Open Letter To Socialist Party Convention

CALIFORNIA STATE CONVENTION, SOCIALIST PARTY M. DEMPSTER, STATE SECRETARY, FRESNO, CALIF. DEAR COMRADES:

We wish to extend to your convention fraternal greetings on behalf of the California District Committee of the Communist

We are sending this letter because there are common problems that confront both your party are purs, and the entire people of California. The increasing attacks of the reactionary forces of this state on the labor movement and on the democratic rights of the people, the growing danger of fascism and war, which is especially acute on the Pacific Coast, require the unity of all labor and progressive forces in the defense of our common interests, regardless of any political differences that exist among us. Pro-fascist tendencies are on the increase, as exemplified by the use of the Criminal Syndicalist law, "disaster preparedness" ordinances, anti-picketing laws, and other anti-labor legislation, and by the growth of vigilantism sponsored by the employers against the militant unions.

The united front of the Socialist and Communist parties would go a long way, far beyond our immediate circle of members and sympathizers, to unify the whole labor movement in the defense of its economic and political interests. We welcome the fact that the outstanding leader of your party, Norman Thomas, has on numerous occasions recently publicly declared himself in favor of united action in defense of labor and civil rights, and has personally shown the way by participating in the campaign for the freedom of the Scottsboro boys and Angelo Herndon. We greet the fact that the National Executive Committee of the Socialist Party has elected a committee to meet with the American League Against War and Fascism to discuss united action. We are especially glad to note that in this state, many individual Socialists and branches of the Socialist Party have participated in united front action on numerous local and state-wide issues.

We therefore earnestly urge that your convention seriously consider steps to conduct a joint campaign with us for the building of a Farmer-Labor Party in California; to reach an agreement between our two parties to avoid competing candidates in certain Assembly and Congressional districts in the coming elections; and where such agreement can be reached, to run a joint slate in selected districts on an agreed-upon platform for social and labor legislation and the defense of labor and civil rights.

We hope that your convention will consider this matter urgent enough to immediately authorize a committee to meet with a committee representing our party, to discuss these questions and see if we can reach an agreement that will be satisfactory to both

In answer to the rousing and nearly unanimous demands of the Atlantic seamen for better working conditions and increased scale of wages the reactionary controlled Convention adopted a resolution which speaks for itself:

"We hereby warn district unions, members, and seamen generally of the Atlantic and Gudf areas against the danger of yielding to the subversive propaganda now being circulated from anonymous sources by irresponsible persons intended to stampede the seamen under circumstances leading straight to disaster."

In honey-coated words from the lips of one who has done everything in his power to wreck the maritime unions-especially on the Pacific, Olander stated, "A strike action on the Atlantic and Gulf under existing circumstances and conditions will not only result in defeat for the men, but will also seriously endanger in the Pacific district."

Campaigning Against the Foreign-Born "Attack on Communism Almost

At the present time there are at least nine bills before Congress which call for deportation of nonitizens. All of them are vicious, obviously Hearst-inspired and exclusively anti-working class. Author of one of the most despicable of these is Mr. Dies.

The Dies' Bill, known as H. 2. 5921, provides for the deportaion of any alien citizen who does not declare his intention of becoming a citizen within one year after entering this country. It provides for deportation of any non-citizen who is a member of or affiliated with, any organization which believes in or advises the overthrow of the governnent by force, or who "believes n" the unlawful damage of property, sabotage, or the establishnent of a system based upon common ownership of property.

The intentions of this piece of n its provision that further comment is unnecessary.

Then there is the Kerr Bill. H. R. 6975, an administration bill by the way. Hearing on this bill was held on April 9 and 10. It s the official bill of the Department of Labor.

H. R. 6795 permits the arrest and detention for a period of 24 hours, without warrant, of any alien whom any employee of the Immigration and Naturalization Service "has reason to believe is subject to depor-

DICKSTEIN BILL

That other super-patriot, Mr. Dickstein, has at least two proposals before the Congress. One, H. R. 5839, a committee bill, provides for termination of temporary visas or deportations of any alien who engages in "spreadhave been sentenced to at least ing propaganda from foreign sources," or engages in unlawful political activity "instigated from such offense. > The first alien bill passed in the United States was the Alien Act of 1798. It was enacted tollowing the French Revolution. It was denounced and defended only as a war measure. Two years completely forgotten.

NEED CHEAP LABOR

For a century after this, industry was growing and expanding in this country at a rate unparalleled in history. Cheap labor was needed by manufacturers and land-owners. So the United States became an "asylum for alien rebels." Immigrants were encouraged to come. Singly and in groups, they came. And they played an important part in building

Alien deportation laws invariably have been used against militant labor. Individuals involved in strikes and demonstrations to better economic conditions, for political freedom or against war, have been singled out. In practically every case recorded there was no evidence and no danger of violence or revolution in the near future.

