## L. A. RELIEF WORKERS IN ONE DAY STRIKE AGAINST 50% CUT

4000 At Grifith Park Boo Welfare Official, Who Pleads That Workers Take Cut Without Fight

LOS ANGELES, Aug. 19.-A oneday strike and huge demonstration at the Plaza on Tuesday, August 23rd, has been called by Relief Workers Protective Union against the 30% cut in relief to the 518,-447 destitute receiving aid from the County.

More than 1700 packed the mass meeting called this afternoon by the City Council of the Relief Workers Protective Union and Unemployed United Front Conference, to pledge participation in the oneday strike.

Earl Jenson, superintendent of the County Welfare Bureau, was invited to come but sent his "personal contact" man, Rex Thompson, to tell the workers to be patient and "see how the experiment works." The workers, amid thunderous applause, sent him back to tell his boss the fight for food will go right on. Rank and file members of some unemployed organizations exposed their misleaders, who had offered their help to the Board of Supervisors in breaking the movement, and said they would kick them out and line up with the R. W. P. U.

Sentiment is high for the strike. About 25 locals of the R. W. P. U. have been organized. The announcement of Supervisor Quinn that 30,000 families will be put on the soup lines to be operated by the Unemployed Cooperative Relief Association units, for which \$60,000 has been appropriated, has raised the fighting spirits of all unemployed workers.

Thursday, Jensen spoke to over 4000 working in Griffith Park, pleading with them not to strike. He was booed down a number of Front. times, when he tried to excuse the cut in relief and his order to cut the work days from 8 to 4 hours, UTAH BOSSES TRY TO at \$1.60 a day.

#### WASH, WORKERS' **CONGRESS CALLED IN** SEATTLE SEPT. 3-4

#### COMMUNIST IN STRIKE FIELDS!

Comrades in the fields! Don't lose this opportunity to build the ence in hiring. The workers are Party in the agricultural regions. NOW IS THE TIME TO DO IT! The A. W. I. U. is recruiting Appeal to the workers to join the many members and a local will be Party that leads in the fight for a living wage.

## Build the Union, and the Party on the Ranches

The present strike in the California Fields is the greatest that has yet been seen in the state's industry, involving more than seven thousand in six different localities at the same time.

But the significance of the strike is not only in its extent, but likewise in the fact that it was chiefly against the biggest growers in the state, involving the largest ranches in the world (outside of the Soviet Union). Furthermore the strike was a direct blow against the NRA, following immediately after Roosevelt's declaration making strikes illegal. In four of the six regions the strike is organized directly by the Agricultural Workers Industrial Union, while in the other two the workers are being won over to the

Most of those on strike are peach pickers. It is the peach canners that have adopted a code setting a price to be paid to the growers that amounts to a 200% increase. But the big growers insisted on paying the workers 15-171/2 cents per hour. The growers and the canners calculated on huge profits, to be chiefly at the expense of the pickers. The strike, however, upset all their calcula-

#### WIN DESPITE NRA

The NRA does not provide for codes effecting the agricultural workers. The failure to include them only proves further that the whole scheme is meant for wage cutting. The Roosevelt administration could not continue saying that codes must provide for a living wage and set a minimum scale that would be less than that

#### SEND RELIEF TO STRIKERS! While some of the agricultural workers have returned to work with

ncreased wages, thousands are still on strike in various fields. Thou sands more are coming out. Those workers face immediate starvation as soon as they walk off

the fields. They depend on strike relief from you! It is your fight as well as their's. They are dealing a blow to starvation wages. Get your organization to arrange the raising of relief in the quickest oossible manner.

Rush all food and funds to the following centers: SAN JOSE-81 Post Street.

provided in the textile code, which is \$12 and \$13. In fact, when the textile scale was adopted there was a storm of protests from all sides. Yet if \$13.00 was set for the agricultural workers it would mean a 100% increase in most cases.

(Continued on Page 3, Col. 8)

#### "Recovery" Signs Seen by the News

It is very amusing to note how the San Francisco News performs political gymnastics in an effort to explain away the opposition to the NRA. The latest is an editorial under the title, "An Epidemic of Strikes," in which the learned editorial writer, George West, wants to set at ease such as are disturbed by the strike wave in California. Says the News:

Meanwhile let us take a grain of comfort: Experience proves that strikes come on a rising market and may even in this sense be regarded as a harbinger of good times. It is only when men and women feel that the tide has turned and that better days are ahead that they give vent to the restlessness and dissatisfaction that have been suppressed during the more hopeless period preceding. Our current strikes are in part at least a demonstration of confidence in the Finkner, Lewis and Ruley set for New Deal and of a restless eagerness to make it come true without further delay.

away the very embarrassing position that the Roosevelt administration finds itself in, because of the growing revolt against the "New Deal." On the very week that workers start the biggest strike the industry yet saw. This is called a "demonstration of confidence in the New Deal."

says that strikes come on a rising | 20 in Gridley. The union is holding market. Strikes come when the a meeting in Gridley tomorrow high cost of living and wage cuts night. reduce the purchasing power of the workers. Following the News logic Roosevelt should become a strike ORGANIZATION URGED leader, and prosperity would be around the corner. But that is not the NRA policy. Through the NRA the administration hopes to illegalize strikes.

