organized agricultural workers is gone. It is replaced by the Agricultural Workers Industrial Union, which, as in the pea strike, is showing its leadership among those workers. The I. W. W. that once played an important role on the waterfronts has disappeared, and is replaced by the Marine Workers Industrial Union. Workers in the lumber districts have forgotten the I. W. W., and see in the Lumber Workers Industrial Union the leader in their struggles. The best of their members are now active Communists.

The "Labor Clarion," official organ of the San Francisco Labor Council, in a recent issue, takes pride in pointing to old documents of 1886 as "proof" that the labor unions on the West Coast were mainly directing a struggle against Chinese labor. These labor fakers publicize such of the backward tendencies as existed in the weak craft ridden labor unions of those days, as they want the movement to remain in that stage. But they carefully ignore the many great battles that reveal the militant character of the American workers and the fact that in those struggles the race and national lines have been broken. Even struggles right under their very noses—as the pea strike. San Louis Obispo strike. and manv others, expressing the united movement of Mexican, Japanese, Philipino and American workers—they ignore.

#### NEW BATTLES

May First, 1933, finds the workers of the U.S. on the threshold of a new wave of battles such as are bound to involve a greater mass than ever. The Roosevelt program is a new attack on the living standards. Forced labor is being introduced on a wider scale than ever in history. War preparations are being carried through on a greater scale than ever. Police terror is directed against workers fighting for the least elementary rights. The Scottsboro frameup is only a symbol of the increasing terror against the Negro

The May First demonstrations must bring to the attention of the American workers the best fighting traditions for carrying through the struggles facing us.

Only in the spirit that gave birth to May First, led by the vanguard the Communist Party, can we face the task of not only a fight for bread now, but leading the struggle further to the day when together with the workers and poor farmers of the Soviet Union we shall be part of a world-wide Soviet Union.

#### China Red Army Gains Continue

NANKING, China, April 16.—The Red Army is continuing with its huge victory and has wiped out two of Chiang's crack divisions, and parts of two others, counting 20,000 troops, in an engagement in the Kiangsi, where Nanking is situated. A mass of valuable war materials and machine guns have been captured.

Further west the Communist Commander, Ho Lung, is rapidly approaching Hankow, which the Nanking government admits is now seriously menaced. The Japanese flotilla in the Hankow harbor has been increased to 12 ships.

In the far south of China 50,000 peasants are reported to have re volted under the banner of the Soviets, being of the original settlers in that part of the country. They are demanding self-determination.

The Communists worked through the Andres Benifacio League, but by an intense campaign it was widely popularized that the candidates are Communists.

Comrade Robles was defeated for the governorship of Bulakan by a verv narrow margin.

#### German Communists Win in Factory Poll

BERLIN, April 6 (By Mail)-Strong roots established by the Communist Party of Germany in the factories are proving a great weapon against the Nazis, as is shown by the many factory council elections taking place with great Communist gains, and fascist defeats.

In the Spindler Die Works the Red list got 180 votes, the Reformists, 150, and the Nazis, 64. At the Kindle Brewery the Red list (for the first time) got two seats on the council, the Socialists, 2, and the Nazis, war, express sympathy about the 1. At the Chemical "Aceta" works, Lichtenberg, the Communists got 6 seats, the Nazis, 3, despite the 250 new workers hired, carefully selected to be Nazis. Similar victories were scored in many factories.

By united pressure from the workers, often even involving Nazi supporters, the arrest of Communists is being halted, as in the Christallate Works in Wedding, Anhalt repair station, where release of workers arrested was forced.

### SEATTLE FAMILY EVICTED AFTER 9-DAY BATTLE

SEATTLE, Wash., April 12.-Fighting to the last, the workers guard who for more than a week had slept on the porch of the Blonder home and prevented their eviction, yesterday started putting back the furniture that fifty ginned-up sheriff's deputies had moved out. Only the re-inforcements of the Ballard police and the downtown riot squad was finally able to complete the eviction. At 2:30 Sheriff Bannick and his

gang broke the doors in, forced the guard of 25 out and removed the furniture. While a ring of deputies held the workers back, they slapped Mrs. Blonder and threw her out the back door. A short meeting, long enough to pass one motion, was held, and that motion was put into action. In a steady stream the furniture started moving back in, and it looked like this attempt of the bosses would fail as their three previous ones had done. But the overwhelming police re-inforcements decided the nine-day struggle. "I will throw that family out if I have to call out the Army and Navy," Bannick had stated. Two workers were arrested and

manhandled but were later released. Fired by the fight put up, during the course of which the eviction of the family of one of the workers' guards at the Blonder home was stopped, the Unemployed Citizens League is working to build a bigger, stronger organization. Blonder had vainly used every legal means to save the home in which his equity was more than its present value, before the policy of action was decided upon.

## MAY FIRST, FIGHTING DAY OF LABOR

Ever since May First was instituted as the day of International solidarity, it served as a barometer of the ever growing tide against the capitalist system.

Each succeeding May Day throws greater fear into the hearts of the capitalist class, marking the approaching day of doom, while on the other hand it inspires an ever growing mass of workers and poor farmers, for carrying out this historic mission.

May Day therefore is a revolutionary event, and has survived all attempts on the part of the "Socialists" and reactionary labor leaders to kill it or to make it a mere holiday, a "greeting to spring."