The present wave of repressive legislation therefore is typical of to curb unrest in this country past experience. Economic depression and consequent social unrest gave rise to a powerful and widespread strike wave, accomlater this act was buried and panied by unemployed demonstrations, farmer strikes and demonstrations against evictions.

> The campaign for protection of foreign born workers against these bills, and against deportation, must be centered not alone within the language groups, but also in trade unions. The Columbian was being unloaded at the time, Apparently hoging to "scare" the men, only one gang was fired at first. The other gangs, however, refused to be scared into any speed-up and they were also discharged.

Undaunted the men stuck their hooks in their belts and walked off the pier. "They'll never get us to go back to the miserable pre-strike man-killing speed-up system," one of the gang stewards stated as the men left for the I.L.A. hiring hall.

This statement represents the unanimous sentiment of the local longshoremen who are determined under no circumstances to al low the return of the evil "blue book union" days in any shape or

NEW YORK, Feb. 16.-Congressman Vita Marcantonio, (R., N. Y.) Saturday was slugged by police and arrested while leading a demonstration of 12,000 WPA workers.

Demonstrators had sought and had been refused a permit to parade. At a mass meeting preceeding the parade Marcantonio, one of the main speakers, called for the march. Demonstrators were met by a cordon of some 200 police. Marcantonio, in the lead, shout-

Sinclair Lewis' reply was, "If Mr. Hayes thinks that an antifascist film might be interpreted as anti-Republican, that certainly be interesting to of Republicans."

Mr. Hays, who is president of the Motion Picture Producers and Distributors, was said to have forbidden the filming of the novel, partially because of "internal com-

Japanese Aggression in Mongolia Intended To Halt Franco-Soviet Peace Pact

(Continued from Page 1)

THE ORIENT Threat to American capitalist interests in the Orient comes from the growing revolutionary strength of the Chinese people, and from

Japan, who not only proposes to suppress the Chinese revolution, but to drive out American influence as well. By its under-cover financing of the dictatorship of Chiang-Kaishek, American capitalism has long played the major role in suppressing the Communist movement and Central China. Failure of the mercenary troops of Chiang to accomplish this task brings a

situation where, unless America is prepared to march in with her own troops, Japan will undertake the task. In this event, she would not only suppress Communism,

but throttle American influence. SUBTERFUGE Observers believe that the Unîted States would never openly declare an aggressive war against Chinese Communism. Rather, i s believed, she would lend her armed forces to the Chinese Nationalist government under the guise of "insuring China's independence." This course would end to direct aggression North-

to suppress the Chinese masses. COMMON FEAR Actual conflict between American and Japanese forces is not considered likely, inasmuch as both capitalist powers, despite their enmity, are more fearful of the powers of Comunism than they are of each other.

If such a maneuver could be

achieved (and observers believe an attempt is likely), Japan would invade the Soviet Union, while America would police South and mob action.

CRISIS NEARING IN ITALY-ETHIOPIAN ADVENTURE IS FAILING

The "Labor Clarion" In The Guise of Mr. Hearst

How an Editor Falsified a Document to Further a Union-Wrecking Plan

(Continued from Page 1) were not contained in the original. For example, the document

the Labor Clarion preplot, secretly distributed, was published in No. 5 of a monthly News Letter for December, 1935. Here is how the editor distorts

VERY SECRET

Instructions to all Sections. Must be followed without deviation. Program adopted at the State Communist Party Convention in San Francisco, November 24th, 1935.

Here is what actually was is sued and sent out by the Party MONTHLY NEWS LETTER

Issued by the District Trade Union Commission, District 13. Communist Party, U. S. A. 121 Haight Street, S. F., Calif.

WHOSE SECRET?

What was issued publicly in a news letter is made into a secret by the editor of the Labor Clarion. Just why Hearst and others follow this stupid method is a mystery. For example, the "condemned document advises all members of the Communist Party "to stimulate the fight through the A. F. of L. for prevailing union rates of pay on all WPA projects and work towards the organization of the relief workers into the A. F. of L." According to the editor, this seems to be "red propaganda." But if he is against organizing the unorganized into the A. F. of I., let him come out and state his reasons. To dismiss it by saying "He's a Communist," is merely playing

Hearst's game. , Another, proposal in this socalled "secret document" is that every member of the Communist Party should distribute the pamphlet. "A New Page for American Labor." This pamphlet contains the specches of John L Mine Workers of America and of Francis I. Gorman, presiion, speeches made at the 55th Annual Convention of the A. F. of L. Lewis spoke for industrial unionism, for organizing the unorganized, and against the growing fascist tendency in America. Gorman spoke in the same manner and for the formation of a Farmer-Labor Party.

SHOULD BE FRANK

Is it a "secret red plot" to distribute speeches made by trade union leaders at an A.F. of L. convention? Or is the editor trying to impress his readers that to advocate industrial unionism, organize the unorganized and to form a Farmer Labor Party involves a Communist scheme to control union labor? If the editor is opposed to the movements, why doesn't he say so frankly, and state his reasons? . Another proposal in this so-

called "secret" document is that all progressive forces should "carry on a persistent campaign in all unions for affiliation to the State Federation of Labor.' Is the editor of the "Labor Clarion against this, too?