That is why the Pennsylvania mine strike and many others have virtually created a crisis in the entire scheme. Roosevelt admitted that the strikes hit at the very foundation of the "recovery" plan. But if the News considers strikes a sign of recovery, very well, let us have some more of such signs.

#### NATIONAL GUARD RECRUIT TELLS OF **ROTTEN CONDITION**

## Chico, San Diego Strikers Score Increases

#### CHICO PEAGH GUTTERS WIN MAIN DEMANDS OF STRIKE

Five Pickets Arrested; C. & A. W. I. U. Grows

CHICO, Calif., Aug. 17. - The strike of 200 workers from the Bidwell sheds, led by the Cannery and Agricultural Workers Union, has won 10c a box for cutting cling peaches instead of the 5c previously paid, an 8-hour day, child labor laws to be enforced, first aid kit provided, and sanitary conditions in the plant.

The strike, called at the Bidwell yards, resulted in the work being removed to the Dutra yards. Re fusal of the boss to meet the demands was answered by continued picketing, at the Dutra yards. Five strikers were arrested for stopping a scab from going to work, and held on framed charges of assault and vagrancy. They were Ira Ruley, Harry Lewis, George Yamamoto, John Funker and Joseph Oliver, All are now out on bail, with trial for August 23 and for Yamamoto and Oliver for August 25. Immigration officers, brought up to deport Yamamoto and Funkner, left when The News simply wants to explain they found the workers were American citizens.

At the height of the picketing, Sheriff Toland brought out 75 deputies and Legionnaires armed with pick handles and sawed-off shotguns to break up the picket line. At Roosevelt's magic wand "abolish the same time he called to Gov. es" strikes, the rude agricultural Rolph for help from the militia (Company G of Chico, National

Old Men Fired As Being Too Slow

RICHMOND, Calif., Aug. 1.—I am writing to let you know of the way bighearted Kingsbury of the Standard Oil of California is working the men here.

Some of the men are forced to work 12 hours straight time; then they make them take time off. They won't even let the men take out time to eat sometimes. I know fellows who have more than 130 hours overtime coming. One man has had only two days off in the last three months. Then they say, "We are helping out." Four days a week is what they are supposed to work in the boilershop

To hold a job down you have to be a ballplayer. One young short-

tendent down, if you want to hold postponed to September 29-30 and parties and let the boss maul your many parts of the country an opwife. A while back a young fellow portunity for intensifying the camcommitteed suicide because a boss paign, to make the Congress even broke up his home.

They are firing lots of the old old. It sure would be grand if we ers Union organizing in the Richmond refinery. —Oil Worker.

(Continued from Page 1, Col. 2) national existence for at least ten years.'

These savage attacks on the militant union by the combined forces of the United Mine Workers, Sheriff Bliss of Carbon County, U. S. immigration officers and the relief administration follows immediately after the second victorious strike, led by the N. M. U., at the Mutual mine. For the second time within ten days the Mutual Coal Co. has been forced to comply with all demands of the miners. Following the recent victorious strike there the company tried to avoid some of the provisions of the settlement and brought in non-union members from distant sections while many Mutual miners living in the camp remained without work.

The District Executive Board of the National Miners Union has is sued a statement denouncing the effort of Relief Director Henckley to drive the miners into the U. M W. A., calling for unity of the employed and unemployed workers. and raising demands for increased relief and cash pay for all RFC is "the most enthusiastic ever held work, etc. The statement declares emphatically that the N. M. U. will continue to expose the NRA and all moves against the workers.

The victory at Mutual, where the miners have just received their first regular pay day in two years as a result of the strike led by the N. M. U., is having a tremendous effect throughout the Utah coal fields. At Spring Canyon, one of the largest mines in Utah, the miners have presented local demands to the company and are preparing for strike if these demands are refused. Demands will also be presented in other mines immediately.