The demonstrations this year in many western cities express United Fronts of Labor, including local Unions of the A. F. of L., fraternal organizations, the Communist Party, and often rank and file groups of the Socialist Party. The basis for this united front is limited to immediate issues facing the American workers at this hour, such as the fight for Unemployment Insurance, freedom for Tom Mooney, for the Scottsboro boys, against Fascism, war, etc. The fact that the demands are of immediate character does not however take away from May First its revolutionary significance, but it draws great masses into struggle, especially at this moment when every struggle undermines the power of the capitalists.

But the most important factor giving May First a revolutionary character is the leadership of the Communist Party. It is the Communist Party that within the United Front raises, in addition, the banner of revolution and calls for a Workers and Farmers government.

Says our great teacher, Lenin, as far back as 1901, in analyzing the May First events in Russia of that year:

Throughout this year, the workers, first in one place and then in another continually present a variety of partial demands to their employers and fight for those demands. In assisting the workers in this fight, Communists must always explain the connection it has with the proletarian struggle for emancipation in all countries. The first of May must be the day on which the workers solemnly declare that they realize this connection and resolutely join in the struggle.'

In line with this, in the United States where we are not tones. "They told me to mers is the revolutionary overthrow of the American Imperialists.

That is why even on the immediate issues, the A. F. of L. and Socialist Party leaders would not join as they are against anything that leads to struggles. And especially nowadays the workers have to shed blood even for a bare existence. Witness the terror against the pea strikers, demanding as little as 35c per hour.

A great turnout will give a tremendous driving force want us to scab on them.' for the fight to finally free Tom Mooney, the Scottsboro boys, for more relief, against wage cuts, against Fascism and war.

Let us make it a record turnout! Let every demonstration include thousands who have left the shops for the day to talk in low tones. in an organized manner! Let May First, 1933, come down in history, as a sharp turning point for American labor Herders, Incorporated!" towards more rapid strides to the day of emancipation. All out on May First!

We need hardly do more than quote from the editorial without furniture. We see ragged sheriffs come in and knock us down for?" of the "The Spokesman," most influential Negro paper in men, women and children. Northern California:

Churches in the Bay Cities have set aside April 30 as Scottsboro Day. During this day the populace will be told of the dire straits of the nine Negro boys on trial for their lives, of the heroic efforts of the International Labor Defense in securing a new trial, and of the immediate need for funds with which to carry on the fight.

The churches have set a worthy objective for themselves. There can be no doubt that Scottsboro is a name which will reverberate throughout the world for many a day to come. There is even less doubt that the implications of the case—the question of Negroes on juries, of jury intimidation by mobs. of the penal system of the south, of labor conditions in the south, of attitudes and organized hostility to the Negro-are more far-reaching in consequence than the case itself.

To urge every individual's response to this summons is not enough. There ought to be a way to guarantee the success of Scottsboro Day. If all the churches combined to prepare a monster banquet, and if each church would be responsible for the sale of a number of tickets to this banquet, there could be no doubt of the success of the drive.

But the ruling classes already cannot rule in the old way. There is still no sign of a way out of the crisis. The exploiting classes already see the prospects of the revolutionary downfall of their power. Consequently, counter-revolution is mobilizing its forces with all the energy at its command in order to meet the gathering forces of revolution. But counter-revolution has no economic resources to mitigate the desperate want of the people. For this reason it has turned to adventurous schemes, feeling its own doom, For this reason it has taken the jump into the unknown

and itself let loose civil war. The bourgeoisie wants to consolidate its position while the masses are still hesitating; it has opened fire first. But it does not see that it is shooting the democratic illusions of the masses. It does not notice that it has, itself, raised the immediate issue: Dictatorship of the bourgeoisie or proletarian dictatorship.

#### ALL NATIONS MOBILIZED

When the extremely deep crisis shook the foundations of the Weimar Republic, when a deep crack occurred inside the bourgeoisie itself, then the darkest forces of the present, stinking remains of the unburied feudal society, the medieval reactionaries, Hohenzollerns and Wittelsbachs, retired Wilhelm officers, who had not died of starvation thanks to their pensions paid handsomely by the Weimar Republic, crept out of their holes and united round the national socialist party, in order to rush into a deadly struggle with the proletariat who were demanding bread, work and power, and who were threatening capitalism, incapable of feeding its slaves, with proletarian revolu-

These two circumstances led to the downfall of the Weimar Republic and the setting up of fascist dictatorship.

This at the same time is the lownfall of German social-democracy, the downfall of the Second International.

This is the bankruptcy of the theory of "democratic socialism," the theory which betrayed Marxism in 1914 and rejected the theory of proletarian dictatorship and preparations for realizing the proletarian revolution.

It was this axiom which was the starting point for him when in the epoch of bourgeois revolutions and nationalliberation wars he supported one movement and fought against other movements. His axiom was to reinforce the strength of the proletariat, to free the proletarian movement from foreign elements and liberal hangers-on, to widen the place d'armes for revolutionary struggle, level, to raise the national-liberation movement to the level of a revolutionary popular fight, by drawing in the masses and leading them to revolutionary terror against the reactionaries, exploiters and oppressors, and to lead them to proletarian dictatorship.

#### Most Richmond City Funds Go to Bosses

RICHMOND, Calif., April 7.—The people of this small industrial town of Richmond dug down in their pockets and paid taxes, in cash, to the tune of \$819,000 last year. Every man, woman and child was compelled to deprive themselves of \$40.50 worth of the necessities of life to pay this gigantic bill. And who benefits by this tremendous sacrifice?

The bankers, for instance, get some \$161,000 as their share on bonds they hold against the waterfront, which the City Council has turned over to Mr. Parr (on a