We would like to reprint the entire document but space limitations forbid. The original document in listing a number of papers and bulletins gotten out by various progressive groups in different unions, stated:

"Below is a partial list of the Rank and File bulletins now being issued in the State." But the Labor Clarion editor had to distort this too, so that he printed the lollowing: "Below is a partial list of the Rank and File Bulletins now being issued by our party sections through out the state." This is

the Central Trades and Labor issued by the Communist Party Council at San Diego. Convenand attempting to make it myster-liently enough, this distortion apious by writing in things that pears in the "Labor Clarion" as a reprint from the San Diego "Labor Leader," under the able, if unscrupulous guidance of Joe Casey, who was faced with the task of inventing a reason why the Trades Council charter should be revoked. The "Labor Clarion" discloses this very clearly when it says: "It will be recalled that the American Federation of Labor was compelled some time ago to remove the officials of the Central Labor Body of that city because of internal dissensions brought about by "red" activi-

ACTUAL REASONS

What the "Labor Clarion" fails to tell its readers is that the first officers of the San Diego Labor Council, and ordering a new election, was that representation to that body consisting of five delegates from each affiliated organization, was contrary to the laws laid down by the A. F. of L. Nevertheless, the representation objected to had been the custom in San Diego for more than 20 years. However, when Casey found out through the new elections of delegates that the even greater majority—that 33 unions out of 38, representing nearly 90 percent of the entire membership were for retaining their leaders and the progressive program— then the old red her ing was dragged out.

"The Constitution be damned," said Casey and he proceeded to abolish meetings and to set up his own dictatorship.

HIT DEMOCRACY

Whenever the Rank and File mocratically its delegates and officials, and demands from the officials before they are elected that they state their position on be issue of the day-whenever the Rank and File does this-it is tains the specches of the United ("red activity." And if, when they Lewis. president of the and of cannot got their lished in the official organ, Francis I. Gorman, president of the Textile Workers' Under the Textile Workers' Under the Textile Workers' Under the publish their own povertysheets, they are "Communists,"

> The editorial of this anniversary issue of the Labor Clarion has not one word to say of the widely-known, widely publicised, planued attack of the shipowners and the Industrial Association against the maritime unions. In stead, it talks about "a better and more tolerant spirit on the parof both capital and labor." I declares that "the present year may see the back-bone of the depression broken." And the editor again dips his pen in the Hearst red-baiting ink-well and labels the struggle going on with in the trade unions (presumably the Sailors Union) of a Communist plot to gain control of these

TRUTH WILL OUT

One statement in the editorial we heartily endorse, but when the editor wrote it he must have had his fingers crossed. He wrote: 'The American Federation is a democratic organization; if its laws and policies are unsatisfactory to certain unions or individuals these can be changed in the prescribed method."

This is exactly what the Rank and File in the Sailors Union is trying to do—and has done. But the shipowners have more power over, and their decisions more weight with Victor Olander and Paul Scharrenberg, than do the principles of the A. F. of L. or the voice of the membership of the International Seamens Union. The public utilities and the San Diego Chamber of Commerce were the main critics of the San Diego Trades and Labor Council and this had more weight with Casey than the democratic principles of the A. F. of L. or the opinion of 90 per cent of the members of the trade union movement of that city.

Seemingly, the only reason for printing this enlarged anniversary edition of the "Labor Clarion" was to hide the union-splitting policy of Scharrenberg and Casey under a typical Hearstian red smoke screen.

The Results of the Insane Conquest By Italian Imperialism

The extent of the disaster which has overtaken Italian troops in the African invasion can be judged from the above map. After four months of fighting, the northern armies have not yet penetrated as far as the the ill-fated invasion of 1896. Compare the graphic facts portrayed above with the extravagant accounts of victories and advances which appear constantly in the Hearst press. It will be seen from the map that the Italian army has been driven back from at least a third of the territory it has occupied to date.

When Pat Chambers, now starvation, brutality; I am glad prisoner No. 57589 at San Quentin penitentary, made his final argument to the jury in the Sacramento Criminal Syndicalism trial

"No strike leader will incite violence. Calling a strike is a great responsibility. I want to point out that if any of these strikes (Note: He was on trial for leading agricultural strikes. Ed.) had not been conducted correctly by us, not only growers would have condemned the organization, but workers would have been the first to do so. Yet not a single worker came forward to testify against the organization.

"You yourselves are more or less sheltered. I ask you, irrespective of your decision in this case, to do one thing. Go to the agricultural fields and see for yourselves how miserable the conditions of life are there. You will see children with the terrible imprint of hunger on their faces.

"I swore to fight against all organizations that use their power to browbeat the poor. swore above all that these I have seen so much misery,

"In sentencing us 14 men and women to jail, you are sounding the opening gun in an attack on the wages of these workers."