#### Build the Union and Party On Ranches

(Continued from Page 1, Col. 6)

The NRA administrators are now seriously worried and are even talking of devising some way for tying the agricultural workers to the enslaving act. But the workers at the Tagus Ranch, in the pear fields and others, are learning that only an organized struggle brings real gains. It is through such struggle that wage increases have been forced even in many parts not directly effected by the

The strike shattered all opinions that agricultural workers will not organize or struggle. In Oxnard, where 1200 are on strike, gasbombs and arreatof the leaders did not break the ranks, but was answered by a trige demonstration. Evictions and terror failed to break the Tulare strike. The agricultural workers are in fact giving an example to the workers of the other industries in the state. FAKERS BEING DEFEATED

The workers have likewise demonstrated that they will not be fooled any longer by nationalist fakers. At Oxnard and Tulare the Mexican Consul was exposed at the outset, and could not betray the workers. Only in Salinas is the strike leadership in the hands of Filipino nationalists, and only when the workers unite with the Agricultural Workers Industrial Union, which represents all workers irrespective of nationality or race, will the struggle be successful. The members of the A. W. I. U. are fast winning the rank and file away from the misleaders.

The most important problem before the Agricultural workers, especially in the strike regions, is to build the union. Unless there is a union, that is active and alert, gains won will be snatched away at the first opportunity. Unless the workers are united by a unio the boss can take advantage of different nationalities and races to divide the workers. People advocating national divisions among the workers must be driven out as the worst enemies.

SHOULD BUILD PARTY

Another very important task before the agricultural workers is to build Communist Party Units on the ranches. It is the Communists that lead the strikes, and are the most active. The Communist Party is appealing especially to the most active workers in the fields to join the Party. It is the Communist Party Units that will give guidance to the workers, strengthen the union and expose the boss agents that are always trying to disorganize the ranks of the workers.

Workers in the Agricultural Fields! At this moment there is a better opportunity to build a union than ever before. A powerful union in the state will mean that the standard of living for at least a quarter of a million workers in the fields will be increased. It means that workers will not have to work for as little as 10 cents per hour, live in filthy camps and be forced to work 10 and 12, hours per day. Workers would not be left penniless after a season is over, and compelled to apply to the hated charities. You would not have to spend weeks and months in the jungles, waiting until the season starts so you may get a few weeks work. The grower would hire through the union and there would be no discrimination.

A strong union would mean that YOU would be living at least as the city worker with an average standard. You see how workers who have gone out on strike won big in-

creases. Those are only indications what can be accomplished in all parts of the state. So let us spread the strike and build a powerful union!

## A CALL TO ACTION !!!

Are you a reader of this paper?

Are you a Western Worker Agent?

Are you a member of a workers organization?

Are you in the fight for bettering the workers conditions? IF YOU ARE THEN YOU REALIZE THAT THE WESTERN WORKER IS THE ONLY FIGHTING WORKERS PAPER ON THE COAST.

## Then Why Don't You Spread It?

The fact remains that, while struggles of the workers are assuming greater proportions than ever; while the capitalist press lies to a greater degree than ever on the Soviet Union, on the "coming prosperity," on the conditions of the workers, on the strikes, etc., the circulation of our paper has not been advancing as it should.

Workers continue to write us that the Western Worker is improving, but very little is being one to We repeat continually that every Party unit must work around some factory, but in very few cases

are Western Workers sold at factory gates. Do you think that we can be content with merely talking, while the bosses act? Do you think we can carry out any part of our program, without building the press, the most essential weapon in our hands? The best answer to this is the fact that—if any city has its bundle cut off—immediately our agents

get panicky and raise funds in some manner to get the paper back, realizing that for the movement to be without the paper is like being without an organizer. We bring these facts to your attention in an appeal that you take steps now to spread the Western Worker among your friends, neighbors and shopmates.

#### WESTERN WORKER AGENTS!

We will publish in this section of the paper all advances that cities make towards spreading it. But we will also publish the cases that show where the work is being neglected, mishandled, or otherwise retarded. If you, a responsible agent, are not carrying through correctly the work for building the Western Worker you are thereby depriving many workers of the opportunity of getting the paper. YOU ARE THEREBY HOLDING DOWN THE CIRCULATION. If the paper does not appear on the streets, meetings and factories, the workers in your city should know why. You are responsible to them. Communist Party Sections, Units, Workers Organizations and all Agents of the Western Worker! See

immediately how you stand on the Western Worker. Is your account paid up? Is there a functioning Agent?

Where and how are the papers sold? Are expired subs being visited for renewal?

Act immediately. But don't be satisfied with a little activity here and there. Bear in mind that at this stage making no progress is as bad as going backwards!

#### **Editorial Column**

#### "BUT IF IT DOESN'T I WILL BE THE LAST"

When told that if the NRA proves successful, he will be regarded as the greatest president the U.S. had, Roosevelt is reported to have stated, "Yes, and if it does not prove successful, I'll be the last president."

This is an admission that the experiences during the last few years have so shaken the confidence of the masses in capitalism, which Roosevelt represents, that it may not survive for another presidential term. However painful this may sound to the upholders of capitalism, and as much as this may mean to revolutionary workers that the overthrow of capitalism is near, the president did not tell the whole truth.

