

Idaho Farmers' Fight Wins Moratorium on Farm Sales

BOISE, Idaho, May 24.—Unemployment here in the Gem state is, as in all other sections, increasing.

This moratorium is drawing to a close, and anticipating the likelihood of an onslaught by the shysters, the farmers of Canyon County, U. F. L., supplemented by a delegation from the United Workers of Nampa and a small contingent of the Unemployed Council of Boise, marched on the Capitol day before yesterday with demands for an extension of the mortgage-foreclosure moratorium for another sixty days.

MANY PERMANENTLY DISABLED KICKED OUT OF SAWTELLE

No Appeal, As Cases Are "Reviewed" by One Man Board For July 1st Cut-Off

LOS ANGELES, June 10.—The "New Deal" not only takes away our disability allowance, including those with a TOTAL AND PERMANENT DISABILITY established many years ago as being of service origin, but the hospitals throw us out, knowing full well we need medical care.

Thousands of cases are reviewed weekly by a one-man board without even giving the veteran a chance to appear in his own behalf. The result is inevitable! The vet is politely notified that his compensation will be discontinued beginning July 1st, and that he must leave the hospital regardless of his condition.

DEATH ROLL STARTS Already the death roll has begun. Recently a vet who saw service on many fronts in France, and who has been in government hospitals almost continuously since then, was ordered to leave. He had nowhere to go. He sadly packed his few belongings, but his comrades good-bye and went as far as the hospital entrance—where he dropped dead! He had long been suffering with active tuberculosis.

This is murder, comrades! We've had enough of this misleadership of the American Legion, V. F. W. and the D. A. V. We must build strongly organized rank and file groups within those organizations, build a strong Workers Ex-Servicemen's League, and together with the jobless and the struggling farmers wrest from the ruthless capitalist class the relief we need.

Int. Typo Official Advises San Diego Union Take Cut

SAN DIEGO, June 6.—The Typographical Union yesterday accepted a 10% cut in pay. The bosses demanded the cut several weeks ago but the union voted 53 to 51 to reject it. Yesterday there was a special meeting with Aldrich, representing the International Typographical Union, favoring "absolute taking the cut" to avoid a possible lockout.

Cherry Picking Is On!

Summer, and the ripening of fruits and vegetables, is supposed to bring bread and oleomargarine to the thousands of agricultural workers. After long months of enforced idleness, the ripening of produce brings out from their sheds into the fields the workers who, by 10 to 13 hours a day of back-breaking labor on the fields, hope to earn enough money so that by scrimping and saving they will have enough to starve through the winter months.