UNION LEADER

This was the word of a man who fought shoulder to shoulder with the agricultural workers in their struggle to obtain a decent standard of living. Chambers was the organizer of the Cannary and Agricultural Workers' Industrial Union. He was also a member of the Communist Party. He was sent to the penitentiary, together with seven others, for a term of one to fourteen years, not for having committed any violence, but for having "conspired to commit violence."

And that is what the California Criminal Syndicalism law purports to cover. With the issue of violence prominently thrust to the public attention by the Hearst and other capitalist papers, the Criminal Syndicalism Act and the eight terms become matters of first rate importance. This is especially so in view of the flagrant accusations that the men of the Pacific Coast maritime unions are plotting violence against the shipowners.

THE PROOF

As for activities of his union, we can cite the evidence of the C. S. trial itself. The whole history of labor struggles in the state was brought into that trial and not one single act of violence could be cited against the workers. What the evidence did show was that whenever workers exert their economic power and strike, the industrial owners resort to all conceivable violence and terrorism to break their picket lines, disrupt their organiza-

BAKERSFIELD, Cal., Feb. 17. -Workers have been sent from Camp Poso, a WPA project camp in the foothills 35 miles from here, to build fire trails. They were promised \$55 a month wages, with \$13 deducted for "board, room and medical attention."

But on their arrival in the camp they were told they would receive only \$48, with the \$13 deduction. They are actually receiving no more than \$45 a month, with many getting \$40 and \$35, and \$20 is deducted for "board, room and medical attention."

MOVE TO ORGANIZE

The only recreation for the victims of this WPA camp is gam bling and walking,—the latter when they can get permission from Newton. Their only reading material is such trash as "True Story," "Western Story," and 3ex novelettes.

One militant in the camp, Wm. E. Sherwood, attempted to organize the men, and Newton promptly sent him to another camp. ORGANIZER "DUMPED"

When the speaker arrived he was escorted in by Newton himself. As soon as he spoke to Joe Ryan, one who had helped organize the meeting, Newton fired the latter, refusing to give any reason for doing so. Ryan and the speaker then left_the camp to return to Bakersfield. They met and spoke to two workers who were out for a walk (with permission). Newton, trailing behind them, pounced on these two and fired them.

Not far from the camp they encountered Sherwood, who had come over from the other camp earlier to attend the meeting and had been fired on general principles. Newton and Scott, a foreman, had followed him, armed with pick handles, thrown him into their car and taken him far offff his road into the foothills and dumped him.

The Federation speaker and Ryan took him to the camp to get his belongings and took him to Bakersfield with them. Sherwood did not get his pay check. He left the WPA camp with no money except a little that was

The division of sub-sections was not carefully thought out. In most cases, a territory was slashed off and a sub-section buro set up. Naturally, due to mushroom growth, and the hurried manner in which the subsections were established, the posections is low. A great number of them have not grown since the day they were formed, a number have gone backward. While it is true some of the sub-sections are in a healthy condition, there is certain room to improve our organizational structure to establish our section as a mass Party.

We have capable leadership in Los Angeles Section, though at present most of it is being used in inner Party meetings.

Sub-section lines do make barriers for fraction work in unemployed, anti-war or other mass work. Two sub-sections having the same territorial activity, working on a certain phase of activity are bound to have differences in methods. > The strikers and their committee having had no experience in organizing picketing, relief, or publicity, most of the work fell on one or two comrades, who were unable to give the strike all of their attention.

Scabs were brought into the plant and were given A. F. of L working cards, although no new charter was obtained until the second week of the strike. Conjusion was bred in the minds of the fishermen, who were supporting us, by the boat owners, who pointed out that the plant was being worked by people with union cards. They told the fishermen that it was not a fight between the cannery owners and the cannery workers for wages, hours, or working conditions; but a fight between two unions for recognition. The Central Labor Council aided the cannery owners and the boat owners by telling the fishermen, who belonged to an independent union trying to get a charter from the I.S.U., that they should go back to work, that by continuing to support the tsrike they were fighting the A. F. of L. After one week the fishemen went back to work.

Meanwhile, the Party had failed to organize sufficient relief. FAKERS DETERMINED

Seeing the destructive intent of the A. F. of L. bureaueracy, it was decided that the business agent should offer to resign, through the machinations of the Buzzell machine. An open letter was issued to Buzzell on December 30, and was circulated in of our local offered to meet with

Buzzell said he reognized it as an effort to "drive him out in the members who continued wearing open" and declared that he did not have to "come out in the open to fight" and did not intend

> The strike was broken The warehouse crew broke first and went back. The others followed, after the committee met for the last time with the management and were not able to get a guarantée of no discrimination against strikers.

The Filipino cutters were the only ones who stuck by their guns to a finish. Forty-two of them signed a pledge never to go back into the cannery unless those of their number who had been discriminated against for their militant activity (there were about 10 of them) were rehired. They sought jobs in other places.

