

THE SHOPS' STRIKE

Revels of the Rank and File was Lively Enough while it Lasted

The Railroad Shops' strike last week was swift & lively one while it lasted. Mass meetings were held in the Labor Temple every morning with speaking and good music and the spirit of these meetings was in fact practical Democracy, that is to say industrial Democracy. The rank and file of these unions came to the front for a few days at least, taking charge of their own strike and pushing the international officials aside.

WORKERS STILL CONTROL

False Interpretation of Hungarian Turn-over by Capitalist Press

Pragmatic though the news be it has been interpreted in a way that is never likely to be corrected. It is a false interpretation in being put into the hands of the public by the speaker of the day, as introduced by chairman Suter, Business Agent of the "Class War," driving home the message of solidarity and one Big Union and hearing enthusiastic applause from the men and women who were present. At the close of the meeting the speaker of the day was asked to come forward to express their approval of her address. Five hundred and twenty workers were present, and distributed at the public table were inadequate to supply the demand.

WIN A FREE SPEECH FIGHT

Paterson Official Back Down and Allies Union Meetings to be Held.

Paterson, N. J.—Paterson's officials have tried to demonstrate to the public that they are not interested in their fight to prevent the Americanization of the labor movement. They have refused the organization to hold a meeting in the city.

STRIKES GALORE EVERYWHERE.

PARIS—Almost every strike of "Le Temps" contains a column headed "Strikes." During June and early July, the column was filled with news items about the strikes and the conditions. It is significant of the situation that a paper of the complexion of the "Times" should give so much attention to labor conflicts as to report their regularity.

REPUDIATE THE TRAITORS

During the conscription issue, labor in the United States was divided into two camps towards the resisters who were being drafted. It will be remembered that the resisters were not the counter-brother opposed by the Labor Party and defeated when votes were taken to do so.

Included in those expelled from the Labor Party were the President and Secretary of Australia (Mr. Hughes), several State Premiers and other lesser officials. It is to be noted that the Labor Party has been a dispossessed party now that the war is over, the matter is not the subject of the Labor Conference matter up and passed a motion that the resisters were to be admitted into the party again.

AGAINST FAKS LABOR MEETS

It has been decided that in the future Australian labor will attend International Labor Conferences of a business working class nature. They will not however be parties to any bourgeois or middle class labor gatherings, such as anything staged by the International Labor Office, in fact in the United States. It is definitely stated that they will be represented at the International Labor Conference that take place, except the forthcoming one in Brisbane (held in August), as they cannot get delegates there in time. British delegates there in time, but those delegates will not be invited to attend at that conference. At future gatherings, however, Australia will have direct representation, as was done at the recent American Conference.

WIN WITH DIRECT ACTION

Textile Workers get Results without Intervention of Union Officials

INTERVIEW N. A. Aug. 11.—Invent of the new tactics in the shop, without the intervention of any business agent or union officials are becoming an established custom in this city as a result of six years of I. W. O. progress. The workers are making the most of the opportunity to demonstrate what solidarity can accomplish.

AM AT CLASS CONTROL

G. T. Y. of France Driving Straight Ahead to Soviet form of Government

A general review of the policy of the I. W. O. in the United States is given in the "Class Control" article. The writer states that the workers of the United States are in a position to win with direct action. ORGANIZE THE TAILORS.

Launching of New Local Celebrated by Mass Meeting of Labor Temple

The newly organized local of the Tailors Union held a mass meeting at the Labor Temple on Monday evening, August 11. Many new members were initiated and the officers were installed. The chairman called upon those who have taken the lead in the movement for shorter hours and laboratory. Lieberman, Klein and others were present.

SOVIETS AT WORK.

Latest evidence show that the Italian Revolution is spreading. The trouble originated in the smaller towns, but is now spreading to the larger cities in the movement.

American Soldier Says Wars Will Continue Until People Rise and Take Control. Tells of Bolshevik Methods

WASHINGTON, Aug. 12.—War department bureaucrats and our junker caste generally received a severe shock last week when they turned, with the dread which its appearance always creates in conservative circles, to the issue of "Bolsheviks Under the Stars" and a letter printed there from an American soldier stationed in Central Russia.

"What You Don't Know No Hurt You"

By Scott

Like many another carthorse, "What you don't know no hurt you" is vicious as well as false. People do know anything about Spanish politics last winter, yet they hold the world wide. The man in the street did not know a circus was there was to be a world war the following year. The war came in the face of its destructive force. The government of states and majority of cities who are in control with the President on "reconstruction" are, in most instances, ignorant of the economies of reconstruction. That ignorance will not save the people from the reach of the world wide. The man in the street did not know a circus was there was to be a world war the following year. The war came in the face of its destructive force.