The fact remains that although the NRA program of trying to pull capitalism out of a crisis may prove a failure, as it undoubtedly will, and the conditions of the workers and small farmers, will be worse, yet another important factor decides if capitalism will be overthrownnamely, a Communist Party, capable of winning, organizing and leading the majority of the workers to carry through this overthrow. Increased misery and oppression of the working masses will not of itself bring about the end of capitalism. We have seen during the crisis to what depths conditions of workers can degrade if they are not given leadership for struggle.

Let us see what our foremost leader, Comrade Stalin, has to say on this point. The following is from a speech he made before a committee taking up the situation in the American Communist Party, in May, 1929, when American capitalism seemed all powerful, and when the workers seemed satisfied to maintain it. He said:

I think, comrades, that the moment is not far off, when a revolutionary crisis will develop in America. And when a revolutionary crisis develops in America it will be the beginning of the end of world capitalism. It is imperative that the Communists should be capable and fully trained to meet this historic moment and lead the coming struggles in the U. S. For this, comrades, we must prepare with all our strength, with all means. For this it is necessary to improve and bolshevise our party.

Just as Comrade Stalin predicted the economic crisis, so he predicts a revolutionary crisis. That means a crisis when the workers, poor farmers and many middle class elements no longer see any hope under capitalism, and are challenging its very existence. This is precisely what we have not yet come to, and will not until, as Comrade Stalin says, we build a powerful Bolshevik Party, enjoying the confidence of the masses, capable of leading them for the historic act.

Roosevelt is aware of this. That is why his policy aims at using the A. F. of L. and the Socialist Party in an effort to isolate the Communists from the workers. The NRA is not the last resort, as Roosevelt's statement implies. Part of his policy is the greatest war preparation program in of a worker's support except the the history of the country. War is another way out for capitalism—if the workers permit it.

Communists therefore have nothing in common with those who only see the objective forces—who think that the masses "must get hungry enough" before they learn. On the contrary, the Party leads struggles for the immediate needs of the workers, and every bit of relief, increase in wages and other gains won through struggles led Porter Recall Campaign. Busick at by our Party means that the masses learn how to struggle and who their vanguard is—who will eventually lead them to put an end to the capitalist misery altogether.

So to hasten the moment means leading more strikes mous" donation to the party in exand similar struggles, building our revolutionary organ- change for the S. P. not running a izations and bringing more workers into the ranks of our

#### HIGH PRICES, SALES TAX, NO WAGE RISE

Secretary of Labor Perkins, in her report for the month of July, announces that while retail prices of food products have advanced by 8 1/3%, payrolls advanced by only 7.9%.

This is the first time that the administration admits that payrolls are not even keeping up with the rise in prices. Further on in her statement she admits that there to put on this over-night campaign. was a decrease of employment in the retail group by 4.7%. Increased buying should show an increase in the number of workers employed in the retail establishments, certainly not a decrease.

An analyses of her own figures shows that the discrepancy is even greater than it seems, and that the new \$100 each. A fight ensued over how the only militant union in her Secretary of Labor is an old horse in the art of using figures to deceive the masses.

In the first place it should be remembered that the plied on the paper bill, whereas figures are based on a survey of only 1800 manufacturing Busick wanted \$50 to apply on his establishments. Industries making the worst showing, the salary as former editor. After this mining, building, agriculture, lumber, shipping, transpor- fight Busick suddenly found that the working class. tation, etc., are not included.

The period covered by the report is the month when the party and had elected editor, the president made his great appeal for increases in was a faker, etc. Packard seized the cause of the workers is being ner. Whether or not the National against this anti-proletarian act of wages and many manufacturers announced fake wage in- the opportunity to precipitate a consistently fought by the Needle Executive Committee said this or suspension. creases, but few would report the truth if wages were cut. battle in the State Executive Com- Trades Union. Even at this time that sinks to insignificance along The labor department figures never were reliable since mittee, resulting in Busick losing in the face of brutal police terror, side the question of loyalty to the they are based on what the manufacturer reports.

But most important of all is the fact that it was during that month that in some cases production was increased, only because a market was anticipated. The result, however, was increased stocks and higher prices. Much of this artificially stimulated production is already receding, as it becomes evident that most of the upturn is limited to the newspaper headlines. The consequence is that the workers' wages buy less in July than in June.

Here in California the bosses, not content with this, San Francisco Supervisors, before have decreased the purchasing power of the workers an overflowing chamber, decided: through the Sales Tax, by nominally 21/2 % but in practice by as much as 7%. The income tax, which would mainly hit the rich, was vetoed by the corporation-controlled governor.

The reported increase in the number on payrolls does not really represent increased employment. In many cases the University of San Francisco, standard products; discrimination; a reduction of hours meant a corresponding decrease in the wages, while a few new workers were put to work. relief system in San Francisco, huge payroll of favorites, etc. The plan is only a continuation of Hoover's stagger sys- bring in their findings as soon as