Mean while, the campaign against our union continued. Militants in two other plants had been discharged. Although many of the workers wanted to support them and strike, we decided against it, fearing the back-stabbing tactics of the A. F. of L. fakers. Therefore, at the next meeting after the attempt to treat with Buzzell, the union voted to dissolve and to urge all former members to enter the new union and fight for democracy, rank and file control, and politics which would be of benefit to the majority of the membership.

PACKED MEETING However, at the time when ficers for the new union, the strikebreakers from the Coast Plant had packed the meeting, at the insistence of the management; and control of the union, under the gentle influence of the Central Labor Council, went to the strikebreakers, who constitute the officers and the executive

Since then, the militants have been so discouraged and apathetic that it has been impossible to get enough of them to a meeting to outvote the finks. The cannery owners, meanwhile, have which a new charter had finally "leaders" in the Coast strike:

THREE COURSES OPEN

Now let us examine our policy. When the instruction was received from Buzzell, we had three possible courses: 1) Accept his dictum of allowing the Communist leaders to be expelled, with only a formal protest from the union. 2) Follow the urge of some of the militants and apply for amalgamation with the fishermen. 3) Put up a stiff fight to retain our elected leadership.

Had we followed the first course, reaction would have held undisputed sway in the Harbor district, as well as in Los Angeles. A red-hunt would have begun to sweep away every shred of opposition to the reactionary policies of the Buzzell machine. There fore, it was correct not to consider this policy of submission.

ISOLATION

Had we followed the second course, the fishing industry would have been isolated from the res of organized labor in the harbor district. Thus the progressive influence which the militants in the fishing industry may have on the rest of organized labor would have been lost. The working class front would have shown one more weakness before the oncoming onslaught of capitalist reaction. Our main task is to unite all the forces of labor.

We correctly chose the third path and put up a stiff fight against the reactionaries, for the defense of democracy in the trade unions. However, certain weakthere was to be an election of of- nesses and mistakes in carrying out this policy impaired its ef-

In the first place, we were slow to mobilize the progressive forces agginst the expulsion. It was over a month from the date Buzzell first appeared before the cannery workers until opposition to him was begun in the Los Angeles Council. We were un able to force any kind of a fight in the San Pedro-Wilmington Council.

constitution, lowering of dues printing of temporary independent membership cards, etc.

Thirdly, we underestimated the

destructive intentions of the re actionaries. The cannery workers were caught between two fires the union-smashing, agreement-repudiating attack of the cannery owners; and the scab-herding, strikebreaking treachery of the fakers. Had we correctly estimated the weaknesses of the union-its newness, the inexperience of the workers in organization, the lack of a union tradition and a strong loyalty to unionism-we should not have continued the uncompromising fight to the point where the charter was taken After we had shown our strength in two different votes on the question, we should have made a re treat, in order to save the charter, at the same time intensifying the fight on the outside in other un ions for the democratic rights of the cannery workers. Our frac tion would have still maintained a large influence on the policies of the union. The organization would have remained intact, and the morale of the workers would not have suffered. The "Coast" militants possibly would still be working. The union would now have militant leadership instead of a leadership of strikebreakers and company stooges.

PRESENT TASKS

Our present tasks are: 1. Political education and enlargement of the present fraction. 2. The building of a strong rank and file group of the natural leaders in the canneries, to act as a core in the reorganization of the union. 3. Intensification of a renewed drive to organize the canneries and win back the losses.

Immediately the Section Buro must strengthen its contacts with fractions in decisive unions. The lack of a strong organizationa contact between the cannery union fraction and the Section leadership is the main organizational weakness contributing to the mistakes made in the situation.

Above all, we must intensify our concentration work, orientating the whole party to overcoming our weaknesses in Harbor Sub-section and the two most decisive unions in Southern California-the International Longshore

The Struggle to Save the San Pedro Healthand the Class Struggle

POISON IN THE LETTUCE 1 to get it.

Yuma, Arizona.

Dear Comrade Bissell: For the past few years the workers in the lettuce industry and quacks call "lettuce poisoning." The workers in the fields help who trim the outside leaves with this so-called lettuce poison-

They (the growers—F.B.) use arsenic spray and paris green, and several workers have had this in their eyes. Eyes felt like there is a foreign body in them until the next morning, when they are swollen and inflamed. One worker has this in his only one good eye, and possibly will lose his

I have been under a doctor's care for a week and my eyes are not perfect vet. Would like to know if there isn't any compensation law for such cases?

This will be a good article for the Health Column, as in various other industries, such as apples we get white lead poisoning, etc.

Would like to see something exposing these phoney compensation boards, and wise the workers up as to what procedure to take when hurt while working. Comradely yours,

COMPENSATION LAWS

ANSWER:--We are not familiar with the compensation laws in Arizona, although we believe that they are similar to those in California. In this State, a worker is supposed to receive the difference between what his job pays him after his injury and what he with constipation, pains in the received on the job on which he joints, and paralysis of groups of was injured. He usually must fight muscles.

If there is a large sum involved it is best to engage a lawyer, as it is usually possible to find a lawyer who will handle the case here suffered with what the bosses for a fee, to be paid after it is settled. The employer or his insurance company is supposed to cutting the lettuce and the shed pay all medical bills for the injured worker. The worker should off are always being bothered insist on being treated by his own doctor, whom he can trust. He is entitled to this, although the company always tries to have their doctor handle the case. The reason is easy to see. Most of the insurance doctors are experts at lying and assist in every way possible to cheat the worker out of his compensation.

> It would be of great service to their members if unions would have someone in their offices who could advise members on the ins and outs of getting compensation. If a union man is being unjustly treated by the compensation board, it is often useful for the union to send a committee to the hearing.

POISONING SYMPTOMS

Workers in fruits or vegetables which have been treated with arsenic or lead must keep in mind that they can get a general poisoning from these substances, as well as the eye affliction described by B. L. The chief symptom of chronic arsenic poisoning is a polyneuritis. This is an inflammation of many nerves in the body and is shown by pains and tenderness along the course of the nerves and a general muscular weakness.

The usual symptoms of a chronic lead poisoning are a metallic taste in the mouth, colicy pains in the abdomen together

Damage Claim Won TALKS - DRAMA Arrest in C.S. Case

LONG BEACH, Calif., Feb. 4. T. A. Wishon, head of the local red squad, and other members of the police department, have been forced to settle a damage claim filed by Paul Cochran for false arrest on "suspicion of criminal svndicalism.'

On January 23, Superior Court, Dept. A, approved the petition for compromise of the claim, whereby certain of the defendants pay Cochran \$100 each, and whereby written instruction was issued to City Manager Randall M. Dorton, police chief, and police officers, requiring them to follow penal code provisions with reference to making arrests without warrants and with reference to bringing prisoners immediately before nearest magistrate.

The petition stated that Cachran was arrested on Nov. 25, 1934, and held in jail for approximately 46 hours without any taken before a magistrate

Mass Pressure and the Parole Board

A malicious rumor is being circulated that letters are being sent to the California Parole Board threatening reprisals if that body does not decide on a minimum sentence for the Criminal Syndicalist victims.

The San Francisco Industrial Association and other reactionary influences are continually issuing propaganda interpreting campaigns of letters and telegrams as attempts at intimidation. Likewise the practice of calling for mass attendance at trials and public hearing is declared to be an effort to intimidate judges and juries.

Having clamped a monopoly on all means of public expression, the press, the radio and the larger public halls, the capitalist powers have effectively blocked almost every medium through which genuine public opinion could speak. Hearst is given a free hand to masquerade as the voice

Meanwhile, not content with their hog's share of publicity, they want to throttle what few channels of expression still remain open to the man in the street.

For their own part, these capitalists resort to every conceivable means of working their will through courts and government. They not only carry on campaigns of mass pressure identical to the ones which they now decry as "intimidation," but resort to bribery, hired lobbies and gross forms of corruption.

It will be remembered that during the Criminal Syndicalism trial itself, wealthy financiers flooded the office of the attorney general with letters, telegrams, and delegations demanding that he appoint Neil R. McAllister special prosecutor.

. It will be remembered that more recently, wealthy agriculturists exerted pressure on the State Bar Association demanding that attorneys Be forbidden to defend Communists in the courts.

And yet, when the working class resorts to this same means of expressing its opinion, the ruling class shouts "intimidation!"

The Communist Party and many other working class organizations frequently urge campaigns of telegrams and letters from individuals and graups.

At the present time, a united front of more than one hundred California organizations is conducting a campaign of mass pressure demanding that the parole board fix a minimum sentence for the eight innocent Criminal Syndicalism prisoners.

These letters are the strictly legal means by which the public of California addresses the offices of government which are supposed to serve their interests. Certainly the imprisonment in the state penitentiaries of eight young people for organizing a union is a disgrace of sufficient magnitude to merit a letter from every decent minded person in California.

If among those letters some are found which threaten violence if justice is not done, these are the work either of irresponsible cranks or deliberate provocateurs seeking to discredit the cam-

Neither the Communist Party nor any other affiliate member of the united front to repeal the C. S. Law and free the prisoners either resorts to violence or threatens it.

The capitalist accusers, however, are governed by no such ethics. They beat, tar and feather and kill in their efforts to smash unions. During the Criminal Syndicalism trial, Prosecutor Mc-Allister in his harangue to the jury OPENLY THREATENED THAT IF THEY FAILED TO CONVICT THE PRISONERS "VIGI-LANTES WILL DO THE WORK." Employers are constantly informing authorities that if the police and courts are not exerted against labor, they will take matters into their own hands and enforce their will by vigilantism.

It is part of the purpose of the California capitalists in raising this cry of "intimidation" to frighten the public and stem the tide of protest

It is not only your right, but your duty to address the members of the Parole Board urging justice for the C. S. prisoners.

The names of the board are: Frank Sykes, Joseph Stephens, and David Bush. They may be addressed at the office of the Parole Board, Ferry Building, San Francisco.

The board has announced that the C. S. defendants cases will not be considered until late in April or early in May. This gives us over two months to continue the campaign of letters.

An Employers' Tool Turns Polite Racketeer

It's strange how murder will out. The San Francisco Industrial Association and the Chamber of Commerce have many skeletons in the closet. Once in a while the bones rattle and the general public is let in on a nice bit of revealing information. That's what happened last week.

John (Black Jack) Jerome has been exposed as a racketeer in real estate in this city. The government is investigating Black Jack's recent activities in view of preferring charges against him of perjury and conspiracy to use the mails to defraud.

Back in 1926 the San Francisco carpenters went out on strike for the closed shop. Black lack lerome was imported by employers as chief strike-breaker; he fed the scabs, housed them and put them to work. He was given a "job" as contractor and put in charge of construction of a downtown building. This building became the spearhead in the open shop attack. Black Jack's gun-thugs and police mingled with touching intimacy and it became impossible for the average citizen to approach within a city block of the building.

The strike was broken. But not until one man, a carpenter, had been murdered, and two rank and file workers had been railroaded to San Quentin by the employers. The Industrial Association had accomplished its purpose. The open shop was given a new lease

The details of Black Jack Jerome's present activities are unimportant. But his exposure as a racketeer brings clearly to light the type of person and the tactics the employers use in keeping the unions down, along with wages and diving and working conditions.

The next time the Industrial Association, the Chamber of Commerce or the Waterfront Employers' Association come out with a barrage of lies and invectives against the waterfront workers or other trade unionists, it will be well to remember John (Black Jack) Jerome.

Indifferent Public Health Institutions Deal Death To Stricken Workers

Mary Tontarelli, a San Francisco high school girl, is dead because she did not have medical attention in time. Her parents are accusing a school nurse of causing her death by not sending her home when she complained of a pain in her side. The nurse, an insignificant cog in the public health machine, may or may not have been at fault in failing to recognize the seriousness of Mary's symptoms and acting accordingly.

But denouncing the nurse is as silly as shooting at a mouse while your house is being stolen. The girl arrived at her home at 4 p. m., ill. Her parents called a doctor who did not arrive until 10 p. m. The physician recognized that she was gravely ill with appendicitis and recommended immediate removal to a hospital.

But, "THE FAMILY BEING WITHOUT FUNDS," it was agreed that she should remain at home that night. It was not until 11 a. m. the next morning that the doctor again saw her, when she was immediately sent to the San Francisco Hospital. The surgeon who operated declared her appendix had burst from eight to ten hours before she reached the hospital. She died 27 days later, despite frantic attempts to save her.

Her appendix burst between the time a physician first saw her, and decided to wait overnight, because her family was poor,-and the next day when he sent her to the county hospital.

Bluntly, here is the issue: why do publicly owned hospitals and county operated medical services consistently postpone and delay hospitalization of sick persons without funds? Why do the DOCTORS ALWAYS DELAY-until the last moment—the hospitalization of workers and their families who are unable to pay and have to be cared for in county institutions?

This is an issue which should be taken up and fought out determinedly by every jobless organization in the state.

The death of this 17-year-old girl is no isolated instance. In Berkeley, in 1933, a frantic mother called the Berkeley clinic and begged for immediate medical aid for her children. The stupid burocrats, misunderstanding her broken English, gave her an appointment for the following day to see a doctor. Her children died in convulsions within an hour! Again, in Oakland, in 1934, a jobless worker called for a doctor for his father. He spent a week calling for a county doctor, was thrown bodily out of the county hospital. The doctor arrived a few hours after the old man had died! Such examples can be cited by the hundreds.

Since then it has been adequately uemonstrated in the East Bay that organized action can get a prompt reply to the cry for medical nelp. Doctors who add to their code of ethics the footnote that they will get their patients into the county hospital REGARDLESS OF THE POLITICIANS' SQUAWKS, can do so by writing for the patient a letter stating that he needs such care, and sending him to the Alameda County Federation of Unemployed and Allied organizations.

That union will do the rest. The hospital director has never been known to bar a patient bearing such a letter and with a determined grievance committee from this union to back him up.

Alameda County is the only county in the State of California which has seen the Federal and Dental Relief Project in operation as Federal regulations provided. It was instituted solely because the jobless union found out such regulations existed and conducted a relentless and wellorganized campaign of mass pressure. It took them a year,—but they got it.

It is necessary to turn all our energies to the central task of the period-to the building of a broad, aggressive Farmer-Labor Party in every town and city, in every state and in the whole nation in preparation for the election struggles and for the decisive election of 1936.

San Fernando Plans Work to Promote Party Growth

The following is an excerpt from the plan of work, ending March 14th, of the San Fernando Sub-Section, Los Angeles Sec-

RECRUITING

Mass activity in connection with our various campaigns will grow and develop only insofar as the Party grows and develops. The recruiting of the best and most active workers into the Party must therefore receive the constant attention of:

1. Fractions, who must continually select the more classconscious workers of their mass

2. Individual comrades, who must build a group of personal friends, whose class-consciousness they will develop by sale of literature and personal contact.

3. The units, who must help individuals and fractions by holding open unit meetings, selling literature, checking, etc.

4. The subsection committee which must maintain a constant and thorough checkup on recruiting activity.

Because not only the education and development of our Party members but also the education and development of the great masses of workers in our territory depends most directly on the activity of our Agit-Prop Department, the following tasks must be fulfilled by this depart-

2. Coordinate the literature sales and educational work so that literature becomes a more useful aid in our work.

3. Encourage and develop the use of leaflets. (a) by the units as a means of public discussion of local problems; (b) by the subsection, as a means of presenting the Party position in the broader campaigns.

4. Develop and improve the unit educationals so that they become a useful factor in the growth of the political knowledge of our comrades, by (a) All members insisting that unit discussions have first place on the unit agenda; (b) criticisms and suggestions to be sent in to the Agit Prop Dept. A Worker Can't Lose On This Investment

Only a Farmer-Labor Party Can Defeat Reactionaries

By Earl Browder -

General Secretary, Communist Party, U.S.A.

Labor Party in 1936 is growing. that only support to Roosevelt can prevent the election of a candidate, and that therefore a Farmer-Labor Party this year would be a mistake. This question must be answered sharply and clearly.

REACTIONARY MENACE

The Republican-Liberty League Hearst combination is the chief threat to American liberties. The main political problem of the day for workers, farmers, and the Committee suffering city middle classes, is how to combat and defeat this forces in America.

When labor leaders such as Hutcheson and Matthew Woll try to lead the workers to the proper education, could well be Liberty League, it shows that they have enlisted under the black their activity, as well as units. flag of Wall street piracy. They are open traitors to the most elementary interests of the workers. They are paving the way for fascism in America.

But those who rally around Roosevelt claim to be fighting effectively against the grave danger of political reaction. Will support of Roosevelt answer the burning economic needs of the people? Will support of Roosevelt guarantee that the offensive of the bankers and industrialists against the living standards of the workers will be defeated? If they face reality and refuse to content themselves with high-sounding phrases, they cannot give an affirmative answer.

Roosevelt is no barrier to so cial and political reaction. On every political and economic issue he has made major concessions to the reactionaries. He cut down relief when they protested. The United Progressive News, a tabloid paper published in Los Angeles, printed in its February 3rd issue a chart purporting to designate what each of the modern political movements offers to the populace. Twelve different social plans were listed, including Communism. Ten representative categories of the population were listed as column heads and under them a few words to indicate whe each movement offered to eac type of person.

The answers for the most part were distorted and designed to persuade the reader in the direcion of the editor's favorite conlusions.

For the aged, Communism was listed as offering "Earned Leisure." For the unemployed, 'Work." We have no quarrel with those declarations; although Communist principles go much farther than such terse, unqualiied propositions. For the employed, Communism

said to offer "Regimentation." . his is a vague and prejudicial vord which suggests the snap of a whip over the backs of slaves. Communism certainly proposes to coordinate the energies of all types of labor for the maximum benefit of the whole society. But it loes not advocate the "goosestepping" of humanity to fit the cold demands of a clockwork For the small home owner.

Communism is credited with offering "Extinction." This is exactly contrary to the truth. Comaunism proposes to make the life of the small home owner practical and free from worry for the first time. One of its strongest deals is to make it possible for ne working man to own his home.

For the housewife, we are alleged to offer "Coupon Divorces." The maliciousness of this answer s obvious. Communism proposes to liberate the housewife from in existence of isolated drudger It would enable her to live a conplete life, to take her place side by side with her husband in society. Communism does not propose to eliminate any of the deirable and valuable features of home life. It does offer the housecorrupt and worst grafting mach. any woman should be tied by law

For the employer, we are said to offer "Extinction." This is well-known for his union busting true. Not, however, extinction by nassacre, as some would like to imply. The employers will have to take their place in society as workers Workers will be their own employers, collèctively owning the means of production and operating and developing them for their own collective good.

For the large property owners, "Confiscation." This also is true. The vast industrial properties will be converted into public properties, operated, not for one man's profit, but to supply society with its needs.

For the banker, "Extinction." Fair enough. This doesn't mean publicans are cleverly maneuver- you will have to keep your moning this mass discontent into re- ey in an old sock. The state will

society to pure Communism. For the farmer, "Collective Farms." This is true, but needs why a small farmer should slav leisure and a better life.

For the ultimate consumer, "No Work, No Eat." This is quite all right. Its main application is to
